Chapter 2
Recording Business Transactions

Review Questions

1. Identify the three categories of the accounting equation, and list at least four accounts associated with each category.

The three categories of the accounting equation are assets, liabilities, and equity. Assets include Cash, Accounts Receivable, Notes Receivable, Prepaid Expenses, Land, Building, Equipment, Furniture, and Fixtures. Liabilities include Accounts Payable, Notes Payable, Accrued Liability, and Unearned Revenue. Equity includes Owner, Capital, Owner, Withdrawals, Revenue, and Expenses.

2. What is the purpose of the chart of accounts? Explain the numbering typically associated with the accounts.

Companies need a way to organize their accounts so they use a chart of accounts. Accounts starting with 1 are usually Assets, 2 – Liabilities, 3 – Equity, 4 – Revenues, and 5 – Expenses. The second and third digits in account numbers indicate where the account fits within the category.

3. What does a ledger show? What's the difference between a ledger and the chart of accounts?

A chart of accounts and a ledger are similar in that they both list the account names and account numbers of the business. A ledger, though, provides more detail. It includes the increases and decreases of each account for a specific period and the balance of each account at a specific point in time.

4. Accounting uses a double-entry system. Explain what this sentence means.

With a double-entry you need to record the dual effects of each transaction. Every transaction affects at least two accounts.

5. What is a T-account? On which side is the debit? On which side is the credit? Where does the account name go on a T-account?

A T-account is a shortened form of each account in the ledger. The debit is on the left side, credit on the right side, and the account name is shown on top.

6. When are debits increases? When are debits decreases?

Debits are increases for assets, withdrawals, and expenses. Debits are decreases for liabilities, capital, and revenue.

7. When are credits increases? When are credits decreases?

Credits are increases for liabilities, capital, and revenue. Credits are decreases for assets, withdrawals, and expenses.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

8. Identify which types of accounts have a normal debit balance and which types of accounts have a normal credit balance.

Assets, withdrawals, and expenses have a normal debit balance. Liabilities, capital, and revenue have a normal credit balance.

9. What are source documents? Provide examples of source documents that a business might use.

Source documents provide the evidence and data for accounting transactions. Examples of source documents a business would have are: bank deposit slips, purchase invoices, bank checks, and sales invoices

10. Where are transactions initially recorded?

Transactions are first recorded in a journal, which is the record of transactions in date order.

11. Explain the five steps in journalizing and posting transactions.

Step 1: Identify the accounts and the account type. You need this information before you can complete the next step. Step 2: Decide if each account increases or decreases, then apply the rules of debits and credits. Reviewing the rules of debits and credits, we use the accounting equation to help determine debits and credits for each account. Step 3: Record transactions in the journal using journal entries. Step 4: Post the journal entry to the ledger. When journal entries are posted from the journal to the ledger, the dollar amount is transferred from the debit and credit columns to the specific accounts in the ledger. The date on the journal entry should also be transferred to the accounts in the ledger. Step 5: Determine whether the accounting equation is in balance. After each entry the accounting equation should always be in balance.

12. What are the four parts of a journal entry?

Part 1: Date of the transaction. Part 2: Debit account name and dollar amount. Part 3: Credit account name and dollar amount. The credit account name is indented. Part 4: Brief explanation.

13. What is involved in the posting process?

When transactions are posted from the journal to the ledger, the dollar amount is transferred from the debit and credit columns to the specific accounts in the ledger. The date of the journal entry is also transferred to the accounts in the ledger. The posting reference columns in the journal and ledger are also completed. In a computerized system, this step is completed automatically when the transaction is recorded in the journal.

14. What is the purpose of the trial balance?

The trial balance is used to prove the equality of total debits and total credits of all accounts in the ledger; it is also used to prepare the financial statements.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

15. What is the difference between the trial balance and the balance sheet?

A trial balance verifies the equality of total debits and total credits of all accounts on the trial balance and is an internal document used only by employees of the company. The balance sheet, on the other hand, presents the business's accounting equation and is a financial statement that can be used by both internal and external users.

16. If total debits equal total credits on the trial balance, is the trial balance error-free? Explain your answer.

If total debits equal total credits on the trial balance, it does not mean that the trial balance is error-free. An incorrect amount could have been used, an entry could have been completely missed, or the wrong account title could have been debited or credited.

17. What is the calculation for the debt ratio? Explain what the debt ratio evaluates.

The debt ratio is calculated by dividing total liabilities by total assets and shows the proportion of assets financed with debt. It can be used to evaluate a business's ability to pay its debts.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Short Exercises

S2-1 Identifying accounts

Learning Objective 1

Consider the following accounts and identify each account as an asset (A), liability (L), or equity (E).

- **a.** Notes Receivable
- **b.** Nunez, Capital
- **c.** Prepaid Insurance
- **d.** Notes Payable
- **e.** Rent Revenue
- **f.** Taxes Payable
- **g.** Rent Expense
- **h.** Furniture
- **i.** Nunez, Withdrawals
- **j.** Unearned Revenue

SOLUTION

a. Notes Receivable **(A)**
b. Nunez, Capital **(E)**
c. Prepaid Insurance **(A)**
d. Notes Payable **(L)**
e. Rent Revenue **(E)**
f. Taxes Payable **(L)**
g. Rent Expense **(E)**
h. Furniture **(A)**
i. Nunez, Withdrawals **(E)**
j. Unearned Revenue **(L)**

S2-2 Identifying increases and decreases in accounts

Learning Objective 2

For each account, identify whether the changes would be recorded as a debit (DR) or credit (CR).

- **a.** Increase to Accounts Receivable
- **b.** Decrease to Unearned Revenue
- **c.** Decrease to Cash
- **d.** Increase to Interest Expense
- **e.** Increase to Salaries Payable
- **f.** Decrease to Prepaid Rent
- **g.** Increase to Proudfoot, Capital
- **h.** Increase to Notes Receivable
- **i.** Decrease to Accounts Payable
- **j.** Increase to Interest Revenue

SOLUTION

a. Increase to Accounts Receivable **(DR)**
b. Decrease to Unearned Revenue **(DR)**
c. Decrease to Cash **(CR)**
d. Increase to Interest Expense **(DR)**
e. Increase to Salaries Payable **(CR)**
f. Decrease to Prepaid Rent **(CR)**
g. Increase to Proudfoot, Capital **(CR)**
h. Increase to Notes Receivable **(DR)**
i. Decrease to Accounts Payable **(DR)**
j. Increase to Interest Revenue **(CR)**

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-3 Identifying normal balances

Learning Objective 2

For each account, identify whether the normal balance is a debit (DR) or credit (CR).

a. Notes Payable
b. Herman, Withdrawals
c. Service Revenue
d. Land
e. Unearned Revenue
f. Herman, Capital
g. Utilities Expense
h. Office Supplies
i. Advertising Expense
j. Interest Payable

SOLUTION

a. Notes Payable **(CR)**
b. Herman, Withdrawals **(DR)**
c. Service Revenue **(CR)**
d. Land **(DR)**
e. Unearned Revenue **(CR)**
f. Herman, Capital **(CR)**
g. Utilities Expense **(DR)**
h. Office Supplies **(DR)**
i. Advertising Expense **(DR)**
j. Interest Payable **(CR)**

S2-4 Calculating the balance of a T-account

Learning Objective 2

Accounts Payable			
May 2	6,000	21,000	May 1
May 22	11,500	500	May 5
		8,500	May 15
		500	May 23

Calculate the Accounts Payable balance.

SOLUTION

Accounts Payable			
May 2	6,000	21,000	May 1
May 22	11,500	500	May 5
		8,500	May 15
		500	May 23
		13,000	Bal.

S2-5 Journalizing transactions

Learning Objective 3

John Daniel opened a medical practice in Sacramento, California, and had the following transactions during the month of January.

Jan. 1	The business received $34,000 cash and gave capital to Daniel.
2	Purchased medical supplies on account, $17,000.
4	Performed services for patients receiving $1,600.
12	Paid monthly office rent of $3,000.
15	Recorded $7,000 revenue for services rendered to patients on account.

Journalize the transactions of John Daniel, M.D. Include an explanation with each entry.

SOLUTION

Date	Accounts and Explanation	Debit	Credit
Jan. 1	Cash	34,000	
	Daniel, Capital		34,000
	Owner contribution.		
2	Medical Supplies	17,000	
	Accounts Payable		17,000
	Purchased medical supplies on account.		
4	Cash	1,600	
	Service Revenue		1,600
	Performed services for patients.		
12	Rent Expense	3,000	
	Cash		3,000
	Paid rent with cash.		
15	Accounts Receivable	7,000	
	Service Revenue		7,000
	Performed services for patients on account.		

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-6 Journalizing transactions

Learning Objective 3

Harper Sales Consultants completed the following transactions during the latter part of January:

Jan. 22	Performed services for customers on account, $7,500.
30	Received cash on account from customers, $8,000.
31	Received a utility bill, $220, which will be paid during February.
31	Paid monthly salary to salesman, $2,500.
31	Received $2,310 for three months of consulting service to be performed starting in February.
31	The owner, Damon Harper, withdrew $950 from the business.

Journalize the transactions of Harper Sales Consultants. Include an explanation with each journal entry.

SOLUTION

Date	Accounts and Explanation	Debit	Credit
Jan. 22	Accounts Receivable	7,500	
	Service Revenue		7,500
	Performed services for customers on account.		
30	Cash	8,000	
	Accounts Receivable		8,000
	Received cash on account from customers.		
31	Utilities Expense	220	
	Utilities Payable		220
	Received a utility bill due in February.		
31	Salaries Expense	2,500	
	Cash		2,500
	Paid monthly salary to salesman.		
31	Cash	2,310	
	Unearned Revenue		2,310
	Received cash for 3 months consulting services in advance.		
31	Harper, Withdrawals	950	
	Cash		950
	Owner withdrawal.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-7 Journalizing transactions and posting to T-accounts

Learning Objective 3

Roland Foster Optical Dispensary completed the following transactions during the latter part of March:

Mar. 15	Purchased office supplies on account, $3,400.
28	Paid $1,800 on account.

Requirements

1. Journalize the transactions of Roland Foster Optical Dispensary. Include an explanation with each journal entry.
2. Open the following accounts (use T-account format): Cash (Beginning Balance of $21,000), Office Supplies, and Accounts Payable. Post the journal entries from Requirement 1 to the accounts, and compute the balance in each account.

SOLUTION

Requirement 1

Date	Accounts and Explanation	Debit	Credit
Mar. 15	Office Supplies	3,400	
	Accounts Payable		3,400
	Purchased office supplies on account.		
28	Accounts Payable	1,800	
	Cash		1,800
	Paid cash on account.		

