Stockholders' equity		6
Revenues		39
Expenses	24	
Total	$51	$51

Navy Port Company's net income: $15 million ($39 − $24)

(10 min.) S 2-15

1. **Total assets = $94,000 ($4,000 + $14,000 + $1,000 + $48,000 + $27,000)**
2. **Total liabilities = $80,000 ($54,000 + $26,000)**
3. **Net income (loss) = ($8,000) ($31,600 − $29,000 − $9,000 − $1,600)**

 Copyright © 2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

1. Total debits = $ 90,400 ($133,600 + $4,800 − $48,000)

Total credits = $133,600

Difference = $ 43,200 ($133,600 − $90,400);

$43,200 / 9 = $4,800 (an integer), which suggests either a transposition or a slide.

2. Total debits = $160,600 ($133,600 + $41,000 − $14,000)

Total credits = $133,600

Difference = $ 27,000 ($160,600 − $133,600);

$27,000 / 9 = $3,000 (an integer), which suggests either a transposition or a slide.

3. Total debits = $119,600 ($133,600 − $14,000)

Total credits = $147,600 ($133,600 + $14,000)

Difference = $ 28,000 ($147,600 − $119,600)

$28,000 / 2 = $14,000 (original amount of accounts receivable).

Req. 1

Dear Vicki,

This trial balance lists the accounts of the company, along with their balances at December 31, 2016. The trial balance provides the data for computing total assets, total liabilities, and net income or net loss.

Amusement Specialties reports:

a. Total assets = $393,500 ($14,000 + $40,000 + $4,500 + $96,000 + $239,000)

b. Total liabilities = $147,300 ($51,300 + $96,000)

c. Net income = $139,000 ($270,000 − $47,000 − $2,000 − $79,000 − $3,000)

Student responses may vary but should include these amounts.

Req. 1

Dear Amy,

This trial balance lists the accounts of the company, along with their balances at December 31, 2016. The trial balance provides the data for computing total assets, total liabilities, and net income or net loss.

Larrabee Design reports:

a. Total assets = $392,500 ($13,000 + $47,000 + $5,500 + $103,000 + $224,000)

b. Total liabilities = $148,400 ($50,400 + $98,000)

c. Net income = $91,000 ($220,000 − $33,000 − $15,000 − $79,000 − $2,000)

Student responses may vary but should include these calculations.

Challenge Exercises and Problem

(20-40 min.) E 2-70

Req. 1

a. Total cash paid during December:

Cash			
Nov. 30 Bal.	16,500		
Dec. receipts	91,000	Dec. payments	X = $99,250
Dec. 31 Bal.	8,250		

$16,500 + $91,000 − X = $ 8,250
X = $99,250

b. Cash collections from customers during December:

Accounts Receivable			
Nov 30 Bal.	23,000		
Dec. sales on account	42,000	Dec. collections	X = $44,000
Dec. 31 Bal.	21,000		

$23,000 + $42,000 − X = $21,000
X = $44,000

c. Cash paid on notes payable during December:

Notes Payable			
		Nov. 30 Bal.	11,500
X = $23,000	Dec. note payments	X Dec. new borrowing	31,000
		Dec. 31 Bal.	19,500

$11,500 + $31,000 − X = $19,500
X = $23,000

Financial Accounting 11th edition Harrison Solutions Manual

Req. 1

4AC, Inc.
Trial Balance
October 31, 2016

Cash……..	$ 3,900	
Accounts receivable……..	7,100	
Land……..	30,100	
Accounts payable……..		$ 6,200
Note payable……		5,900
Common stock……		24,100
Retained earnings……..		1,700
Service revenue……..		9,400
Salary expense……	2,900	
Advertising expense…….	1,400	
Totals…….	$45,400	$47,300

Out of balance by $1,900

The correct balance of Accounts Receivable is $9,000* ($7,100 + $1,900). After this correction, total debits will be $47,300 ($45,400 + $1,900), the same as total credits.

Req. 2

a. Total assets = $43,000 ($3,900 + $9,000* + $30,100)
b. Total liabilities = $12,100 ($6,200 + $5,900)
c. Net income = $ 5,100 ($9,400 − $2,900 − $1,400)

Req. 1

Henderson Co.:

Income statement	November	December
Employee medical exp. .	$38,000	$ -0-

Balance sheet	Nov. 30	Dec. 31
Cash	$57,000	$30,000*
Accounts payable	38,000	11,000**

Goodland Hospital:

Income statement	November	December
Service revenue	$38,000	$ -0-

Balance sheet	Nov. 30	Dec. 31
Cash	$ -0-	$27,000
Accounts receivable	38,000	11,000**

Req. 2

Explanation:

Henderson's $38,000 expense is Goodland's revenue.
Henderson's $27,000 cash payment is Goodland's cash receipt.
Henderson's $11,000 account payable is Goodland's account receivable.

***$57,000 − $27,000 = $30,000**
****$38,000 − $27,000 = $11,000**

Financial Accounting 11th edition Harrison Solutions Manual

(20-30 min.) Decision Case 2

Little Italy, Inc.
Income Statement
Month Ended December 31, 2016

Sales revenue	$42,000
Expenses:	
Cost of sales (expense)	22,000
Rent expense	6,000
Advertising expense	5,000
Total expenses	33,000
Net income	$ 9,000

Little Italy, Inc.
Balance Sheet
December 31, 2016

ASSETS		LIABILITIES	
Cash	$ 12,000	Accounts payable	$ 8,000
Food inventory	5,000	STOCKHOLDERS' EQUITY	
Furniture	10,000	Common stock	10,000
		Retained earnings	9,000*
		Total stockholders' equity	19,000
		Total liabilities	
Total assets	$27,000	and stockholders' equity	$27,000

*Must solve for this amount. It is also the amount of net income, which is the only change in retained earnings for the month.

Recommendation: Do not expand this month. The business falls short of the goals for both net income and total assets. However, Little Italy, Inc. appears to be profitable, and assets are building toward Gardner's goals. Maybe next month.

Financial Accounting 11th edition Harrison Solutions Manual

Ethical Issue 1

1. The ethical issue is whether these alternatives of financing the business are proper from an economic, legal, and ethical standpoint.
2. The stakeholders are Scruffy Murphy, the bank, potential new and existing creditors, and the friend who may become a stockholder. Consequences to the creditors are the inability of the company to pay interest and the loan. Consequences to the investors are the inability of the company to pay dividends and the possibility of loss of investment if the company goes bankrupt.
3.

Option 1:	Cash	200,000	
	Common Stock.....		200,000
Option 2:	Land	200,000	
	Common Stock.....		200,000
	Common Stock	200,000	
	Land.....		200,000

Option 1 is economically sound, perfectly legal, and also ethical because the sale of the stock is a valid transaction between the business and a stockholder. The consequences of this decision are that Murphy obtains additional financing at a cost (he now shares ownership of the business with his friend). The friend gives up cash in exchange for an ownership interest in the business. The bank and future creditors obtain complete and truthful disclosure of the manner in which the business has been financed.

Option 2 represents "window dressing" (making the company look like an entity that it is not). Although it might be legal in the strictest sense of the word (and it might not), this option does not faithfully represent economic reality. Thus, it is not in accordance with GAAP, which is a substitute for the legal criterion. This option is also unethical because the receipt of the land by the business is not a real transaction. The transfer of the land back to

 Copyright © 2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

Murphy means that the business never actually has the land for its use. It violates the rights of the bank and future creditors to give them information that is inaccurate and that does not faithfully represent economic reality.

4. **The best option to take is definitely Option 1. The decision maker can walk away from this transaction confident that he or she told the truth.**

Copyright © 2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

Ethical Issue 2

Part a.

1. The ethical issue is whether you should question your grade, which is higher than you expected. Your choices are (a) discuss the grade with the professor; and (b) do not discuss the grade with the professor.

2, 3. Stakeholders are you, the professor, the other students in the class, and the university. The possible consequences to you of discussing the grade with the professor is that it may lead to the discovery that the professor made a mistake in calculating the grade, which may lead to a downward adjustment. While this could possibly have adverse economic consequences (i.e., perhaps loss of scholarship if the grade is substantially lowered), it is unlikely that a letter-grade drop in one course would have such an impact on grade point average as to cause loss of a scholarship. There is no legal consequence to reporting a grade that is too high. The ethical consequence is generally positive on all concerned, as it leads to clarification of the true grade.

4. Student opinions will vary on this part.

Part b.

1. The ethical issue in this case is whether you should question your grade, which is now lower than you expected. Your choices are (a) discuss the grade with the professor; and (b) do not discuss the grade with the professor.

2, 3. Like part a, the stakeholders are you, the professor, the other students in the class, and the university. The possible consequences to you of discussing the grade with the professor is that it may lead to the discovery that the professor made a mistake in calculating the grade, which may lead

 Copyright © 2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

to an upward adjustment. This could have positive economic consequences (i.e., perhaps keeping a scholarship). Like part a, the ethical consequence of this action is generally positive on all concerned, as it leads to clarification of the true grade.

4. Most students would probably respond "take it to the professor." But shouldn't we be just as concerned about knowing the true grade either way? The author recommends discussing the grade with the professor one way or the other.

Part c.

Both course grades and financial statements report results that people use in order to make decisions that can carry both positive and negative consequences. In both situations, it is important that the user receive relevant information, and that the information faithfully represent facts as they actually occurred.

Focus on Analysis: Under Armour, Inc.

(20-30 min.)

Req. 1

During fiscal 2014, Under Armour, Inc. had more net revenues than cash collections. This is determined by analyzing net receivables, as follows:

Net receivables:

		(Thousands)
	Balance at the end of fiscal 2013	$ 209,952
+	Net revenues during fiscal 2014 (from consolidated statements of income)	3,084,370
−	Collections from customers during fiscal 2014	(X)
=	Balance at the end of fiscal 2014	$ 279,835

Solving for X, collections were $3,014,487 ($209,952 + $3,084,370 – $279,835). Another way to express this relationship is that when accounts receivable increase during the year, revenues must exceed cash collections. If accounts receivable decrease during the year, cash collections must exceed revenues.

Financial Accounting 11th edition Harrison Solutions Manual

Req. 2

Net revenues increased 32.26% in 2014, which is better than in 2013 (27.09%) perhaps due to a better strategic alignment. Net income increased more in 2014 (28.16%) than in 2013 (26.05%). Net income grew slower than net revenues during the two year period due to a larger tax bill and additional sources of expenses due to expansion. For example, interest expense increased 81.90% in 2014 and selling, general and administrative expenses increased 32.89% in 2014.

	2014	2013	2012
Net revenues (thousands)	$3,084,370	$2,332,051	$1,834,921
$ change	752,319	497,130	
Percentage change	32.26%	27.09%	
Net income (thousands)	$208,042	$162,330	$128,778
$ change	45,712	33,552	
Percentage change	28.16%	26.05%

Financial Accounting 11th edition Harrison Solutions Manual

Chapter 2 - Transaction Analysis

Directed Reading Worksheet

Part I: Explain what a transaction is (LO1)

1. A(n) _____ is any event that has a financial impact on the business and can be measured reliably.

2. What two things must happen for an event to be considered a transaction?

Part II: Define "account," and list and differentiate between different types of accounts (LO2)

3. What is the accounting equation?

4. A(n) _____ is the record of all the changes in a particular asset, liability, or stockholders' equity during a period.

5. What is the definition of an asset?

6. List seven asset accounts that a company is likely to have.

Financial Accounting 11th edition Harrison Solutions Manual

7. What is the definition of a liability?

8. List the three most common types of liabilities.

9. What is stockholders' equity?

10. What five main types of accounts are in stockholders' equity?

11. What effect does a dividend declaration have on retained earnings?

12. What effect does revenue have on stockholders' equity? What effect do expenses have on stockholders' equity?

Financial Accounting 11th edition Harrison Solutions Manual

Part III: Show the impact of business transactions on the accounting equation

13. For each item, indicate the impact of that transaction on assets, liabilities, and equity. Assume that all transactions, unless stated otherwise, are in cash.

	Transaction	Assets (increase + or decrease -)	=	Liabilities (increase + or decrease -)	+	Equity (increase + or decrease -)
1.	**Received $50,000 cash and issued stock to the owners**					
2.	**Paid $40,000 cash for land**					
3.	**Bought $3,700 of supplies on account**					
4.	**Received $7,000 cash from customers for service revenue earned**					
5.	**Performed services for customers on account, $3,000**					
6.	**Paid cash expenses: rent, $1,100; employee salary, $1,200; utilities, $400**					
7.	**Paid $1,900 on the account payable created in transaction 3**					
8.	**Major stockholder paid personal funds to remodel home, not a business transaction**					
9.	**Received $1,000 on account**					
10.	**Sold land for cash at the land's cost of $22,000**					
11.	**Declared and paid a dividend of $2,100 to the stockholders**					

Financial Accounting 11th edition Harrison Solutions Manual

14. What line item is carried from the Income Statement to the Statement of Retained Earnings? What line item is carried from the Statement of Retained Earnings to the Balance Sheet?

Part IV: Analyze the impact of business transactions on accounts

15. Describe what it means that accounting is based on a double-entry system?

16. The left side of each t-account is the _____ side, and the right side is the _____ side.

17. Describe how debits and credits affect asset, liability, and stockholders' equity accounts.

18. How do debits and credits affect dividend, expense, and revenue accounts.

Part V: Record (journalize and post) transactions in the books

19. What is the chronological record of transactions that accountants use called?

Financial Accounting 11th edition Harrison Solutions Manual

20. List the three steps of the journalizing process.

    a. _____

    b. _____

    c. _____

21. The _____ is a grouping of all the T-accounts, with their balances.

22. What does “posting” mean?

23. Post the following transactions to the ledger accounts. Use t-accounts to represent the ledger accounts. (Transactions 1-4 from question 13)

1.	Received $50,000 cash and issued stock to the owners
2.	Paid $40,000 cash for land
3.	Bought $3,700 of supplies on account
4.	Received $7,000 cash from customers for service revenue earned

Part VI: Construct and use a trial balance

24. Describe a trial balance, including its purpose.

25. What formula could you use to analyze the cash account and compute cash payments for the period if you were unsure of the amount of cash payments?

26. What three strategies could help you detect and correct accounting errors made during the period?
    a. _____
    b. _____
    c. _____

27. What do organizations use to list all of their accounts and account numbers?

28. Describe what an account's "normal balance" means.

Financial Accounting 11th edition Harrison Solutions Manual

29. Indicate the normal balance for each of the following types of accounts:
    a. Assets
    b. Liabilities
    c. Stockholders' equity – overall
        i. Common stock
        ii. Retained earnings
        iii. Dividends
        iv. Revenues
        v. Expenses

30. What is an advantage of using the four-column account format?

31. On what statement do companies report their results of operations? On what statement do companies report their financial position?

Chapter 2 - Transaction Analysis

Directed Reading Worksheet Answer Key

Part I: Explain what a transaction is (LO1)

1. Transaction
2. (1) It gives something, and (2) it receives something in return.

Part II: Define "account," and list and differentiate between different types of accounts (LO2)

3. Assets = Liabilities + Stockholders' (Owners') Equity
4. Account
5. Economic resources that provide a future benefit for a business
6. Cash, Accounts receivable, Inventory, Prepaid expenses, Film and television costs, Investments, and Parks, Resorts, and Other Property
7. Liabilities are debt. Amounts owed to other parties (payables).
8. Accounts payable, Notes payable, and Accrued liabilities
9. The owners' claims to the assets of a corporation
10. Common stock, Retained earnings, Dividends, Revenues, and Expenses
11. Dividends decrease retained earnings
12. Expenses decrease stockholders' equity.
    Revenues increase stockholders' equity.

Financial Accounting 11th edition Harrison Solutions Manual

13.

	Transaction	Assets (increase + or decrease -)	=	Liabilities (increase + or decrease -)	+	Equity (increase + or decrease -)
1.	**Received $50,000 cash and issued stock to the owners**	50,000	=		+	50,000
2.	**Paid $40,000 cash for land**	(40,000) +40,000	=		+	
3.	**Bought $3,700 of supplies on account**	3,700	=	3,700	+	
4.	**Received $7,000 cash from customers for service revenue earned**	7,000	=		+	7,000
5.	**Performed services for customers on account, $3,000**	3,000	=		+	3,000
6.	**Paid cash expenses: rent, $1,100; employee salary, $1,200; utilities, $400**	(2,700)	=		+	(2,700)
7.	**Paid $1,900 on the account payable created in transaction 3**	(1,900)	=	(1,900)	+	
8.	**Major stockholder paid personal funds to remodel home, not a business transaction**	N/A	=	N/A	+	N/A
9.	**Received $1,000 on account**	+1,000 (1,000)	=		+	
10.	**Sold land for cash at the land's cost of $22,000**	+22,000 (22,000)	=		+	
11.	**Declared and paid a dividend of $2,100 to the stockholders**	(2,100)	=		+	(2,100)

14. Net income

    Ending retained earnings

Part IV: Analyze the impact of business transactions on accounts

15. The dual effects of each transaction are always recorded. Every transaction affects at least two accounts.
16. Debit; credit
17. Debits increase assets and decrease liabilities and stockholders' equity. Credits decrease assets and increase liabilities and stockholders' equity.
18. Debits increase dividends and expenses but decrease revenues. Credits decrease dividends and expenses but increase revenues.