Requirement 2

Cash

Bal.	21,000	1,800	Mar. 28
Bal.	19,200		

Accounts Payable

Mar. 28	1,800	3,400	Mar. 15
		1,600	Bal.

Office Supplies

Mar. 15	3,400	
Bal.	3,400

S2-8 Preparing a trial balance

Learning Objective 4

Smithson Floor Coverings reported the following summarized data at December 31, 2018. Accounts appear in no particular order, and all have normal balances.

Service Revenue	$ 26,000	Salaries Payable	$ 25,000
Equipment	36,000	Salaries Expense	1,600
Rent Expense	17,000	Cash	7,000
Smithson, Capital	24,000	Accounts Receivable	3,600
Accounts Payable	2,200	Interest Payable	6,000
Smithson, Withdrawals	16,100	Utilities Expense	1,900

Prepare the trial balance of Smithson Floor Coverings at December 31, 2018.

SOLUTION

SMITHSON FLOOR COVERINGS
Trial Balance
December 31, 2018

Account Title	**Balance**	
	Debit	Credit
Cash	$ 7,000	
Accounts Receivable	3,600	
Equipment	36,000	
Accounts Payable		$ 2,200
Salaries Payable		25,000
Interest Payable		6,000
Smithson, Capital		24,000
Smithson, Withdrawals	16,100	
Service Revenue		26,000
Rent Expense	17,000	
Salaries Expense	1,600	
Utilities Expense	1,900	
Total	**$ 83,200**	**$ 83,200**

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-9 Calculating debt ratio

Learning Objective 5

Aladdin Carpet Care had the following total assets, liabilities, and equity as of October 31:

Assets	$ 200,000
Liabilities	30,000
Equity	170,000

What is Aladdin Carpet Care's debt ratio as of October 31?

SOLUTION

Debt ratio = Total liabilities / Total assets = $30,000 / $200,000 = 0.15 = 15%

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Exercises

E2-10 Using accounting vocabulary

Learning Objectives 1, 2, 3, 4

Match the accounting terms with the corresponding definitions.

1. Posting	**a.** A detailed record of all increases and decreases that have occurred in a particular asset, liability, or equity during a period
2. Account	**b.** The record holding all the accounts of a business, the changes in those accounts, and their balances
3. Debit	**c.** A journal entry that is characterized by having multiple debits and/or multiple credits
4. Journal	**d.** A record of transactions in date order
5. Chart of accounts	**e.** Left side of a T-account
6. Trial balance	**f.** Side of an account where increases are recorded
7. Normal balance	**g.** Transferring amounts from the journal to the ledger
8. Ledger	**h.** Right side of a T-account
9. Credit	**i.** A list of all accounts with their balances at a point in time
10. Compound journal entry	**j.** A list of all accounts with their account numbers

E2-11 Creating a chart of accounts

Raymond Autobody Shop has the following accounts:

Accounts Payable	Service Revenue
Cash	Equipment
Utilities Expense	Raymond, Capital
Automotive Supplies	Advertising Expense
Raymond, Withdrawals	Unearned Revenue

Create a chart of accounts for Raymond Autobody Shop using the standard numbering system. Each account is separated by a factor of 10. For example, the first asset account will be 100 and the next asset account will 110.

SOLUTION

Assets	Equity
100 – Cash 110 – Automotive Supplies 120 – Equipment	300 – Raymond, Capital 310 – Raymond, Withdrawals
	Revenues
Liabilities	400 – Service Revenue
200 – Accounts Payable 210 – Unearned Revenue	Expenses
	500 – Utilities Expense 510 – Advertising Expense

E2-12 Identifying accounts, increases in accounts, and normal balances

Learning Objectives 1, 2

a. Interest Revenue
b. Accounts Payable
c. Calhoun, Capital
d. Office Supplies
e. Advertising Expense
f. Unearned Revenue
g. Prepaid Rent
h. Utilities Expense
i. Calhoun, Withdrawals
j. Service Revenue

Requirements

1. Identify each account as asset (A), liability (L), or equity (E).
2. Identify whether the account is increased with a debit (DR) or credit (CR).
3. Identify whether the normal balance is a debit (DR) or credit (CR).

SOLUTION

		Requirement 1	Requirement 2	Requirement 3
	Account Name	**Type of Account**	**Increase with Debit/Credit**	**Normal Balance Debit/Credit**
a.	Interest Revenue	E	CR	CR
b.	Accounts Payable	L	CR	CR
c.	Calhoun, Capital	E	CR	CR
d.	Office Supplies	A	DR	DR
e.	Advertising Expense	E	DR	DR
f.	Unearned Revenue	L	CR	CR
g.	Prepaid Rent	A	DR	DR
h.	Utilities Expense	E	DR	DR
i.	Calhoun, Withdrawals	E	DR	DR
j.	Service Revenue	E	CR	CR

E2-14 Identifying source documents

Learning Objective 3

a. For each transaction, identify a possible source document.
b. The business received $20,000 cash and gave capital to the owner.
c. Purchased office supplies on account, $500.
d. Recorded $1,000 revenue for services rendered to customers.

SOLUTION

a. Bank deposit slip
b. Purchase invoice
c. Sales invoice

E2-15 Analyzing and journalizing transactions

Learning Objective 3

As the manager of Margarita Mexican Restaurant, you must deal with a variety of business transactions. Provide an explanation for the following transactions:

a. Debit Equipment and credit Cash.
b. Debit Garcia, Withdrawals and credit Cash.
c. Debit Wages Payable and credit Cash.
d. Debit Equipment and credit Garcia, Capital.
e. Debit Cash and credit Unearned Revenue.
f. Debit Advertising Expense and credit Cash.
g. Debit Cash and credit Service Revenue.

Use the following information to answer Exercises E2-16 and E2-17.

The following transactions occurred for Lawrence Engineering:

Jul. 2	Received $14,000 contribution from Brett Lawrence, owner, in exchange for capital.
4	Paid utilities expense of $370.
5	Purchased equipment on account, $1,600.
10	Performed services for a client on account, $2,900.
12	Borrowed $7,100 cash, signing a notes payable.
19	The owner, Brett Lawrence, withdrew $200 cash from the business.
21	Purchased office supplies for $840 and paid cash.
27	Paid the liability from July 5.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

SOLUTION

a. Purchased equipment with cash.
b. Owner withdrew cash.
c. Paid wages owed to employees, previously recorded.
d. Received equipment for the business in exchange for owner's capital.
e. Received cash from customer for work to be completed in the future.
f. Paid for advertising with cash.
g. Performed services that were paid by the customer.

E2-16 Analyzing and journalizing transactions

Learning Objective 3

Journalize the transactions of Lawrence Engineering. Include an explanation with each journal entry. Use the following accounts: Cash; Accounts Receivable; Office Supplies; Equipment; Accounts Payable; Notes Payable; Lawrence, Capital; Lawrence, Withdrawals; Service Revenue; and Utilities Expense.

SOLUTION

Date	Accounts and Explanation	Debit	Credit
Jul. 2	Cash	14,000	
	Lawrence, Capital		14,000
	Owner contribution.		
4	Utilities Expense	370	
	Cash		370
	Paid utility expense.		
5	Equipment	1,600	
	Accounts Payable		1,600
	Purchased equipment on account.		
10	Accounts Receivable	2,900	
	Service Revenue		2,900
	Performed services for client on account.		
12	Cash	7,100	
	Notes Payable		7,100
	Borrowed cash by signing note.		
19	Lawrence, Withdrawals	200	
	Cash		200
	Owner withdrawal.		

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

E2-16, cont.

21	Office Supplies	840	
	Cash		840
	Purchased office supplies with cash.		
27	Accounts Payable	1,600	
	Cash		1,600
	Paid cash on account.		

E2-17 Posting journal entries to T-accounts

Learning Objective 3

3. Cash Balance $18,090

Requirements

1. Open the following T-accounts for Lawrence Engineering: Cash; Accounts Receivable; Office Supplies; Equipment; Accounts Payable; Notes Payable; Lawrence, Capital; Lawrence, Withdrawals; Service Revenue; and Utilities Expense.
2. Post the journal entries to the T-accounts. Also transfer the dates to the T-accounts.
3. Compute the July 31 balance for each account.

Use the following information to answer Exercises E2-18 and E2-19.

The following transactions occurred for Wilke Technology Solutions:

May 1	The business received cash of $105,000 and gave capital to Zoe Wilke.
2	Purchased office supplies on account, $550.
4	Paid $57,000 cash for building and land. The building had a fair market value of $45,000.
6	Performed services for customers and received cash, $3,600.
9	Paid $350 on accounts payable.
17	Performed services for customers on account, $3,500.
19	Paid rent expense for the month, $1,200.
20	Received $1,500 from customers for services to be performed next month.
21	Paid $900 for advertising in next month's *IT Technology* magazine.
23	Received $3,100 cash on account from a customer.
31	Incurred and paid salaries, $1,700.

E2-20 Analyzing transactions from T-accounts

Learning Objective 3

The first nine transactions of North-West Airplane Repair have been posted to the T-accounts. Provide an explanation for each of the nine transactions

SOLUTION

1. The business received cash of $370,000 and gave capital to owner.
2. Paid $360,000 cash for a building.
3. Borrowed $260,000 cash, signing a note payable.
4. Purchased office supplies on account, $1,500.
5. Paid $1,200 on accounts payable.
6. Paid property tax expense, $1,500.
7. Paid rent $1,400 and salaries $2,500.
8. Owner withdrew $7,000.
9. Performed services for customers and received cash, $21,000.

E2-24 Journalizing transactions, posting journal entries to four-column accounts, and preparing a trial balance

Learning Objectives 3, 4

3. Total Debits $24,670

The following transactions occurred during the month for Teresa Parker, CPA:

Jun. 1	Parker opened an accounting firm by contributing $13,200 cash and office furniture with a fair market value of $5,300 in exchange for capital.
5	Paid monthly rent of $1,300.
9	Purchased office supplies on account, $600.
14	Paid employee's salary, $1,900.
18	Received a bill for utilities to be paid next month, $370.
21	Paid $500 of the accounts payable created on June 9.
25	Performed accounting services on account, $5,700.
28	Parker withdrew cash of $6,700.

Requirements

1. Open the following four-column accounts of Teresa Parker, CPA: Cash, 110; Accounts Receivable, 120; Office Supplies, 130; Office Furniture, 140; Accounts Payable, 210; Utilities Payable, 220; Parker, Capital, 310; Parker, Withdrawals, 320; Service Revenue, 410; Salaries Expense, 510; Rent Expense, 520; and Utilities Expense, 530.
2. Journalize the transactions, and then post the journal entries to the four-column accounts. Explanations are not required for the journal entries. Keep a running balance in each account. Assume the journal entries are recorded on page 10 of the journal.
3. Prepare the trial balance as of June 30, 2018.