Part V: Record (journalize and post) transactions in the books

19. Journal
20. a. Specify each account affected by the transaction and classify each account by type.

    b. Determine whether each account is increased or decreased by the transaction. Use the rules of debit and credit to increase or decrease each account.

    c. Record the transaction in the journal, including a brief explanation. The debit side in entered on the left margin, and the credit side is indented to the right.
21. Ledger
22. Posting means to copy data (amounts) from the journal to the ledger.
23.

Cash		Common Stock		Land		Service Revenue	
(1) 50,000	(2) 40,000		(1) 50,000	(2) 40,000			(4) 7,000
(4) 7,000							

Supplies		Accounts Payable	
(3) 3,700			(3) 3,700

Financial Accounting 11th edition Harrison Solutions Manual

Part VI: Construct and use a trial balance

24. A trial balance lists all of the accounts with their balances. It starts with assets, then liabilities and stockholders' equity. The trial balance summarizes all the account balances and shows whether total debits equal total credits. The trial balance facilitates in the preparation of the financial statements.
25. Cash payments = Beginning balance + Cash receipts – Ending balance
26. a. Search the records for a missing account.

    b. Divide the out-of-balance amount by 2.

    c. Divide the out-of-balance amount by 9.
27. Chart of accounts
28. Normal balance is the side of the account where increases are recorded. In order to increase an asset, you debit it, therefore assets have a normal debit balance.
29. Normal balances:
    a. Assets – **debit**
    b. Liabilities – **credit**
    c. Stockholders' equity – overall – **credit**
        i. Common stock – **credit**
        ii. Retained earnings – **credit**
        iii. Dividends – **debit**
        iv. Revenues – **credit**
        v. Expenses – **debit**
30. It keeps a running balance in the two right columns.
31. Results of operations are reported on the income statement, while the company's financial position can be found on the balance sheet.

Financial Accounting 11th edition Harrison Solutions Manual

Chapter 2: Transaction Analysis

Learning Objectives

1. **Explain** what a transaction is
2. **Define** "account" and **list** and **differentiate** between different types of accounts
3. **Show** the impact of business transactions on the accounting equation
4. **Analyze** the impact of business transactions on accounts
5. **Record** (journalize and post) transactions in the books
6. **Construct and use** a trial balance

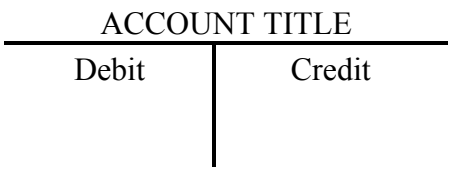

Chapter 2 Outline

I. A Business Transaction
   - A. Any event that has a financial impact on the business and can be measured reliably
   - B. Giving something
   - C. Receiving something in return

II. Account
   - A. Record of all the changes in a particular asset, liability, or stockholders' equity during a period
   - B. Categories
     1. Assets (Examples: Cash, Accounts Receivable, Inventory)
     2. Liabilities (Examples: Accounts Payable, Notes Payable, Accrued Liabilities)
     3. Stockholders' (Owners') Equity (Examples: Common Stock, Retained Earnings, Dividends, Revenues, Expenses)

III. Transaction Examples
   - A. Impact on the accounting equation (the equation always stays in balance)
   - B. Impact on the financial statements

IV. Impact of Business Transactions on Accounts
   - A. Double-entry accounting system
   - B. T-account:

     1. Debit – "left or left-hand side"
     2. Credit – "right or right-hand side"
   - C. Rules of debit and credit

Copyright ©2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

1. Debit – Increases in assets, expenses, and dividends; decreases in liabilities, stockholders' equity, and revenues
2. Credit – Increases in liabilities, stockholders' equity, and revenues; decreases in assets, expenses, and dividends

D. Balance = amount remaining in an account

E. Revenues (Examples: Sales Revenue, Legal Fees Earned, Service Revenue)

F. Expenses (Examples: Cost of Goods Sold, Salaries Expense, Utilities Expense)

V. Record Transactions in the Books

A. Journal – A chronological record of transactions

B. Journalizing example:

Account and Explanation	Debit	Credit
Cash	50,000	
Common Stock		50,000
Issued common stock		

C. Ledger – Grouping of all the T-accounts, with their balances

D. Posting – Data must be copied from the journal to the ledger

E. Posting example:

Account and Explanation	Debit	Credit
Cash	50,000	
Common Stock		50,000
Issued common stock		

Cash	
50,000	

Common Stock	
	50,000

F. Flow of accounting data

Copyright ©2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

VI. Construct and Use a Trial Balance

A. Analyzing accounts

B. Correcting accounting errors

C. Chart of accounts

D. Normal account balances:

Account Type	Normal Balance	Increase	Decrease
Asset	**Debit**	**Debit**	**Credit**
Liability	**Credit**	**Credit**	**Debit**
Stockholders' Equity	**Credit**	**Credit**	**Debit**
Revenue	**Credit**	**Credit**	**Debit**
Expense	**Debit**	**Debit**	**Credit**
Common Stock	**Credit**	**Credit**	**Debit**
Retained Earnings	**Credit**	**Credit**	**Debit**
Dividends	**Debit**	**Debit**	**Credit**

E. Account formats

F. How to analyze transactions from T-accounts

Chapter Activities

1. Chapter Opener

Chapter 2 spotlight continues with the Walt Disney Company discussion from Chapter 1 and discusses the sources of some of the millions of transactions that Disney records each year, resulting in billions of dollars of revenues. Throughout the chapter, references are made to the accounts and transactions that Disney reports in their financial statements. Again, have the students review the Walt Disney website at https://thewaltdisneycompany.com, and study the financial statements, focusing on the consolidated statements of income (found in the annual report), and discuss what items might make up the company's revenues. Additionally, discuss the items that could be included in the expense figures for Disney. This could lead to a discussion about how a company determines its net income or net loss.

Copyright ©2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

2. Transactions Activity

Use the game Monopoly as an example of a business that would engage in transactions for a particular period. Examples of transactions that a player of the game might encounter include:

1) Receive $1,500 in cash to be used as capital investment
2) Bank pays you a dividend of $50
3) Purchase Park Place for $35
4) Pay poor tax of $15
5) Purchase house for property on Park Place for $200
6) Pay rent on Baltic Avenue of $4
7) Receive for services $25
8) From sale of common stock, you get $45
9) Pay school tax of $150
10) Collect rent on Park Place of $175
11) Pay rent on Pennsylvania Railroad of $25
12) Pay Water Works $60
13) Mortgage Park Place for $175

Place the students into groups and use the chart of accounts below. Have the students put each of the transactions in journal entry form.

Cash
Dividend Revenue
Common Stock
House
Investment Revenue
Land
Mortgage Payable
Rent Expense
Rent Revenue
Tax Expense
Service Revenue
Utilities Expense

Difficult Topics

- Rules of debit and credit

CHAPTER 2
10-MINUTE QUIZ

Circle the letter of the best response.

1. Which of the following accounts is decreased with a credit?
   A. Accounts Receivable
   B. Accounts Payable
   C. Rent Revenue
   D. Service Revenue

2. The ledger is:
   A. Always expected to have a debit balance.
   B. An event that has an economic impact on the business.
   C. A grouping of all T-accounts, with their balances.
   D. None of the above

3. The journal is:
   A. A listing of all open accounts and their balances.
   B. A listing of all accounts used to record the business transactions.
   C. A chronological record of transactions.
   D. Not necessary to record transactions.

4. Which of the following accounts is decreased with a debit?
   A. Equipment
   B. Accounts Payable
   C. Cash
   D. Payroll Expense

5. The Spartain Company received $3,600 from a customer on account. The entry to record this transaction is:

A. Accounts Receivable	3,600	
Cash		3,600
B. Cash	3,600	
Accounts Payable		3,600
C. Revenue	3,600	
Cash		3,600
D. Cash	3,600	
Accounts Receivable		3,600

Copyright ©2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

6. In analyzing a transaction using the accounting equation, which account is included in the Stockholders' Equity section?
   A. Accounts Payable
   B. Revenue
   C. Accounts Receivable
   D. Cash

7. Cash at the beginning of March was $5,670. During the month, cash receipts totaled $78,990. Ending cash at March 31 was $2,340. Cash disbursements during March must have been:
   A. $82,320
   B. $84,660
   C. $75,660
   D. Cannot be determined from the information given.

8. A trial balance:
   A. Requires that every transaction affect at least two accounts.
   B. Lists all accounts with their balances.
   C. Mandates that the dollar sum of the debits equal that of the credits for each transaction.
   D. None of the above

9. When a company sells merchandise, but the customer does not pay it immediately, it should:
   A. Credit Accounts Payable.
   B. Make no entry.
   C. Credit Accounts Receivable.
   D. Debit Accounts Receivable.

10. An expense:
   A. Has the same normal balance as liabilities.
   B. Is the decrease in liabilities as a result of providing goods or services.
   C. Is the decrease in stockholders' equity as a result of providing goods or services.
   D. Is the increase in stockholders' equity as a result of providing goods or service

Financial Accounting 11th edition Harrison Solutions Manual

Chapter 2: Questions You Should Be Able To Answer

Learning Objective	Question(s)	Answer	For practice
1. Explain what a transaction is	What is a business transaction?	A **transaction** is any event that has a financial impact on the business and can be measured reliably.	S2-1 S2-9
2. Define "account," and list and differentiate between different types of accounts	• What is an account?	• An account, the basic summary device of accounting, is the record of all the changes in a particular asset, liability, or stockholders' equity during a period.	S2-3
	• Describe the following accounts: 1. Assets 2. Liabilities 3. Stockholders' equity 4. Revenues 5. Expenses 6. Dividends	1. Economic resources that provide a future benefit for a business. 2. Debts of the business, due in cash or goods/services, 3. The owners' claims to the assets of the corporation, including common stock and retained earnings. 4. Increases in stockholders' equity that result from delivering goods or services to customers. 5. Decreases in stockholders' equity that result from costs of operating a business. 6. Distributions to shareholders, usually in cash, from profitable operations; dividends decrease retained earnings.	S2-2 S2-4

Copyright ©2017 Pearson Education Inc.

Financial Accounting 11th edition Harrison Solutions Manual

Learning Objective	Question(s)	Answer	For practice
3. Show the impact of business transactions on the accounting equation			S2-5 S2-6
4. Analyze the impact of business transactions on accounts	What is the double-entry system of accounting?	Every transaction affects at least two accounts.	S2-7 S2-8 S2-9
	What is a T-account?	The letter, T; the name of the account is written on the top. Debit entries are on the left side with credit entries on the right side of the T-account.	
	• What are the rules of debit and credit?	• Assets increase with a debit and decrease with a credit. • Liabilities and stockholders' equity increase with a credit and decrease with a debit. (Note that the rules are the opposite on opposite sides of the accounting equation.) • Revenues increase with a credit and expenses increase with a debit. • Dividends increase with a debit. (Note that revenues increase retained earnings and expenses and dividends decrease retained earnings.)

Financial Accounting 11th edition Harrison Solutions Manual

Learning Objective	Question(s)	Answer	For practice
5. Record (journalize and post) transactions in the books	What is a journal?	A chronological record of business transactions; the first place a transaction is recorded.	S2-10 S2-11, S2-12, S2-13
	What is the ledger?	A grouping of the T-accounts, along with their balances.	
	What occurs during posting?	Transactions are posted or copied from the journal to the ledger (always in that order). A balance is calculated for each account in the ledger.	
6. Construct and use a trial balance	What is a trial balance?	A list of all accounts with their balances—assets first, then liabilities and stockholders' equity (including revenue and expense accounts). Account balances are listed in either the debit column or the credit column, and the columns are totaled. They should be equal.	S2-14 S2-15 S2-16
	What does a trial balance prove?	That equal debits and credits have been recorded.	
	How can the trial balance be used?	To facilitate preparation of financial statements (although they will be more accurate after adjusting entries are added in the next chapter).	
	How can accounting errors be detected?	1. Search for missing amounts. 2. If the two columns of the trial balance are not equal, search for an entry of that amount. 3. Divided the difference between the two columns by 9 to determine if there is a slide or transposition error.	
Ethics Check			EC-1

Chapter 2: Locating an annual report/Form 10-K

Initial posting

In this discussion, you will use information you find in a company's Form 10-K, which is the annual report that publicly-held companies file with the Securities & Exchange Commission (SEC.)

The first thing you need to do is find a recent 10-K (issued within the past twelve months) for a publicly-held company in which you are interested.

To find a Form 10-K, you will use the SEC Edgar database. Search online for "SEC Edgar." If you know what company you are interested in, you might also be able to go to that company's Investor Relations website and locate its Form 10-K there. You can also view a short video about how to locate a Form 10-K on the SEC EDGAR site at http://youtu.be/MPgvGua9-RM.

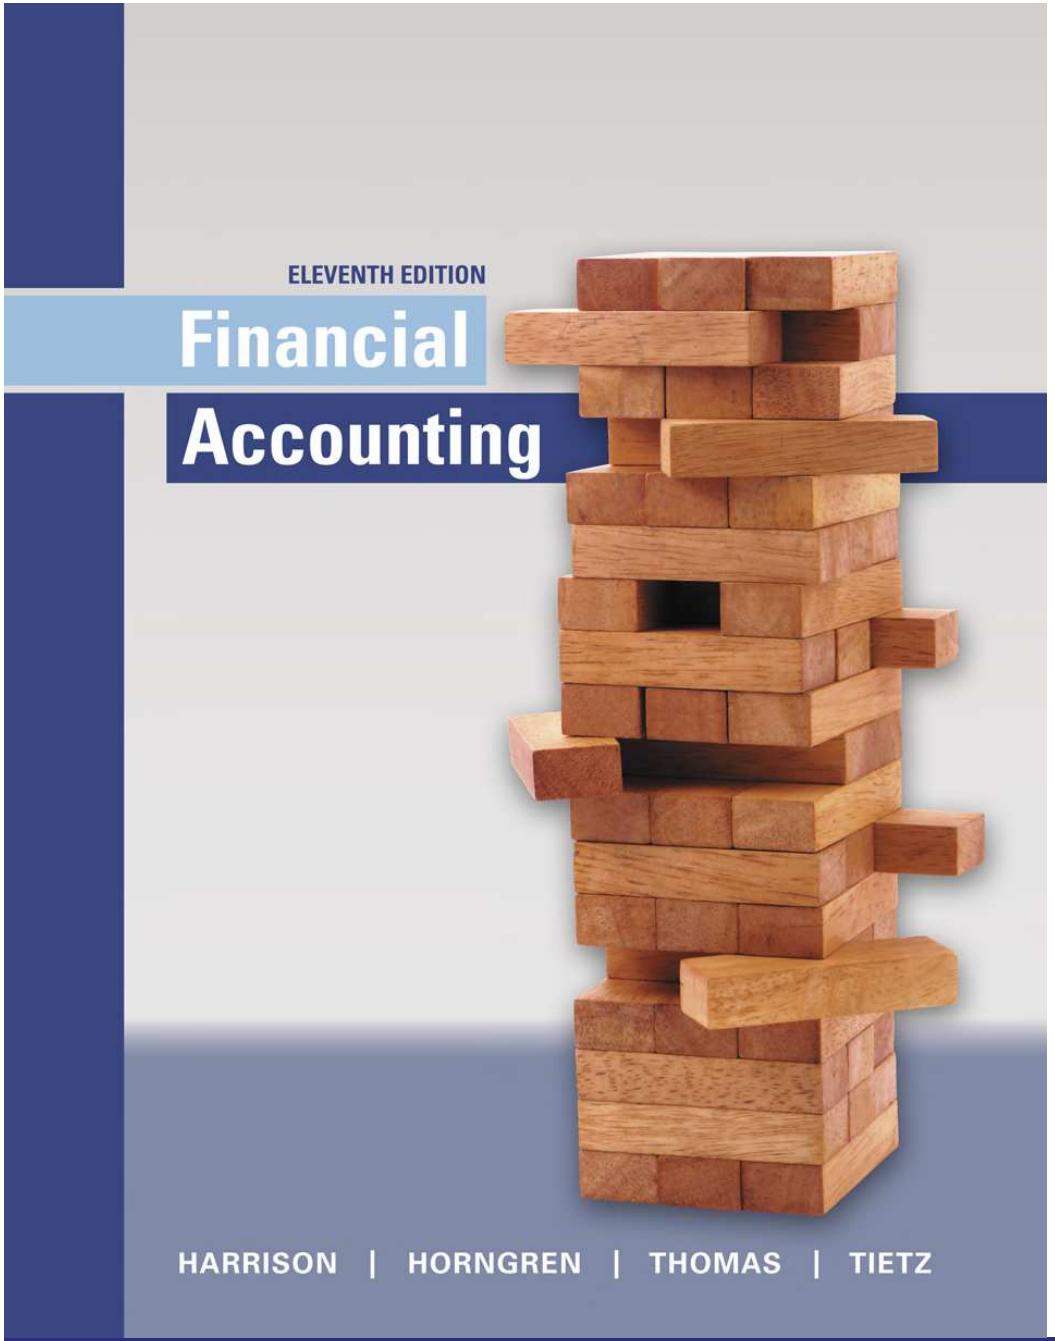

In your first posting for this discussion, describe the company you selected for the Form 10-K. Give the company's full official name. Give the URL for the direct download of the company's 10-K that you are referencing. You will want to talk about what this company does and the products it sells. What is the company's year end (date)? Also tell why you selected this company. Why does this company interest you? Is this somewhere you might be interested in working at some day? Are you passionate about the company's products?