SOLUTION

E2-25 Analyzing accounting errors

Learning Objectives 4

Courtney Meehan has trouble keeping her debits and credits equal. During a recent month, Courtney made the following accounting errors:

- **a.** In preparing the trial balance, Courtney omitted a $5,000 Notes Payable. The debit to Cash was correct.
- **b.** Courtney posted a $1,000 Utilities Expense as $100. The credit to Cash was correct.
- **c.** In recording a $600 payment on account, Courtney debited Furniture instead of Accounts Payable.
- **d.** In journalizing a receipt of cash for service revenue, Courtney debited Cash for $50 instead of the correct amount of $500. The credit was correct.
- **e.** Courtney recorded a $210 purchase of office supplies on account by debiting Office Supplies for $120 and crediting Accounts Payable for $120.

Requirements

1. For each of these errors, state whether total debits equal total credits on the trial balance.
2. Identify each account that has an incorrect balance and the amount and direction of the error (e.g., "Accounts Receivable $500 too high").

SOLUTION

Requirements 1 and 2

	Debits equal Credits, Yes or No	Accounts	Amount	High or Low
a.	No	Notes Payable	$5,000	Low
b.	No	Utilities Expense	900	Low
c.	Yes	Furniture	600	High
		Accounts Payable	600	High
d.	No	Cash	450	Low
e.	Yes	Office Supplies	90	Low
		Accounts Payable	90	Low

E2-26 Correcting errors in a trial balance

Learning Objective 4

Total Debits $35,600

The accountant for Countryside Painting Specialists is having a hard time preparing the trial balance as of November 30, 2018:

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

COUNTRYSIDE PAINTING SPECIALISTS Trial Balance November 30, 2018		
	Balance	
Account Title	Debit	Credit
Painting Equipment	$ 13,500	
Cash	12,100	
Accounts Receivable	1,300	
Advertising Expense	550	
Watts, Withdrawals		$ 3,500
Accounts Payable		3,300
Rent Expense	1,800	
Watts, Capital	15,000	
Service Revenue		15,600
Unearned Revenue	1,700	
Salaries Expense	2,400	
Office Supplies		200
Utilities Expense	250	
Total	$ 48,600	$ 22,600

Prepare the corrected trial balance as of November 30, 2018. Assume all amounts are correct and all accounts have normal balances.

SOLUTION

COUNTRYSIDE PAINTING SPECIALISTS Trial Balance November 30, 2018		
Account Title	**Balance**	
	Debit	Credit
Cash	$ 12,100	
Accounts Receivable	1,300	
Office Supplies	200	
Painting Equipment	13,500	
Accounts Payable		$ 3,300

E2-27 Correcting errors in a trial balance

Learning Objective 4

Total Debits $35,300

The following trial balance of Joy McDowell Tutoring Service as of May 31, 2018, does not balance.

JOY MCDOWELL TUTORING SERVICE
Trial Balance
May 31, 2018

	Balance	
Account Title	**Debit**	**Credit**
Cash	$ 2,800	
Accounts Receivable	2,000	
Office Supplies	600	
Computer Equipment	15,800	
Accounts Payable		$ 11,100
Utilities Payable		800
McDowell, Capital		11,600
McDowell, Withdrawals	10,400	
Service Revenue		9,600
Salaries Expense	1,900	
Rent Expense	800	
Utilities Expense	700	
Total	$ 35,000	$ 33,100

Investigation of the accounting records reveals that the bookkeeper:

- **a.** Recorded a $400 cash revenue transaction by debiting Accounts Receivable. The credit entry was correct.
- **b.** Posted a $2,000 credit to Accounts Payable as $200.
- **c.** Did not record Utilities Expense or the related Utilities Payable in the amount of $300.
- **d.** Understated McDowell, Capital by $100.

Prepare the corrected trial balance as of May 31, 2018, complete with a heading; journal entries are not required.

E2-28 Calculating the debt ratio

Learning Objective 5

Total Assets $174,900

John Hart, M.D., reported the following trial balance as of September 30, 2018:

JOHN HART, M.D.
Trial Balance
September 30, 2018

	Balance	
Account Title	**Debit**	**Credit**
Cash	$ 30,000	
Accounts Receivable	7,900	
Office Supplies	3,000	
Land	29,000	
Building	75,000	
Office Equipment	30,000	
Accounts Payable		$ 1,600
Utilities Payable		800
Unearned Revenue		24,795
Notes Payable		69,000
Hart, Capital		110,000
Hart, Withdrawals	57,000	
Service Revenue		50,505
Salaries Expense	23,500	
Utilities Expense	1,100	
Advertising Expense	200	
Total	$ 256,700	$ 256,700

Calculate the debt ratio for John Hart, M.D.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

SOLUTION

Liabilities:	
Accounts Payable	$ 1,600
Utilities Payable	800
Unearned Revenue	24,795
Notes Payable	69,000
Total liabilities	$ 96,195
Assets:	
Cash	$ 30,000
Accounts Receivable	7,900
Office Supplies	3,000
Office Equipment	30,000
Building	75,000
Land	29,000
Total assets	$ 174,900

Debt ratio = Total liabilities / Total assets = $96,195 / $174,900 = 0.55 = 55%

P2-29A Journalizing transactions, posting journal entries to T-accounts, and preparing a trial balance

Learning Objectives 3, 4

2. Cash Balance $56,050

Vince York practices medicine under the business title Vince York, M.D. During July, the medical practice completed the following transactions:

Jul. 1	York contributed $63,000 cash to the business in exchange for capital.
5	Paid monthly rent on medical equipment, $510.
9	Paid $23,000 cash to purchase land to be used in operations.
10	Purchased office supplies on account, $1,600.
19	Borrowed $22,000 from the bank for business use.
22	Paid $1,100 on account.
28	The business received a bill for advertising in the daily newspaper to be paid in August, $240.
31	Revenues earned during the month included $6,400 cash and $6,000 on account.
31	Paid employees' salaries $2,200, office rent $1,900, and utilities $560. Record as a compound entry.
31	The business received $1,120 for medical screening services to be performed next month.
31	York withdrew cash of $7,200.

The business uses the following accounts: Cash; Accounts Receivable; Office Supplies; Land; Accounts Payable; Advertising Payable; Unearned Revenue; Notes Payable; York, Capital; York, Withdrawals; Service Revenue; Salaries Expense; Rent Expense; Utilities Expense; and Advertising Expense.

Requirements

1. Journalize each transaction. Explanations are not required.
2. Post the journal entries to the T-accounts, using transaction dates as posting references in the ledger accounts. Label the balance of each account *Bal*.
3. Prepare the trial balance of Vince York, M.D., as of July 31, 2018.

P2-30A Journalizing transactions, posting journal entries to T-accounts, and preparing a trial balance

Learning Objectives 3, 4

4. Total Debits $58,300

Ann Simpson started her practice as a design consultant on September 1, 2018. During the first month of operations, the business completed the following transactions:

Sep. 1	Received $48,000 cash and gave capital to Simpson.
4	Purchased office supplies, $1,200, and furniture, $1,300, on account.
6	Performed services for a law firm and received $1,900 cash.
7	Paid $18,000 cash to acquire land to be used in operations.
10	Performed services for a hotel and received its promise to pay the $1,200 within one week.
14	Paid for the furniture purchased on September 4 on account.
15	Paid assistant's semimonthly salary, $1,500.
17	Received cash on account, $1,000.
20	Prepared a design for a school on account, $650.
25	Received $2,100 cash for design services to be performed in October.
28	Received $2,900 cash for consulting with Plummer & Gordon.
29	Paid $600 cash for a 12-month insurance policy starting on October 1.
30	Paid assistant's semimonthly salary, $1,500.
30	Paid monthly rent expense, $600.
30	Received a bill for utilities, $350. The bill will be paid next month.
30	Simpson withdrew cash of $3,700.

Requirements

1. Record each transaction in the journal using the following account titles: Cash; Accounts Receivable; Office Supplies; Prepaid Insurance; Land; Furniture; Accounts Payable; Utilities Payable; Unearned Revenue; Simpson, Capital; Simpson, Withdrawals; Service Revenue; Salaries Expense; Rent Expense; and Utilities Expense. Explanations are not required.
2. Open a T-account for each of the accounts.
3. Post the journal entries to the T-accounts, using transaction dates as posting references in the ledger accounts. Label the balance of each account *Bal*.
4. Prepare the trial balance of Ann Simpson, Designer, as of September 30, 2018.

P2-31A Journalizing transactions, posting journal entries to four-column accounts, and preparing a trial balance

Learning Objectives 3, 4

3. Cash Balance $50,160

Terrence Murphy opened a law office on January 1, 2018. During the first month of operations, the business completed the following transactions:

Jan. 1	Murphy contributed $78,000 cash to the business, Terrence Murphy, Attorney. The business gave capital to Murphy.
3	Purchased office supplies, $600, and furniture, $1,700, on account.
4	Performed legal services for a client and received $1,000 cash.
7	Purchased a building with a market value of $130,000, and land with a market value of $25,000. The business paid $25,000 cash and signed a note payable to the bank for the remaining amount.
11	Prepared legal documents for a client on account, $400.
15	Paid assistant's semimonthly salary, $1,120.
16	Paid for the office supplies purchased on January 3 on account.
18	Received $2,700 cash for helping a client sell real estate.
19	Defended a client in court and billed the client for $1,800.
25	Received a bill for utilities, $600. The bill will be paid next month.
29	Received cash on account, $1,500.
30	Paid $1,200 cash for a 12-month insurance policy starting on February 1.
30	Paid assistant's semimonthly salary, $1,120.
31	Paid monthly rent expense, $1,800.
31	Murphy withdrew cash of $2,200.

Requirements

1. Record each transaction in the journal, using the following account titles: Cash; Accounts Receivable; Office Supplies; Prepaid Insurance; Land; Building; Furniture; Accounts Payable; Utilities Payable; Notes Payable; Murphy, Capital; Murphy, Withdrawals; Service Revenue; Salaries Expense; Rent Expense; and Utilities Expense. Explanations are not required.
2. Open the following four-column accounts including account numbers: Cash, 101; Accounts Receivable, 111; Office Supplies, 121; Prepaid Insurance, 131; Land, 141; Building, 151; Furniture, 161; Accounts Payable, 201; Utilities Payable, 211; Notes Payable, 221; Murphy, Capital, 301; Murphy, Withdrawals, 311; Service Revenue, 411; Salaries Expense, 511; Rent Expense, 521; and Utilities Expense, 531.
3. Post the journal entries to four-column accounts in the ledger, using dates, account numbers, journal references, and posting references. Assume the journal entries were recorded on page 1 of the journal.
4. Prepare the trial balance of Terrence Murphy, Attorney, at January 31, 2018.

P2-33A Correcting errors in a trial balance

Learning Objective 4

Total Debits $123,250

The trial balance of Beautiful Tots Child Care does not balance.

BEAUTIFUL TOTS CHILD CARE
Trial Balance
August 31, 2018

	Balance	
Account Title	**Debit**	**Credit**
Cash	$ 7,900	
Accounts Receivable	6,700	
Office Supplies	1,000	
Prepaid Insurance	300	
Equipment	91,500	
Accounts Payable		$ 3,400
Notes Payable		45,000
Trumball, Capital		57,000
Trumball, Withdrawals	5,000	
Service Revenue		12,350
Salaries Expense	4,400	
Rent Expense	750	
Total	$ 117,550	$ 117,750

The following errors are detected:

- **a.** Cash is understated by $1,500.
- **b.** A $4,100 debit to Accounts Receivable was posted as a credit.
- **c.** A $1,400 purchase of office supplies on account was neither journalized nor posted.
- **d.** Equipment was incorrectly transferred from the ledger as $91,500. It should have been transferred as $83,000.
- **e.** Salaries Expense is overstated by $700.
- **f.** A $300 cash payment for advertising expense was neither journalized nor posted.
- **g.** A $200 owner's withdrawal of cash was incorrectly journalized as $2,000.
- **h.** Service Revenue was understated by $4,100.
- **i.** A 12-month insurance policy was posted as a $1,900 credit to Prepaid Insurance. Cash was posted correctly.

Prepare the corrected trial balance as of August 31, 2018. Journal entries are not required.

SOLUTION

BEAUTIFUL TOTS CHILD CARE
Trial Balance
August 31, 2018

Account Title	Balance	
	Debit	Credit
Cash	$ 10,900	
Accounts Receivable	14,900	
Office Supplies	2,400	
Prepaid Insurance	4,100	
Equipment	83,000	
Accounts Payable		$ 4,800
Notes Payable		45,000
Trumball, Capital		57,000
Trumball, Withdrawals	3,200	
Service Revenue		16,450
Salaries Expense	3,700	
Rent Expense	750	
Advertising Expense	300	
Total	**$ 123,250**	**$ 123,250**

Explanations:

a. Increase Cash by $1,500.

b. Increase Accounts Receivable by $8,200 ($4,100 × 2).

c. Increase Office Supplies and Accounts Payable by $1,400 each.

d. Decrease Equipment by $8,500 ($91,500 − $83,000).

e. Decrease Salaries Expense by $700.

f. Advertising Expense should have a debit balance of $300. Decrease Cash by $300.

g. Trumball, Withdrawals should decrease by $1,800 and Cash should increase by $1,800 ($2,000 − $200).

h. Service Revenue should increase by $4,100.

i. Prepaid Insurance should increase by $3,800 ($1,900 × 2).

Learning Objectives 3, 4

4. Total Debits $51,430

Beth Stewart started her practice as a design consultant on November 1, 2018. During the first month of operations, the business completed the following transactions:

Nov. 1	Received $41,000 cash and gave capital to Stewart.
4	Purchased office supplies, $1,200, and furniture, $2,300, on account.
6	Performed services for a law firm and received $2,100 cash.
7	Paid $27,000 cash to acquire land to be used in operations.
10	Performed services for a hotel and received its promise to pay the $800 within one week.
14	Paid for the furniture purchased on November 4 on account.
15	Paid assistant's semimonthly salary, $1,470.
17	Received cash on account, $500.
20	Prepared a design for a school on account, $680.
25	Received $1,900 cash for design services to be performed in December.
28	Received $3,100 cash for consulting with Plummer & Gordon.
29	Paid $840 cash for a 12-month insurance policy starting on December 1.
30	Paid assistant's semimonthly salary, $1,470.
30	Paid monthly rent expense, $650.
30	Received a bill for utilities, $650. The bill will be paid next month.
30	Stewart withdrew cash of $2,800.

Requirements

1. Record each transaction in the journal using the following account titles: Cash; Accounts Receivable; Office Supplies; Prepaid Insurance; Land; Furniture; Accounts Payable; Utilities Payable; Unearned Revenue; Stewart, Capital; Stewart, Withdrawals; Service Revenue; Salaries Expense; Rent Expense; and Utilities Expense. Explanations are not required.
2. Open a T-account for each of the accounts.
3. Post the journal entries to the T-accounts, using transaction dates as posting references in the ledger accounts. Label the balance of each account *Bal*.
4. Prepare the trial balance of Beth Stewart, Designer, as of November 30, 2018.

P2-38B Journalizing transactions, posting journal entries to four-column accounts, and preparing a trial balance

Learning Objectives 3, 4

3. Cash Balance $20,250

The trial balance of John Menning, CPA, is dated March 31, 2018:

JOHN MENNING, CPA
Trial Balance
March 31, 2018

	Balance	
Account Title	**Debit**	**Credit**
Cash	$ 17,000	
Accounts Receivable	10,500	
Office Supplies	1,200	
Land	29,000	
Furniture	0	
Automobile	0	
Accounts Payable		$ 3,800
Unearned Revenue		0
Menning, Capital		46,200
Menning, Withdrawals	0	
Service Revenue		11,200
Salaries Expense	2,500	
Rent Expense	1,000	
Total	$ 61,200	$ 61,200

During April, the business completed the following transactions:

Apr. 4	Collected $6,000 cash from a client on account.
8	Performed tax services for a client on account, $5,500.
13	Paid $3,300 on account.
14	Purchased furniture on account, $4,000.
15	Menning contributed his personal automobile to the business in exchange for capital. The automobile had a market value of $11,500.
18	Purchased office supplies on account, $1,600.
19	Received $2,750 for tax services performed on April 8.
20	Menning withdrew cash of $7,500.
21	Received $4,900 cash for consulting work completed.
24	Received $2,500 cash for accounting services to be completed next month.
27	Paid office rent, $900.
28	Paid employee salary, $1,200.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Requirements

1. Record the April transactions in the journal using the following accounts: Cash; Accounts Receivable; Office Supplies; Land; Furniture; Automobile; Accounts Payable; Unearned Revenue; Menning, Capital; Menning, Withdrawals; Service Revenue; Salaries Expense; and Rent Expense. Include an explanation for each entry.
2. Open the four-column ledger accounts listed in the trial balance, together with their balances as of March 31. Use the following account numbers: Cash, 11; Accounts Receivable, 12; Office Supplies, 13; Land, 14; Furniture, 15; Automobile, 16; Accounts Payable, 21; Unearned Revenue, 22; Menning, Capital, 31; Menning, Withdrawals, 33; Service Revenue, 41; Salaries Expense, 51; and Rent Expense, 52.
3. Post the journal entries to four-column accounts in the ledger, using dates, account numbers, journal references, and posting references. Assume the journal entries were recorded on page 5 of the journal.
4. Prepare the trial balance of John Menning, CPA, at April 30, 2018.

P2-39B Correcting errors in a trial balance

Learning Objective 4

Total Debits $123,300

LOVE TO LEARN CHILD CARE
Trial Balance
May 31, 2018

Account Title	Balance Debit	Credit
Cash	$ 8,060	
Accounts Receivable	8,700	
Office Supplies	1,000	
Prepaid Insurance	1,700	
Equipment	90,400	
Accounts Payable		$ 3,000
Notes Payable		45,000
Ebony, Capital		54,000
Ebony, Withdrawals	3,740	
Service Revenue		16,300
Salaries Expense	4,350	
Rent Expense	400	
Total	$ 118,350	$ 118,300

The trial balance of Love to Learn Child Care does not balance.

The following errors are detected:

a. Cash is understated by $1,800.
b. A $3,800 debit to Accounts Receivable was posted as a credit.
c. A $1,000 purchase of office supplies on account was neither journalized nor posted.
d. Equipment was incorrectly transferred from the ledger as $90,400. It should have been transferred as $82,500.
e. Salaries Expense is overstated by $350.
f. A $300 cash payment for advertising expense was neither journalized nor posted.
g. A $160 owner's withdrawal of cash was incorrectly journalized as $1,600.
h. Service Revenue was understated by $4,000.
i. A 12-month insurance policy was posted as a $1,400 credit to Prepaid Insurance. Cash was posted correctly.

Prepare the corrected trial balance as of May 31, 2018. Journal entries are not required.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

SOLUTION

LOVE TO LEARN CHILD CARE
Trial Balance
May 31, 2018

Account Title	Balance	
	Debit	Credit
Cash	$ 11,000	
Accounts Receivable	16,300	
Office Supplies	2,000	
Prepaid Insurance	4,500	
Equipment	82,500	
Accounts Payable		$ 4,000
Notes Payable		45,000
Ebony, Capital		54,000
Ebony, Withdrawals	2,300	
Service Revenue		20,300
Salaries Expense	4,000	
Rent Expense	400	
Advertising Expense	300	
Total	**$ 123,300**	**$ 123,300**

Explanations:

a. Increase Cash by $1,800.

b. Increase Accounts Receivable by $7,600 ($3,800 × 2).

c. Increase Office Supplies and Accounts Payable by $1,000 each.

d. Decrease Equipment by $7,900 ($90,400 − $82,500).

e. Decrease Salaries Expense by $350.

f. Advertising Expense should have a debit balance of $300. Decrease Cash by $300.

g. Ebony, Withdrawals should decrease by $1,440 and Cash should increase by $1,440 ($1,600 − $160).

h. Service Revenue should increase by $4,000.

i. Prepaid Insurance should increase by $2,800 ($1,400 × 2).

Using Excel

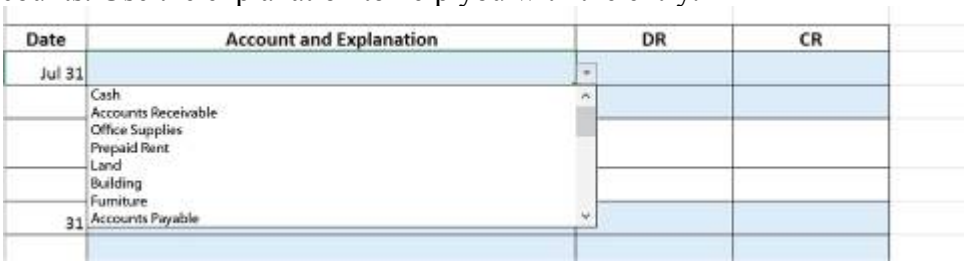

P2-41 Using Excel to journalize and post transactions, and to create financial statements

Download an Excel template for this problem online in MyAccountingLab or at http://www.pearsonhighered.com/Horngren.

Redmond Company started operations on April 1, 2018. Seventeen transactions occurred during April. Financial statements are prepared at the end of the month.