Your posting should be 100 – 300 words. Do not copy phrases from the Form 10-K; write your post in your own words. You can include information from the financial statements or Note 1 as well. Include one item in your paragraph that you found particularly interesting or surprising. You also need to post (in that same initial posting) a question about something in the 10-K (the parts described above only) that puzzles you; some question you have from reading the parts described.

Follow-up posting

For your follow-up posting(s) for the week (the one(s) due by Saturday), you will reply to someone's question(s). Use your textbook as your reference. Have reasons (facts) behind your answer (please note: Wikipedia is not an appropriate source, nor are many websites you find.) Do try to answer the question and provide rationale for your answer (again, your textbook is the best source in most cases).

Financial Accounting

Chapter Two:

Transaction Analysis

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Learning Objectives

1. **Explain** what a transaction is
2. **Define** "account," and **list** and **differentiate** between different types of accounts
3. **Show** the impact of business transactions on the accounting equation
4. **Analyze** the impact of business transactions on accounts
5. **Record** (journalize and post) transactions in the books
6. **Construct and use** a trial balance

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Learning Objective One

Explain what a transaction is

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Financial Accounting 11th edition Harrison Solutions Manual

Explain What a Transaction Is

A **transaction** is any event that has a financial impact on the business and can be measured reliably.

- Provides objective information about the financial impact on an exchange
  - Gives something
  - Receives something
- Accounting records both sides of the transaction

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Learning Objective Two

Define "account," and **list** and **differentiate** between different types of accounts

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Define Account

The accounting equation expresses the basic relationship of accounting.

Assets = Liabilities + Stockholders' (Owners') Equity

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Define Account

An **account** is the record of all the changes in a particular asset, liability, or stockholders' equity during a period.

- Basic summary device

Copyright © 2017 Pearson Education, Inc. All rights reserved.

List and Differentiate Between Different Types of Accounts

Assets: economic resources that provide a future benefit

Cash	Money including bank account balances, paper currency, coins, certificates of deposits, and checks
Accounts Receivable	Promise for future cash for goods or services
Inventory	Goods the company sells to customers

Copyright © 2017 Pearson Education, Inc. All rights reserved.

List and Differentiate Between Different Types of Accounts

Assets: economic resources that provide a future benefit

Prepaid Expenses	Expenses paid in advance, such as insurance or rent
Investments	Interests purchased and held in other companies
Property, Plant, and Equipment	Cost of the land, buildings, and equipment owned by a company

Copyright © 2017 Pearson Education, Inc. All rights reserved.

List and Differentiate Between Different Types of Accounts

Assets: economic resources that provide a future benefit

Prepaid Expenses	Expenses paid in advance, such as insurance or rent
Investments	Interests purchased and held in other companies
Property, Plant, and Equipment	Cost of the land, buildings, and equipment owned by a company

Copyright © 2017 Pearson Education, Inc. All rights reserved.

List and Differentiate Between Different Types of Accounts

Liabilities: a debt or payable

Accounts Payable	Promise to pay a debt
Notes Payable	Signed notes promising to pay a future amount
Accrued Liabilities	Liability for an expense you have not yet paid

Copyright © 2017 Pearson Education, Inc. All rights reserved.

List and Differentiate Between Different Types of Accounts

Stockholders' Equity: the stockholders' claims to the assets of the company

Common Stock	Owners' investment in the corporation through stock
Retained Earnings	Cumulative net income minus net losses and dividends over the company's life
Dividends	Distribution of the company's earnings to its shareholders

Copyright © 2017 Pearson Education, Inc. All rights reserved.

List and Differentiate Between Different Types of Accounts

Stockholders' Equity: the stockholders' claims to the assets of the company

Revenues	Increase in stockholders' equity from delivering goods or services to customers
Expenses	Decrease in stockholders' equity due to the cost of operating the business

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Financial Accounting 11th edition Harrison Solutions Manual

Learning Objective Three

Show the impact of business transactions on the accounting equation

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Show the impact of business transactions on the accounting equation

Example: Alladin Travel, Inc.

To illustrate the accounting for transactions, we will consider 11 transactions and analyze each in terms of its effect on Alladin Travel.

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 1

On, April 1, Starr Williams and a few friends invest $50,000 to open Alladin Travel, Inc., and the business issues common stock to the stockholders.

Assets	=	Liabilities	+	Stockholders' Equity	Type of Stockholders' Equity Transaction
Cash				Common Stock	
(1) + 50,000				+ 50,000	Issued common stock

Copyright © 2017 Pearson Education, Inc. All rights reserved.

3 Transaction 2

Alladin purchases land for a new location and pays cash of $40,000.

	Assets			=	Liabilities	+	Stockholders' Equity	Type of Stockholders' Equity Transaction
	Cash	+	Land				Common Stock	
(1)	50,000						50,000	Issued common stock
(2)	− 40,000		+ 40,000					
Bal	10,000		40,000				50,000	
		50,000					50,000	

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 3

The business buys supplies on account, agreeing to pay $3,700 within 30 days.

	Assets					=	Liabilities	+	Stockholders' Equity
	Cash	+	Supplies	+	Land		Accounts Payable	+	Common Stock
Bal	10,000				40,000				50,000
(3)			+ 3,700				+ 3,700		
Bal	10,000		3,700		40,000		3,700		50,000
			53,700				53,700		

Copyright © 2017 Pearson Education, Inc. All rights reserved.

3 Transaction 4

Alladin earns $7,000 of service revenue by providing services for customers.

	Assets				Liabilities	+	Stockholders' Equity		Type of Stockholders' Equity Transaction
	Cash	+	Supplies	+ Land	Accounts Payable	+	Common Stock	+ Retained Earnings	
Bal	10,000		3,700	40,000	3,700		50,000		
(4)	+ 7,000							+ 7,000	Service revenue
Bal	17,000		3,700	40,000	3,700		50,000	7,000	
			60,700				60,700		

Copyright © 2017 Pearson Education, Inc. All rights reserved.

3 Transaction 5

Alladin performs services on account, which means that Alladin lets some customers pay later.

	Assets					Liabilities	+	Stockholders' Equity		Type of Stockholders' Equity Transaction
	Cash	+ Accounts Receivable	+ Supplies	+ Land	=	Accounts Payable	+	Common Stock	+ Retained Earnings	
Bal	17,000		3,700	40,000	=	3,700		50,000	7,000	
(5)		+ 3,000							+ 3,000	Service revenue
Bal	17,000	3,000	3,700	40,000	=	3,700		50,000	10,000	
	63,700				=	63,700				

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 6

During the month, Alladin Travel, Inc., pays $2,700 for the following expenses: rent $1,100; employee salaries, $1,200; and utilities, $400.

	Assets					Liabilities	+	Stockholders' Equity		Type of Stockholders' Equity Transaction
	Cash	+ Accounts Receivable	+ Supplies	+ Land	=	Accounts Payable	+	Common Stock	+ Retained Earnings	
Bal	17,000	3,000	3,700	40,000		3,700		50,000	10,000	
(6)	− 2,700								− 1,100	Rent expense
									− 1,200	Salary expense
									− 400	Utilities expense
Bal	14,300	3,000	3,700	40,000		3,700		50,000	7,300	
	61,000					61,000				

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 7

Alladin pays $1,900 on account, which means to make a payment toward an account payable.

	Assets							=	Liabilities	+	Stockholders' Equity		
	Cash	+	Accounts Receivable	+	Supplies	+	Land		Accounts Payable	+	Common Stock	+	Retained Earnings
Bal	14,300		3,000		3,700		40,000		3,700		50,000		7,300
(7)	− 1,900								− 1,900				
Bal	12,400		3,000		3,700		40,000		1,800		50,000		7,300
					59,100						59,100		

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 8

Starr Williams, the major stockholder of Alladin Travel, paid $30,000 out of her personal bank account to remodel her home.

No Entry

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 9

In transaction 5, Alladin performed services for customers on account. The business now collects $1,000 from a customer.

	Assets							=	Liabilities	+	Stockholders' Equity		
	Cash	+	Accounts Receivable	+	Supplies	+	Land		Accounts Payable	+	Common Stock	+	Retained Earnings
Bal	12,400		3,000		3,700		40,000		1,800		50,000		7,300
(9)	+ 1,000		− 1,000										
Bal	13,400		2,000		3,700		40,000		1,800		50,000		7,300
	59,100								59,100				

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Transaction 10

Alladin sells some land for $22,000, which is the same amount Alladin paid for the land.

	Assets							=	Liabilities			+	Stockholders' Equity		
	Cash	+	Accounts Receivable	+	Supplies	+	Land		Accounts Payable	+	Common Stock	+	Retained Earnings		
Bal	13,400		2,000		3,700		40,000		1,800		50,000		7,300		
(10)	+ 22,000						− 22,000								
Bal	35,400		2,000		3,700		18,000		1,800		50,000		7,300		
			59,100								59,100				

Copyright © 2017 Pearson Education, Inc. All rights reserved.

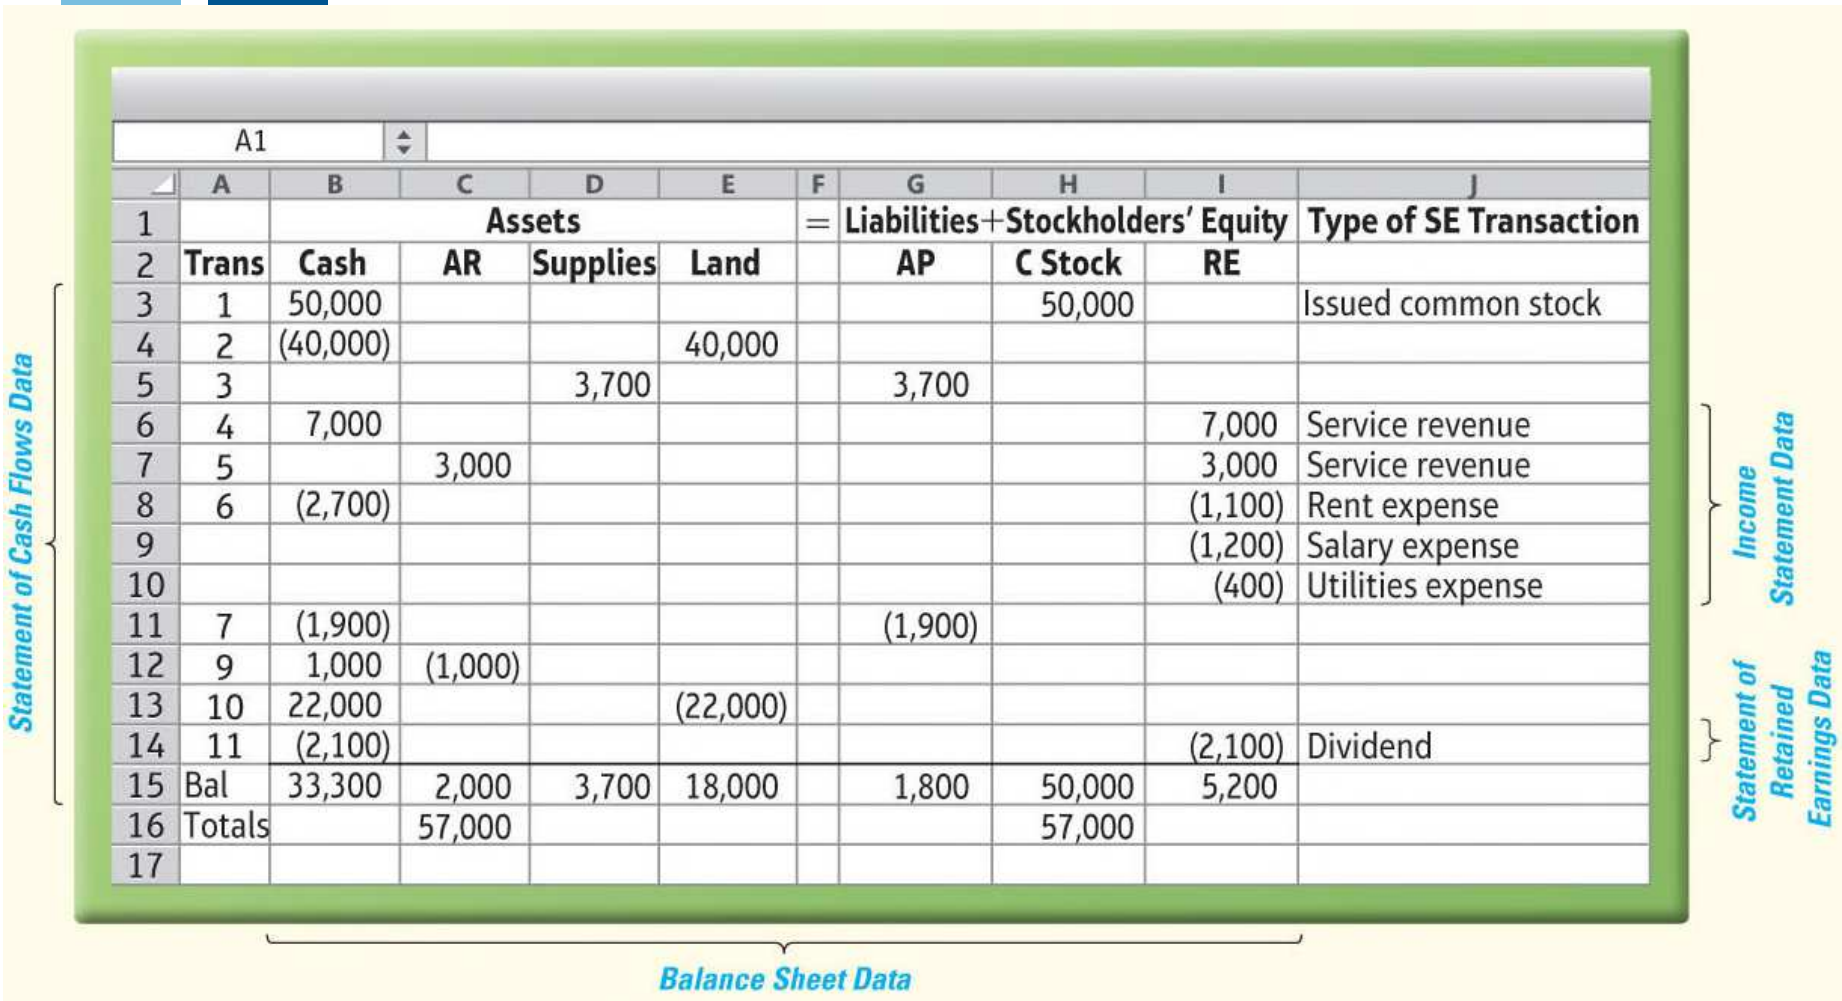

3 Transaction 11

Alladin Travel, Inc., declares a dividend and pays the stockholders $2,100 cash.