Requirements

1. Use Excel to record the transactions for April. Use the blue shaded areas for inputs.
   a. To record the account name in the journal, click in the Account and Explanation column. A drop down arrow will appear to the right. Click the arrow and select an account from the chart of accounts. Use the explanation to help you with the entry.

   b. Indent the account name of the account to be credited using the indent button on the Home tab. Click the Increase Indent button twice.

2. Post the transactions to T-Accounts. Use the blue shaded areas for inputs.
   a. For each transaction, post the amount on the correct side of the T-Account. The T-account totals will be calculated automatically.
   b. Total debits should equal total credits. The debit-credit balance check appears in the top right-hand corner of the T-Account worksheet.
3. Prepare the income statement, statement of owner's equity, and balance sheet for the company using the trial balance. Each financial statement appears on a separate worksheet tab.
   a. Fill in the blue shaded areas using a formula that references the account balances in the T-Accounts at the end of the month.
   b. Format the cells requiring dollar signs. Number formatting is located on the Home tab.

   c. Format the cells requiring a single underline and cells requiring double underlines. The borders tool is found on the Home tab. It looks like a window pane. Click the down arrow for different border selections.

Continuing Problem

P2-42 Journalizing transactions, posting to T-accounts, and preparing a trial balance

Problem P2-42 continues with the company introduced in Chapter 1, Canyon Canoe Company. Here you will account for Canyon Canoe Company's transactions as it is actually done in practice. Begin by reviewing the transactions from Chapter 1. The transactions have been reprinted below.

Nov. 1	Received $16,000 cash to begin the company and gave capital to Amber Wilson.
2	Signed a lease for a building and paid $1,200 for the first month's rent.
3	Purchased canoes for $4,800 on account.
4	Purchased office supplies on account, $750.
7	Earned $1,400 cash for rental of canoes.
13	Paid $1,500 cash for wages.
15	Wilson withdrew $50 cash from the business.
16	Received a bill for $150 for utilities. (Use separate payable account.)
20	Received a bill for $175 for cell phone expenses. (Use separate payable account.)
22	Rented canoes to Early Start Daycare on account, $3,000.
26	Paid $1,000 on account related to the November 3 purchase.
28	Received $750 from Early Start Daycare for canoe rental on November 22.
30	Wilson withdrew cash of $100 from the business.

In addition, Canyon Canoe Company completed the following transactions for December.

Dec. 1	Amber contributed land on the river (worth $85,000) and a small building to use as a rental office (worth $35,000) in exchange for capital.
1	Prepaid $3,000 for three months' rent on the warehouse where the company stores the canoes.
2	Purchased canoes signing a note payable for $7,200
4	Purchased office supplies on account for $500.
9	Received $4,500 cash for canoe rentals to customers.
15	Rented canoes to customers for $3,500, but will be paid next month.
16	Received a $750 deposit from a canoe rental group that will use the canoes next month.
18	Paid the utilities and telephone bills from last month.
19	Paid various accounts payable, $2,000.
20	Received bills for the telephone ($325) and utilities ($295) which will be paid later.
31	Paid wages of $1,800.
31	Wilson withdrew cash of $300 from the business.

Requirements

1. Journalize the transactions for both November and December, using the following accounts: Cash; Accounts Receivable; Office Supplies; Prepaid Rent; Land; Building; Canoes; Accounts Payable; Utilities Payable; Telephone Payable; Unearned Revenue; Notes Payable; Wilson, Capital; Wilson, Withdrawals; Canoe Rental Revenue; Rent Expense; Utilities Expense; Wages Expense; and Telephone Expense. Explanations are not required. (Hint: For November transactions, refer to your answer for Chapter 1.)

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

2. Open a T-account for each of the accounts.
3. Post the journal entries to the T-accounts, and calculate account balances. Formal posting references are not required.
4. Prepare a trial balance as of December 31, 2018.
5. Prepare the income statement of Canyon Canoe Company for the two months ended December 31, 2018.
6. Prepare the statement of owner's equity for the two months ended December 31, 2018.
7. Prepare the balance sheet as of December 31, 2018.
8. Calculate the debt ratio for Canyon Canoe Company at December 31, 2018.

Practice Set

P2-43 Journalizing transactions, posting to T-accounts, and preparing a trial balance

Consider the following transactional data for the first month of operations for Crystal Clear Cleaning.

Nov. 1	Aaron Hideaway contributed $15,000 and a truck, with a market value of $3,000, to the business in exchange for capital.
2	The business paid $4,000 to Pleasant Properties for November through February rent. (Debit Prepaid Rent)
3	Paid $4,800 for a business insurance policy for the term November 1, 2018 through October 31, 2019. (Debit Prepaid Insurance)
4	Purchased cleaning supplies on account, $320.
5	Purchased on account an industrial vacuum cleaner costing $1,500. The invoice is payable November 25.
7	Paid $3,900 for a computer and printer.
9	Performed cleaning services on account in the amount of $4,700.
10	Received $200 for services rendered on November 9.
15	Paid employees, $400.
16	Received $15,000 for a 1-year contract beginning November 16 for cleaning services to be provided. Contract begins November 16, 2018, and ends November 15, 2019. (Credit Unearned Revenue)
17	Provided cleaning services and received $400 cash.
18	Received a utility bill for $175 with a due date of December 4, 2018. (Use Accounts Payable)
20	Borrowed $36,000 from bank with interest rate of 6% per year.
21	Received $500 on account for services performed on November 9.
25	Paid $750 on account for vacuum cleaner purchased on November 5.
29	Paid $200 for advertising.
30	Hideaway withdrew cash of $1,400 from the business.

Requirements

1. Journalize the transactions, using the following accounts: Cash; Accounts Receivable; Cleaning Supplies; Prepaid Rent; Prepaid Insurance; Equipment; Truck; Accounts Payable; Unearned Revenue; Notes Payable; Hideaway, Capital; Hideaway, Withdrawals; Service Revenue; Salaries Expense; Advertising Expense; and Utilities Expense. Explanations are not required.
2. Open a T-account for each account.
3. Post the journal entries to the T-accounts, and calculate account balances.
4. Prepare a trial balance as of November 30, 2018.

Critical Thinking

Tying It All Together Case 2-1

Before you begin this assignment, review the Tying It All Together feature in the chapter.

Part of the **Fry's Electronics, Inc.**'s experience involves providing technical support to its customers. This includes in-home installations of electronics and also computer support at their retail store locations.

Requirements

1. Suppose Fry's Electronics, Inc. provides $10,500 of computer support at the Dallas-Fort Worth store during the month of November. How would Fry's Electronics record this transaction? Assume all customers paid in cash. What financial statement(s) would this transaction affect?
2. Assume Fry's Electronics, Inc.'s Modesto, California, location received $24,000 for an annual contract to provide computer support to the local city government. How would Fry's Electronics record this transaction? What financial statement(s) would this transaction affect?
3. What is the difference in how revenue is recorded in requirements 1 and 2? Clearly state when revenue is recorded in each requirement.

SOLUTION

Requirement 1

Fry's Electronics would record the following journal entry:

Date	Accounts and Explanation	Debit	Credit
	Cash	10,500	
	Service Revenue		10,500

The transaction would increase assets (Cash) and equity on the balance sheet and increase Service Revenue on the income statement.

Requirement 2

Fry's Electronics would record the following journal entry:

Date	Accounts and Explanation	Debit	Credit
	Cash	24,000	
	Unearned Revenue		24,000

The transaction would increase assets (Cash) and increase liabilities (Unearned Revenue) on the balance sheet.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Requirement 3

In requirement 1, Fry's Electronics recorded revenue because the company had received the cash from the customer and provided the service. In requirement 2, Fry's Electronics recorded a liability, Unearned Revenue, because even though cash was received, the service has not been provided. The revenue related to requirement 2 will not be recorded until the service has been provided.

Decision Case 2-1

Your friend, Dean McChesney, requested that you advise him on the effects that certain transactions will have on his business, A-Plus Travel Planners. Time is short, so you cannot journalize the transactions. Instead, you must analyze the transactions without a journal. McChesney will continue the business only if he can expect to earn a monthly net income of $6,000. The business completed the following transactions during June:

a. McChesney deposited $10,000 cash in a business bank account to start the company. The company gave capital to McChesney.
b. Paid $300 cash for office supplies.
c. Incurred advertising expense on account, $700.
d. Paid the following cash expenses: administrative assistant's salary, $1,400; office rent, $1,000.
e. Earned service revenue on account, $8,800.
f. Collected cash from customers on account, $1,200.

Requirements

1. Open the following T-accounts: Cash; Accounts Receivable; Office Supplies; Accounts Payable; McChesney, Capital; Service Revenue; Salaries Expense; Rent Expense; and Advertising Expense.
2. Post the transactions directly to the accounts without using a journal. Record each transaction by letter. Calculate account balances.
3. Prepare a trial balance at June 30, 2018.
4. Compute the amount of net income or net loss for this first month of operations. Would you recommend that McChesney continue in business?

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Ethical Issue 2-1

Better Days Ahead, a charitable organization, has a standing agreement with First National Bank. The agreement allows Better Days Ahead to overdraw its cash balance at the bank when donations are running low. In the past, Better Days Ahead managed funds wisely and rarely used this privilege. Jacob Henson has recently become the president of Better Days Ahead. To expand operations, Henson acquired office equipment and spent large amounts on fundraising. During Henson's presidency, Better Days Ahead has maintained a negative bank balance of approximately $10,000.

What is the ethical issue in this situation, if any? State why you approve or disapprove of Henson's management of Better Days Ahead's funds.

SOLUTION

The bank has a standing agreement with Better Days Ahead for overdrafts, so as long as transactions are compliant with terms of the agreement, there is no ethical issue. The exercise refers to Better Days Ahead managing funds "wisely." However, whether funds are managed wisely or not is a matter of prudent business management and not an ethical issue. Presumably if Better Days Ahead was exceeding the terms of the agreement, the bank would cancel the arrangement.

Some students may point out that the agreement was for times when donations were running low, whereas the reasons given for the overdraft are for expansion and fundraising. If this is interpreted to mean that Better Days Ahead is abusing the privilege according to the terms of the agreement, then there may be an ethical issue involved, but that is not made clear by the information given.

Students may approve of Henson's cash management if the arrangement is beneficial to Better Days Ahead, and thus helps them accomplish their charitable mission more effectively. Students may disapprove of Henson's cash management if (a) they feel it is "unwise" (poor business management), or (b) if they believe he is exceeding the terms of the agreement.