	Assets				=	Liabilities	+	Stockholders' Equity		Type of Stockholders' Equity Transaction
	Cash	+ Accounts Receivable	+ Supplies	+ Land		Accounts Payable	+	Common Stock	+ Retained Earnings	
Bal	35,400	2,000	3,700	18,000		1,800		50,000	7,300	
(11)	−2,100								−2,100	Dividend
Bal	33,300	2,000	3,700	18,000		1,800		50,000	5,200	
	57,000					57,000

Learning Objective Four

Analyze the impact of business transactions on accounts

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Analyze the impact of business transactions on accounts

Accounting:

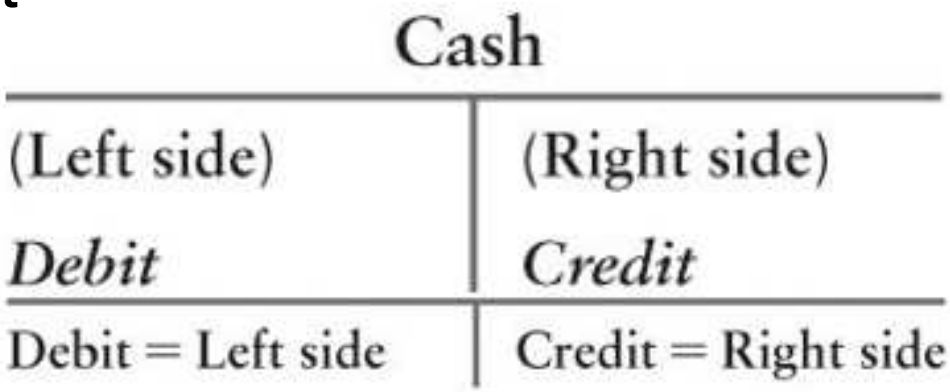

- Double-entry system
- Records dual effects of each transaction
  - At least two accounts in each transaction

Copyright © 2017 Pearson Education, Inc. All rights reserved.

4 Analyze the impact of business transactions on accounts

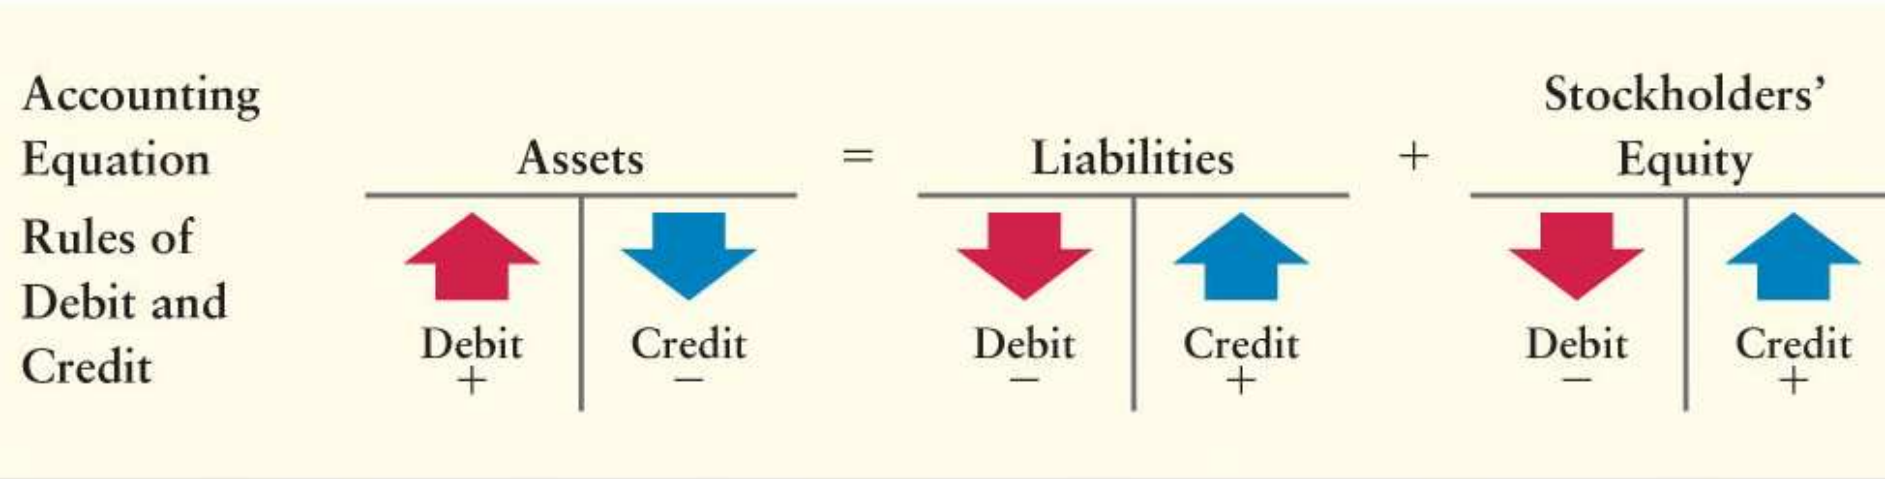

The T-Account

- Record of increases and decreases in a specific asset, liability, equity, revenue, or expense
- Left side = “Debit”
- Right side = “Credit”

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Exhibit 2-3 | Accounting Equation and the Rules of Debit and Credit

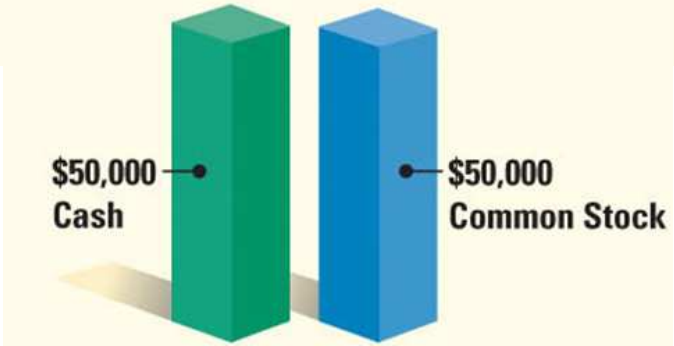

The type of account determines how to record increases and decreases.

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Exhibit 2-4 | The Accounting Equation after Alladin Travel, Inc.'s, First Transaction

Cash	
Debit for increase, 50,000	

Common Stock	
	Credit for increase, 50,000

To illustrate, Alladin Travel, Inc., received $50,000 and issued (gave) stock. What is the effect on the accounts?

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Exhibit 2-5 | The Accounting Equation after Alladin Travel, Inc.'s, First Two Transactions

Cash

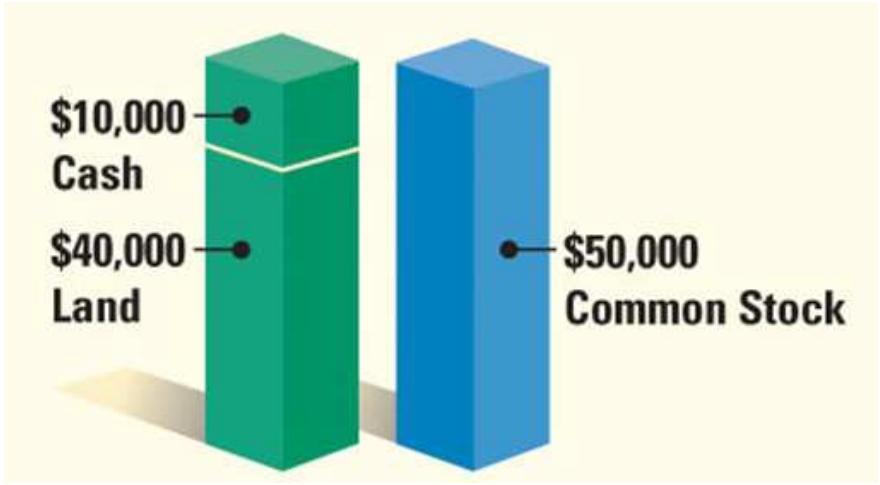

Bal	50,000	Credit for decrease, 40,000	
Bal	10,000		

Land

Debit for increase, 40,000			
Bal	40,000		

Common Stock

		Bal	50,000

Alladin's second transaction is a $40,000 cash purchase of land. What is the effect on the accounts?

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Additional Stockholders' Equity Accounts: Revenues and Expenses

Two categories of income statement accounts:

- Revenues → increase stockholders' equity

  → result from delivering goods/services

- Expenses → decrease stockholders equity

  → cost of operating the business

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Exhibit 2-6 | Expansion of the Accounting Equation

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Exhibit 2-7 | Final Form of the Rules of Debit and Credit

ASSETS		=	LIABILITIES		+	STOCKHOLDERS' EQUITY									
Assets			Liabilities			Common Stock		Retained Earnings		Dividends					
Debit	Credit		Debit	Credit		Debit	Credit	Debit	Credit	Debit	Credit				
+	−		−	+		−	+	−	+	+	−				
								Revenues		Expenses					
								Debit	Credit	Debit	Credit				
								−	+	+	−				

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Learning Objective Five

Record (journalize and post) transactions in the books

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Record (journalize and post) transactions in the books

Journal

- Chronological record of transactions
- Three steps:
  1. Specify each account affected by the transaction and classify by type
  2. Determine if each account is increased or decreased (debit or credit)
  3. Record in the journal

Copyright © 2017 Pearson Education, Inc. All rights reserved.

5 Record (journalize and post) transactions in the books

Steps to journalize the first transaction of Alladin Travel, Inc.

Step 1 Business receives $50,000 cash and issues stock

Step 2 Both Cash and Common Stock increase

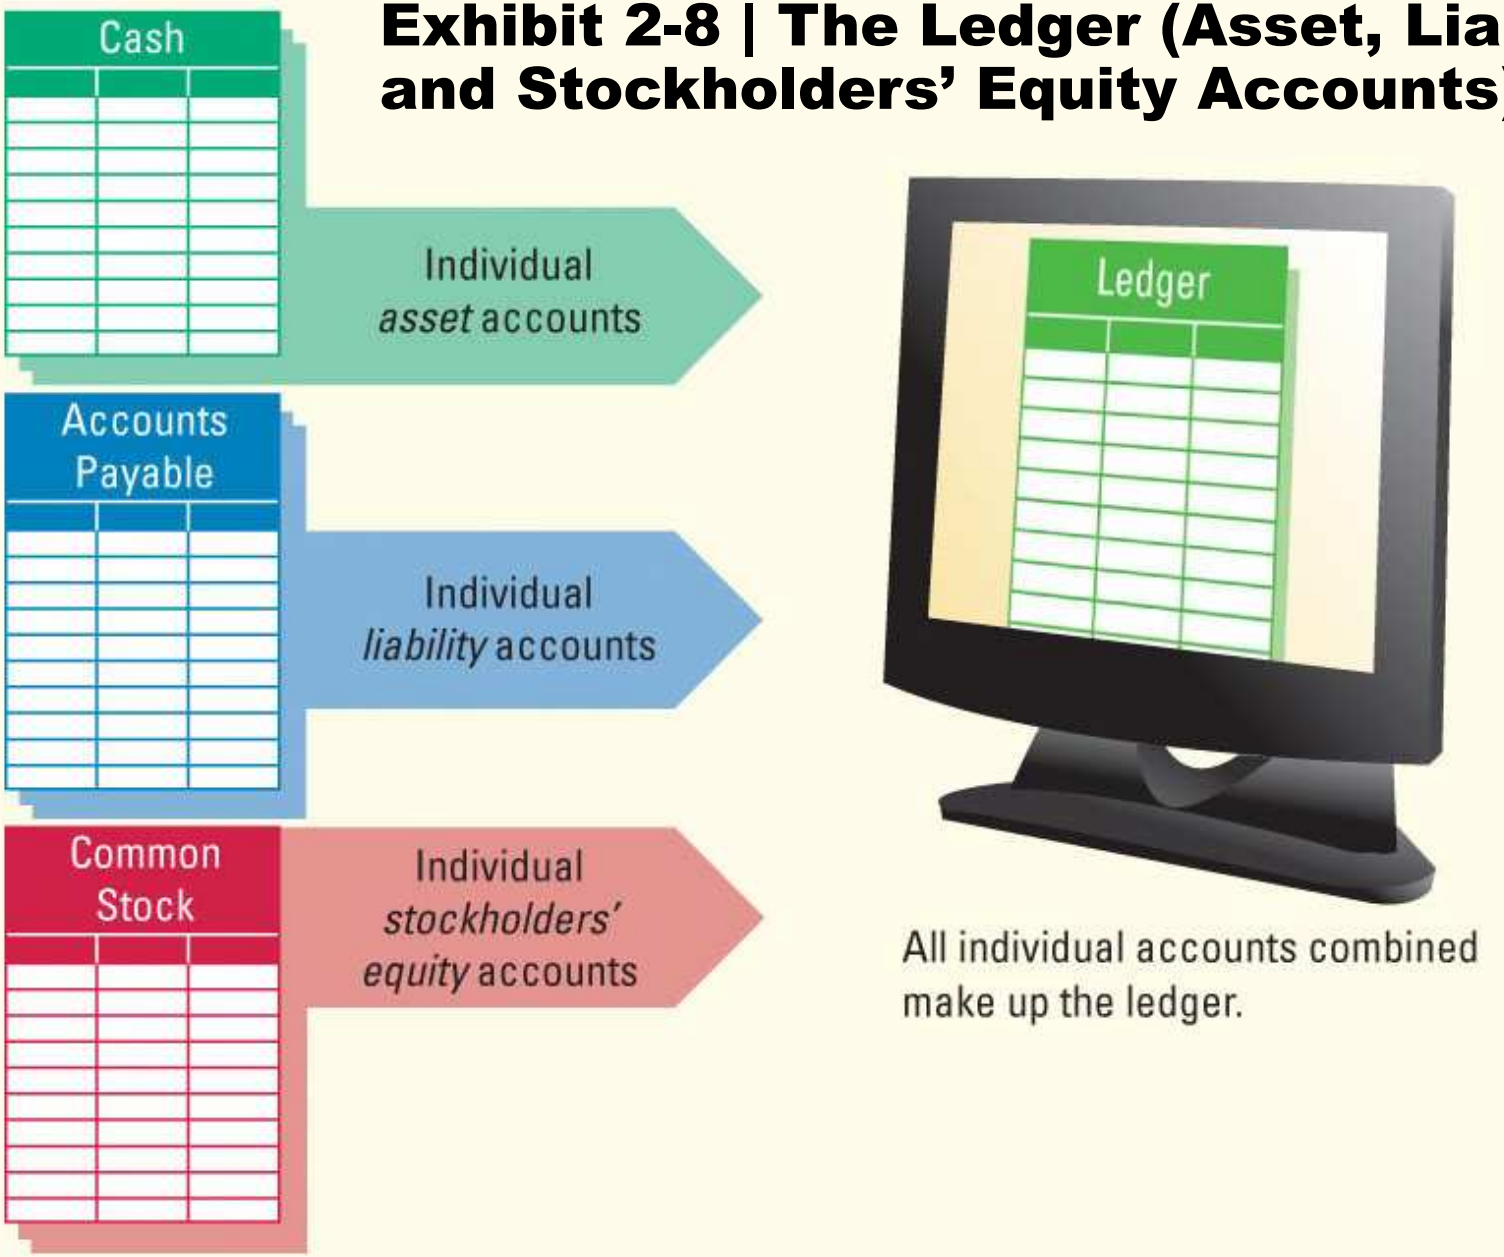

Step 3 Journalize the transaction:

A1

	A	B	C	D	E	F
		JOURNAL				
1	Date	Accounts and Explanation	Debit	Credit		
2	Apr 1	Cash	50,000			
3		Common Stock		50,000		
4		*Issued common stock.*				
5

Learning Objective Six

Construct and use a trial balance

Copyright © 2017 Pearson Education, Inc. All rights reserved.

Construct and use a trial balance

Trial Balance

- Lists all accounts with their balances
- Assets listed first, then liabilities and stockholders' equity
- Shows that debits equal credits
- Usually prepared at the end of the period
- Facilitates preparation of the financial statements

Copyright © 2017 Pearson Education, Inc. All rights reserved.

A1

Analyzing Accounts

Suppose Alladin's began May with cash of $1,000. During May, Alladin's received cash of $8,000 and ended the month with a cash balance of $3,000.

You can compute total cash payments by analyzing Alladin's Cash account:

Cash

			x = beginning balance + cash receipts − ending balance = 1,000 + 8,000 − 3,000
Beginning balance	1,000		
Cash receipts	8,000	Cash payments	x = 6,000
Ending balance	3,000		

Copyright © 2017 Pearson Education, Inc. All rights reserved.

6 Analyzing Accounts

You can compute either sales on account or cash collections on account by analyzing the Accounts Receivable account (using assumed amounts):

Accounts Receivable

			x = beginning balance + sales on account − ending balance = 6,000 + 10,000 − 5,000
Beginning balance	6,000		
Sales on account	10,000	Collections on account	x = 11,000
Ending balance	5,000		

Copyright © 2017 Pearson Education, Inc. All rights reserved.

6 Analyzing Accounts

You can determine how much you paid on account by analyzing Accounts Payable (using assumed amounts):

		Accounts Payable	
	x = beginning balance + purchases on account − ending balance = 9,000 + 6,000 − 11,000	Beginning balance	9,000
Payments on account	x = 4,000	Purchases on account	6,000
		Ending balance	11,000

Correcting Accounting Errors

First compute the difference between debits and credits in the trial balance.

- Search for missing accounts
- Divide the out-of-balance amount by 2
- Divide the out-of-balance amount by 9
  - Slide
  - Transposition