Fraud Case 2-1

Roy Akins was the accounting manager at Zelco, a tire manufacturer, and he played golf with Hugh Stallings, the CEO, who was something of a celebrity in the community. The CEO stood to earn a substantial bonus if Zelco increased net income by year-end. Roy was eager to get into Hugh's elite social circle; he boasted to Hugh that he knew some accounting tricks that could increase company income by simply revising a few journal entries for rental payments on storage units. At the end of the year, Roy changed the debits from "rent expense" to "prepaid rent" on several entries. Later, Hugh got his bonus, and the deviations were never discovered.

Requirements

1. How did the change in the journal entries affect the net income of the company at year-end?
2. Who gained and who lost as a result of these actions?

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

SOLUTION

Requirement 1
By changing an expense to an asset, the total expenses will decrease and net income will increase.

Requirement 2
The CEO gained by earning a bonus, and the accounting manager may have gained by getting favorable treatment from the CEO. The company lost, because the company paid out the bonus under fraudulent conditions.

Financial Statement Case 2-1

Refer to http://www.pearsonhighered.com/Horngren to view a link to **Target Corporation's** Fiscal 2015 Annual Report.

Requirements

1. Calculate the debt ratio for Target Corporation as of January 30, 2016.
2. How did the debt ratio for Target Corporation compare to the debt ratio for **Kohl's Corporation**? Discuss.

SOLUTION

Requirement 1

Debt ratio = Total liabilities / Total assets
= $27,305 (in millions) / $40,262 (in millions)
= 0.678* = 67.8%
* rounded

Requirement 2

Target's debt ratio is significantly higher than Kohl's (59.6%).

Communication Activity 2-1

In 35 words or fewer, explain the difference between a debit and a credit, and explain what the normal balance of the six account types is.

SOLUTION

Debits are on the left, credits are on the right. Normal balance for assets, expenses, and Owner's Withdrawals is a debit. For liability, Owner's Capital, and revenue accounts, the normal balance is a credit.

Chapter 2

Recording Business Transactions

Directed Reading Guide

LO1. What is an account?

a) In your own words, what is an *account*? **An account is the detailed record of all increases and decreases that have occurred in an individual asset, liability, or equity during a specified period.**

   i) Assets: List some examples of assets. **Cash, Accounts Receivable, Notes Receivable, Prepaids, Land, Building, and equipment are a few examples.**

   ii) Liabilities: List some examples of liabilities. **Accounts payable, Notes Payable, Accrued Liabilities, and Unearned Revenue are a few examples.**

   iii) Equity: List the four equity accounts. **Owner's Capital, Owner's Withdrawals, Revenues, and Expenses.**

b) In your own words, what is a *chart of accounts*? **A chart of accounts lists all company accounts along with the account numbers.**

c) In your own words, what is a *ledger*? **A ledger is a collection of all the accounts, the changes in those accounts, and their balances.**

In MyAccountingLab, complete Try It! 2-1 and S2-1.

LO2. What is double-entry accounting?

a) Draw a T-account and label the debit and credit side.

Debit	**Credit**

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

b) Fill in the expanded accounting equation with Debit (DR), Credit (CR), and Increase (Inc.) and Decrease (Dec.).

Assets = Liabilities + Equity

Assets		= Liabilities		+ Owner, Capital		– Owner Withdrawals		+ Revenues		– Expenses	
DR	**CR**	**DR**	**CR**	**DR**	**CR**	**DR**	**CR**	**DR**	**CR**	**DR**	**CR**
Inc.	**Dec.**	**Dec.**	**Inc.**	**Dec.**	**Inc.**	**Inc.**	**Dec.**	**Dec.**	**Inc.**	**Inc.**	**Dec.**

c) Fill in the normal balance of the account

Account type	Normal Balance
Asset	***Debit***
Expenses	**Debit**
Owner, Withdrawals	**Debit**
Liabilities	**Credit**
Revenues	**Credit**
Owner, Capital	**Credit**

d) Determining the balance in the following T-account

Cash	
25,000	1,000
2,000	3,000
	$23,000 balance

In MyAccountingLab, complete Try It! 2-2 and S2-2, S2-3, and S2-4.

LO3. How do you record transactions?

a) In your own words, define the following terms:

a. Source documents **- Accountants use source documents to provide the evidence and data for recording transactions.**

b. Journal **– A journal is the record of transactions in date order.**

c. Posting **- The process of transferring data from the journal to the ledger.**

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

b) What are the steps for journalizing and posting? **- 1) Identify the accounts and account type; 2) Decide whether each account increases or decreases, then apply the rules of debits and credits; 3) Record the transaction in the journal; 4) Post the journal entry to the ledger; 5) Determine whether the accounting equation is in balance.**

In MyAccountingLab, complete Try It! 2-3 and S2-5.

LO4. What is the trial balance?

a) In your own words, what is a *trial balance*? **The trial balance summarizes the ledger by listing all the accounts with their balances.**

In MyAccountingLab, complete Try It! 2-4 and S2-8.

LO5. Use the debt ratio to evaluate business performance

a) Write the formula for the debt ratio. **Total liabilities / Total Assets**

b) What does the debt ratio show? **The debt ratio shows the proportion of assets financed with debt.**

In MyAccountingLab, complete Try It! 2-5 and S2-9.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

1. Identify the three categories of the accounting equation and list at least four accounts associated with each category.

The three categories of the accounting equation are assets, liabilities, and equity. Assets include Cash, Accounts Receivable, Notes Receivable, Prepaid Expenses, Land, Building, Equipment, Furniture, and Fixtures. Liabilities include Accounts Payable, Notes Payable, Accrued Liability, and Unearned Revenue. Equity includes Owner, Capital, Owner, Withdrawals, Revenue, and Expenses.

2. What is the purpose of the chart of accounts? Explain the numbering typically associated with the accounts.

Companies need a way to organize their accounts so they use a chart of accounts. Accounts starting with 1 are usually Assets, 2 – Liabilities, 3 – Equity, 4 – Revenues, and 5 – Expenses. The second and third digits in account number indicate where the account fits within the category.

3. What does a ledger show? What's the difference between a ledger and the chart of accounts?

A chart of accounts and a ledger are similar in that they both list the account names and account numbers of the business. A ledger, though, provides more detail. It includes the increases and decreases of each account for a specific period and the balance of each account at a specific point in time.

4. Accounting uses a double-entry system. Explain what this sentence means.

With a double-entry you need to record the dual effects of each transaction. Every transaction affects at least two accounts.

5. What is a T-account? On which side is the debit? On which side is the credit? Where does the account name go on a T-account?

A T-account is a shortened form of each account in the ledger. The debit is on the left side, credit on the right side, and the account name is shown on top.

6. When are debits increases? When are debits decreases?

Debits are increases for assets, withdrawals, and expenses.
Debits are decreases for liabilities, capital, and revenue.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

7. When are credits increases? When are credits decreases?

Credits are increases for liabilities, capital, and revenue.
Credits are decreases for assets, withdrawals, and expenses.

8. Identify which types of accounts have a normal debit balance and which types of accounts have a normal credit balance.

Assets, withdrawals, and expenses have a normal debit balance.
Liabilities, capital, and revenue have a normal credit balance.

9. What are source documents? Provide examples of source documents that a business might use.

Source documents provide the evidence and data for accounting transactions.
Examples of source documents a business would have are: bank deposit slips, purchase invoices, bank checks, and sales invoices.

10. Where are transactions initially recorded?

Transactions are first recorded in a journal, which is the record of transactions in date order.

11. Explain the five steps in journalizing and posting transactions.

Step 1: Identify the accounts and the account type. You need this information before you can complete the next step. Step 2: Decide if each account increases or decreases using the rules of debits and credits. Reviewing the rules of debits and credits, we use the accounting equation to help determine debits and credits for each account. Step 3: Record transactions in the journal using journal entries. Step 4: Post the journal entry to the ledger. When journal entries are posted from the journal to the ledger, the dollar amount is transferred from the debit and credit columns to the specific accounts in the ledger. The date on the journal entry should also be transferred to the accounts in the ledger. Step 5: Determine whether the accounting equation is in balance. After each entry the accounting equation should always be in balance.

12. What are the four parts of a journal entry?

Part 1: Date of the transaction. Part 2: Debit account name and dollar amount.
Part 3: Credit account name and dollar amount. The credit account name is indented. Part 4: Brief explanation.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

13. What is involved in the posting process?

When transactions are posted from the journal to the ledger, the dollar amount is transferred from the debit and credit columns to the specific accounts in the ledger. The date of the journal entry is also transferred to the accounts in the ledger. The posting reference columns in the journal and ledger are also completed. In a computerized system, this step is completed automatically when the transaction is recorded in the journal.

14. What is the purpose of the trial balance?

The trial balance is used to prove the equality of total debits and total credits of all accounts in the ledger; it is also used to prepare the financial statements.

15. What is the difference between the trial balance and the balance sheet?

A trial balance verifies the equality of total debits and total credits of all accounts on the trial balance and is an internal document used only by employees of the company. The balance sheet, on the other hand, presents the business's accounting equation and is a financial statement that can be used by both internal and external users.

16. If total debits equal total credits on the trial balance, is the trial balance error-free? Explain your answer.

If total debits equal total credits on the trial balance, it does not mean that the trial balance is error-free. An incorrect amount could have been used, an entry could have been completely missed, or the wrong account title could have been debited or credited .

17. What is the calculation for the debt ratio? Explain what the debt ratio evaluates.

The debt ratio is calculated by dividing total liabilities by total assets and shows the proportion of assets financed with debt. It can be used to evaluate a business's ability to pay its debts.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-1

Identify each account as an asset (A), liability (L), or equity (E).

Solution:

a. Notes Receivable (A)
b. Nunez, Capital (E)
c. Prepaid Insurance (A)
d. Notes Payable (L)
e. Rent Revenue (E)
f. Taxes Payable (L)
g. Rent Expense (E)
h. Furniture (A)
i Nunez, Withdrawals (E)
j. Unearned Revenue (L)

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-2

For each account, identify whether the changes would be recorded as a debit (DR) or credit (CR).

Solution:

a. Increase to Accounts Receivable (DR)
b. Decrease to Unearned Revenue (DR)
c. Decrease to Cash (CR)
d. Increase to Interest Expense (DR)
e. Increase to Salaries Payable (CR)
f. Decrease to Prepaid Rent (CR)
g. Increase to Proudfoot, Capital (CR)
h. Increase to Notes Receivable (DR)
i Decrease to Accounts Payable (DR)
j. Increase to Interest Revenue (CR)

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

S2-3

For each account, identify whether the normal balance is a debit (DR) or credit (CR).

Solution:

a. Notes Payable (CR)
b. Dividends (DR)
c. Service Revenue (CR)
d. Land (DR)
e. Unearned Revenue (CR)
f. Herman, Capital (CR)
g. Utilities Expense (DR)
h. Office Supplies (DR)
i Advertising Expense (DR)
j. Interest Payable (CR)

E2-25

Requirements

1. For each of these errors, state whether total debits equal total credits on the trial balance.

2. Identify each account that has an incorrect balance, and the amount and direction of the error (such as “Accounts Receivable $500 too high”).

Solution:

Requirements 1 and 2

	Debits equal Credits, Yes or No	Accounts	Amount	High or Low
a.	No	Notes Payable	$ 5,000	Low
b.	No	Utilities Expense	900	Low
c.	Yes	Furniture	600	High
		Accounts Payable	600	High
d.	No	Cash	450	Low
e.	Yes	Office Supplies	90	Low
		Accounts Payable	90	Low

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

E2-26

Prepare the corrected trial balance as of November 30, 2018. Assume all amounts are correct and all accounts have normal balances.

Solution:

COUNTRYSIDE PAINTING SPECIALISTS Trial Balance November 30, 2018		
Account Title	**Balance**	
	Debit	**Credit**
Cash	$ 12,100	
Accounts Receivable	1,300	
Office Supplies	200	
Painting Equipment	13,500	
Accounts Payable		$ 3,300
Unearned Revenue		1,700
Watts, Capital		15,000
Watts, Withdrawals	3,500	
Service Revenue		15,600
Advertising Expense	550	
Rent Expense	1,800	
Salaries Expense	2,400	
Utilities Expense	250	
Total	**$ 35,600**	**$ 35,600**

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

E2-27

Prepare the corrected trial balance as of May 31, 2018, complete with a heading; journal entries are not required.

Solution:

JOY MCDOWELL TUTORING SERVICE Trial Balance May 31, 2018		
Account Title	**Balance**	
	Debit	**Credit**
Cash	$ 3,200	
Accounts Receivable	1,600	
Office Supplies	600	
Computer Equipment	15,800	
Accounts Payable		$ 12,900
Utilities Payable		1,100
McDaowell, Capital		11,700
McDowell, Withdrawals	10,400	
Service Revenue		9,600
Salaries Expense	1,900	
Rent Expense	800	
Utilities Expense	1,000	
Total	**$ 35,300**	**$ 35,300**

Explanation:

a. Increase Cash by $400, decrease Accounts Receivable by $400.
b. Increase Accounts Payable by $1,800 ($2,000 – $200).
c. Increase Utilities Expense and Utilities Payable by $300 each.
d. Increase McDowell, Capital by $100.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

E2-28

Calculate the debt ratio for John Hart, M.D.

Solution:

Liabilities:		
Accounts Payable	$	1,600
Utilities Payable		800
Unearned Revenue		24,795
Notes Payable		69,000
Total liabilities	$	96,195

Assets:		
Cash	$	30,000
Accounts Receivable		7,900
Office Supplies		3,000
Office Equipment		30,000
Building		75,000
Land		29,000
Total assets	$	174,900

Debt ratio = Total liabilities / Total assets = $96,195 / $174,900 = 0.55 = 55%

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

P2-29A

Requirements

1. Journalize each transaction. Explanations are not required.
2. Post the journal entries to the T-accounts, using transaction dates as posting references in the ledger accounts. Label the balance of each account Bal.
3. Prepare the trial balance of Vincent York, M.D. as of July 31, 2018.

P2-32A

Requirements

1. Record the April transactions in the journal.
2. Open the four-column ledger accounts listed in the trial balance, together with their balances as of March 31.
3. Post the journal entries to four-column accounts in the ledger, using dates, account numbers, journal references, and posting references. Assume the journal entries were recorded on page 5 of the journal.
4. Prepare the trial balance of Shawn Merry, CPA, at April 30, 2018.

Solution:

Requirement 1

Date	Accounts and Explanation	Posting Ref.	Debit	Credit
Apr. 4	Cash	11	2,500	
	Accounts Receivable	12		2,500
	Received cash from client on account.			
8	Accounts Receivable	12	5,400	
	Service Revenue	41		5,400
	Performed tax services for client on account.

P2-33A

Prepare the corrected trial balance as of August 31, 2018. Journal entries are not required.

Solution:

BEAUTIFUL TOTS CHILD CARE Trial Balance August 31, 2018		
Account Title	**Balance**	
	Debit	**Credit**
Cash	$ 10,900	
Accounts Receivable	14,900	
Office Supplies	2,400	
Prepaid Insurance	4,100	
Equipment	83,000	
Accounts Payable		$ 4,800
Notes Payable		45,000
Trumball, Capital		57,000
Trumball, Withdrawals	3,200	
Service Revenue		16,450
Salaries Expense	3,700	
Rent Expense	750	
Advertising Expense	300	
Total	**$ 123,250**	**$ 123,250**

Explanations:
a. Increase Cash by $1,500.
b. Increase Accounts Receivable by $8,200 ($4,100 × 2).
c. Increase Office Supplies and Accounts Payable by $1,400 each.
d. Decrease Equipment by $8,500 ($91,500 − $83,000).
e. Decrease Salaries Expense by $700.
f. Advertising Expense should have a debit balance of $300. Decrease Cash by $300.
g. Trumball, Withdrawals should decrease by $1,800 and Cash should increase by $1,800 ($2,000 − $200).
h. Service Revenue should increase by $4,100.
i. Prepaid Insurance should increase by $3,800 ($1,900 × 2).

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

P2-34A

Requirements

1. Prepare the income statement for the month ended July 31, 2018.

2. Prepare the statement of owner's equity for the month ended July 31, 2018. The beginning balance of capital was $0 and the owner contributed $18,000 during the month.

3. Prepare the balance sheet as of July 31, 2018.

4. Calculate the debt ratio as of July 31, 2018.

Solution:

Requirement 1

SARA SIMON, REGISTERED DIETICIAN Income Statement Month Ended July 31, 2018			
Revenues:			
Service Revenue			$17,888
Expenses:			
Salaries Expense	$	1,700	
Rent Expense		1,100	
Utilities Expense		500	
Total Expenses			3,300
Net Income			$ 14,588

Requirement 2

SARA SIMON, REGISTERED DIETICIAN Statement of Owner's Equity Month Ended July 31, 2018		
Simon, Capital, July 1, 2018	$	0
Owner contribution	$	18,000
Net income for the month		14,588
		32,588
Owner withdrawals		(2,800)
Simon, Capital, July 31, 2018		$29,788

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Requirements 3

SARA SIMON, REGISTERED DIETICIAN Balance Sheet July 31, 2018			
Assets		**Liabilities**	
Cash	$ 38,000	Accounts Payable	$ 3,000
Accounts Receivable	9,000	Unearned Revenue	3,912
Office Supplies	2,300	Notes Payable	31,000
Prepaid Insurance	2,400	Total Liabilities	37,912
Equipment	16,000		
		Owner's Equity	
		Simon, Capital	29,788
		Total Liabilities and Owner's	
Total Assets	$ 67,700	Equity	$ 67,700

Requirements 4

Debt ratio = Total liabilities / Total assets = $37,912 / $67,700 = 0.56 = 56%

P2-38B

Requirements

1. Record the April transactions in the journal using the following accounts: Cash; Accounts Receivable; Office Supplies; Land; Furniture; Automobile; Accounts Payable; Unearned Revenue; Menning, Capital; Menning, Withdrawals; Service Revenue; Salaries Expense; and Rent Expense. Include an explanation for each entry.

2. Open the four-column ledger accounts listed in the trial balance, together with their balances as of March 31. Use the following account numbers: Cash, 11; Accounts Receivable, 12; Office Supplies, 13; Land, 14; Furniture, 15; Automobile, 16; Accounts Payable, 21; Unearned Revenue, 22; Menning, Capital, 31; Menning, Withdrawals, 33; Service Revenue, 41; Salaries Expense, 51; and Rent Expense, 52.

3. Post the journal entries to four-column accounts in the ledger, using dates, account numbers, journal references, and posting references. Assume the journal entries were recorded on page 5 of the journal.

4. Prepare the trial balance of John Menning, CPA, at April 30, 2018.

	Total	$ 87,900	$ 87,900

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

P2-39B

Prepare the corrected trial balance as of May 31, 2018. Journal entries are not required.

Solution:

LOVE TO LEARN CHILD CARE Trial Balance May 31, 2018		
Account Title	**Balance**	
	Debit	Credit
Cash	$ 11,000	
Accounts Receivable	16,300	
Office Supplies	2,000	
Prepaid Insurance	4,500	
Equipment	82,500	
Accounts Payable		$ 4,000
Notes Payable		45,000
Ebony, Capital		54,000
Ebony, Withdrwals	2,300	
Service Revenue		20,300
Salaries Expense	4,000	
Rent Expense	400	
Advertising Expense	300	
Total	$ 123,300	$ 123,300

Explanations:
a. Increase Cash by $1,800.
b. Increase Accounts Receivable by $7,600 ($3,800 × 2).
c. Increase Office Supplies and Accounts Payable by $1,000 each.
d. Decrease Equipment by $7,900 ($90,400 − $82,500).
e. Decrease Salaries Expense by $350.
f. Advertising Expense should have a debit balance of $300. Decrease Cash by $300.
g. Ebony, Withdrawals should decrease by $1,440 and Cash should increase by $1,440 ($1,600 − $160).
h. Service Revenue should increase by $4,000.
i. Prepaid Insurance should increase by $2,800 ($1,400 × 2).

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

P2-40B

Requirements

1. Prepare the income statement for the month ended July 31, 2018.

2. Prepare the statement of owner's equity for the month ended July 31, 2018.The beginning balance of owner's equity was $0 and the owner contributed $20,000 during the month.

3. Prepare the balance sheet as of July 31, 2018.

4. Calculate the debt ratio as of July 31, 2018.

Solution:

Requirement 1

SHEILA SANCHEZ, REGISTERED DIETICIAN Income Statement Month Ended July 31, 2018		
Revenues:		
Service Revenue		$ 15,804
Expenses:		
Salaries Expense	$ 1,600	
Rent Expense	700	
Utilities Expense	100	
Total Expenses		2,400
Net Income		$ 13,404

Requirement 2

SHEILA SANCHEZ, REGISTERED DIETICIAN Statement of Owner's Equity Month Ended July 31, 2018		
Sanchez, Capital, July 1, 2018	$	0
Owner contribution	$	20,000
Net income for the month		13,404
	$	33,404
Owner withdrawals		(3,000)
Sanchez, Capital, July 31, 2018	$	30,404

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Requirement 3

SHEILA SANCHEZ, REGISTERED DIETICIAN Balance Sheet July 31, 2018			
Assets		**Liabilities**	
Cash	$ 32,000	Accounts Payable	$3,400
Accounts Receivable	9,100	Unearned Revenue	1,296
Office Supplies	1,400	Notes Payable	34,000
Prepaid Insurance	2,600	Total Liabilities	38,696
Equipment	24,000		
		Owner's Equity	
		Sanchez, Capital	30,404
		Total Liabilities and	
Total Assets	$ 69,100	Owner's Equity	$ 69,100

Requirement 4

Debt ratio = Total liabilities / Total assets = $38,696 / $69,100 = 0.56 = 56%

Tying It All Together

1. Suppose Fry's Electronics, Inc. provides $10,500 of computer support at the Dallas-Fort Worth store during the month of November. How would Fry's Electronics record this transaction? Assume all customers paid in cash. What financial statement(s) would this transaction affect?

2. Assume Fry's Electronics, Inc.'s Modesto, California, location received $24,000 for an annual contract to provide computer support to the local city government. How would Fry's Electronics record this transaction? What financial statement(s) would this transaction affect?

3. What is the difference in how revenue is recorded in requirements 1 and 2? Clearly state when revenue is recorded in each requirement.

Solution:

Requirement 1

Fry's Electronics would record the following journal entry:

Date	Accounts and Explanation	Debit	Credit
	Cash	10,500	
	Service Revenue		10,500

The transaction would increase assets (Cash) and equity (Retained Earnings) on the balance sheet and increase Service Revenue on the income statement.

Requirement 2

Fry's Electronics would record the following journal entry:

Date	Accounts and Explanation	Debit	Credit
	Cash	24,000	
	Unearned Revenue		24,000

The transaction would increase assets (Cash) and increase liabilities (Unearned Revenue) on the balance sheet.

Requirement 3

In requirement 1, Fry's Electronics recorded revenue because the company had received the cash from the customer and provided the service. In requirement 2, Fry's Electronics recorded a liability, Unearned Revenue, because even though cash was received, the service has not been provided. The revenue related to requirement 2 will not be recorded until the service has been provided

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Decision Case 2-1

Requirements

1. Open the following T-accounts: Cash; Accounts Receivable; Office Supplies; Accounts Payable; McChesney, Capital; Service Revenue; Salaries Expense; Rent Expense; and Advertising Expense.

2. Post the transactions directly to the accounts without using a journal. Record each transaction by letter. Calculate account balances.

3. Prepare a trial balance at June 30, 2018.

4. Compute the amount of net income or net loss for this first month of operations. Would you recommend that McChesney continue in business?

Solution:

Requirements 1 and 2

Cash			
a.	10,000	300	b.
f.	1,200	2,400	d.
Bal.	8,500		

Accounts Payable			
		700	c.
		700	Bal.

Accounts Receivable			
e.	8,800	1,200	f.
Bal.	7,600		

McChesney, Capital			
		10,000	a.
		10,000	Bal.

Office Supplies			
b.	300

c.	700		
Bal.	700		

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Requirement 3

A-PLUS TRAVEL PLANNERS Trial Balance June 30, 2018		
Account Title	**Balance**	
	Debit	**Credit**
Cash	$ 8,500	
Accounts Receivable	7,600	
Office Supplies	300	
Accounts Payable		$ 700
McChesney, Capital		10,000
Service Revenue		8,800
Salaries Expense	1,400	
Rent Expense	1,000	
Advertising Expense	700	
Total	$ 19,500	$ 19,500

Requirement 4

Revenues:		$ 8,800
Service Revenue		
Expenses:	$ 1,400	
Salaries Expense	1,000	
Rent Expense	700	
Advertising Expense		3,100
Total Expenses		$ 5,700
Net Income		

McChesney should discontinue the business because net income falls below the target amount.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Ethical Issue 2-1

What is the ethical issue in this situation, if any? State why you approve or disapprove of Henson's management of Better Days Ahead's funds.

Solution:

The bank has a standing agreement with Better Days Ahead for overdrafts, so as long as transactions are compliant with terms of the agreement, there is no ethical issue. The exercise refers to Better Days Ahead managing funds "wisely." However, whether funds are managed wisely or not is a matter of prudent business management and not an ethical issue. Presumably if Better Days Ahead was exceeding the terms of the agreement, the bank would cancel the arrangement.

Some students may point out that the agreement was for times when donations were running low, whereas the reasons given for the overdraft are for expansion and fundraising. If this is interpreted to mean that Better Days Ahead is abusing the privilege according to the terms of the agreement, then there may be an ethical issue involved, but that is not made clear by the information given.

Students may approve of Henson's cash management if the arrangement is beneficial to Better Days Ahead, and thus helps them accomplish their charitable mission more effectively. Students may disapprove of Henson's cash management if (a) they feel it is "unwise" (poor business management), or (b) if they believe he is exceeding the terms of the agreement.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Fraud Case 2-1

Requirements

1. How did the change in the journal entries affect the net income of the company at year-end?

2. Who gained and who lost as a result of these actions?

Solution:

Requirement 1

By changing an expense to an asset, the total expenses will decrease and net income will increase.

Requirement 2

The CEO gained by earning a bonus, and the accounting manager may have gained by getting favorable treatment from the CEO. The shareholders of the company lost, because the company paid out the bonus under fraudulent conditions.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Financial Statement Case 2-1

Requirement

1. Calculate the debt ratio for Target Corporation as of January 30, 2016.

2. How did the debt ratio for Target Corporation compare to the debt ratio for Kohl's Corporation? Discuss.

Solution:

Requirement 1

Debt ratio = Total liabilities / Total assets
= $27,305 (in millions) / $40,262 (in millions)
= 0.678* = 67.8%
* rounded

Requirement 2

Target's debt ratio is significantly higher than Kohl's (59.6%).

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Communication Activity 2-1

In 35 words or fewer, explain the difference between a debit and a credit, and explain what the normal balance of the six account types is.

Solution:

Debits are on the left, credits are on the right. Normal balance for assets,
expenses, and Owner's Withdrawals is a debit. For liability,
Owner's Capital, and revenue accounts, the normal balance is a credit.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Chapter 2

Recording Business Transactions

Chapter 2: Overview

The chapter introduces the account and then briefly describes specific asset, liability, and equity accounts. The chart of accounts is presented as a way to organize accounts, and the ledger is introduced as a tool for maintaining the accounts. The concept of double-entry accounting and the rules of debit and credit for increasing or decreasing assets, liabilities, and equity are described. The rules of debit and credit are then expanded to include specific types of equity accounts. The normal balances of accounts are explained. The T-account is illustrated. The accounting equation is tied to the rules of debit and credit.

The flow of accounting data is illustrated from the occurrence of a transaction through recording of the transaction. The process of recording transactions (journalizing) is presented. A series of entries are analyzed, journalized, and posted to T-accounts in the ledger. The four-column account is introduced. The trial balance is defined and illustrated. Some typical accounting errors revealed by a trial balance are described. How the debt ratio is used to evaluate business performance is discussed.

An Ethics feature helps give real-world perspective on the importance of source documents. The Tying It All Together feature focusses on Fry's Electronics, Inc. A Decisions feature helps students see how the debt ratio can be used to make a real-world decision. The Review section includes Things You Should Know, which highlights the information students should have acquired from the chapter. A Check Your Understanding reviews opening accounts, journalizing, posting, and preparing a trial balance. A list of Key Terms is provided. A Quick Check gives students a chance to assess their knowledge of the chapter learning objectives.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Chapter 2: Learning Objectives

LO 1. Explain accounts as they relate to the accounting equation and describe common accounts

LO 2. Define debits, credits, and normal account balances using double-entry accounting and T-accounts

LO 3. Record transactions in a journal and post journal entries to the ledger

LO 4. Prepare the trial balance and illustrate how to use the trial balance to prepare financial statements

LO 5. Use the debt ratio to evaluate business performance

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Chapter 2: Teaching Outline with Lecture Notes

LO 1. Explain accounts as they relate to the accounting equation and describe common accounts

a) Review the accounting equation

b) Review the following terms and give examples of common accounts:

i. Account

ii. Assets

- Exhibit 2-1: Asset Accounts

iii. Liabilities

- Exhibit 2-2: Liability Accounts

iv. Equity

- Exhibit 2-3: Equity Accounts

v. Chart of accounts

- Exhibit 2-4: Chart of Accounts—Smart Touch Learning

vi. Ledger

Lecture Notes: An understanding of Chapter 2 is essential for student success in the remaining financial accounting chapters. Spend adequate time in the beginning with accounting terminology. Accounting is a "foreign" language to many students, and, as is the case with a real foreign language, you must start with the basics.

Students seem to understand assets and liabilities more easily than they understand equity. An asset can be touched, and a liability can be confirmed by looking at an invoice, but equity is conceptual. Equity is the residual owner's claims to the business assets—what is left over after liabilities are subtracted from assets. Students may own a car or home that has an outstanding loan or mortgage, so it may be helpful to ask them to think about their personal equity for their car or home.

Suggested In-Class Exercise: E2-11

LO 2. Define debits, credits, and normal account balances using double-entry accounting and T-accounts

a) Double-entry system

b) The T-account

c) The accounting equation and the rules of debit and credit

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

d) Increases and decreases in the accounts

e) Expanding the rules of debit and credit

f) The normal balance of an account

- Exhibit 2-5: Rules of Debit and Credit and Normal Balances for Each Account Type

g) Determining the balance of a T-account

Lecture Notes: Keep it simple when discussing T-accounts and the rules of debit and credit. Emphasize that in accounting, *debit* means left side, and *credit* means right side—nothing more. Point out that students may have heard the terms used in other contexts, such as credit reports and debit cards, but these are different meanings of the words *debit* and *credit*. Furthermore, *debit* does not mean increase, and *credit* does not mean decrease. Increases and decreases depend on the account type.

Emphasize that *every* basic accounting transaction affects at least two accounts, with at least one account to be debited and at least one account to be credited. Every journal entry must balance (debits = credits) in order for the accounting system to accurately generate correct and useful information. An incorrect journal entry that is posted to the correct accounts will still produce incorrect information.

An account can have only one balance. Debits and credits within the same account are subtracted to determine the account balance, just like positives and negatives from a mathematical standpoint. The normal balance is the side used to record increases in the account.

Suggested In-Class Exercise: E2-13

LO 3. Record transactions in a journal and post journal entries to the ledger

a) Define the following terms:

i. Source documents

ii. Journal

iii. Posting

- Exhibit 2-6: Flow of Accounting Data

b) Introduce the five steps of journalizing and posting

c) Journalize and post with 17 specific Smart Touch Learning examples

d) The ledger accounts after posting

- Exhibit 2-7: Smart Touch Learning's Accounts After Posting Journal Entries in November and December

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

e) The four-column account: An alternative to the T-account

- Exhibit 2-8: T-Account Versus Four-Column Account
- Exhibit 2-9: Posting References

Lecture Notes: When discussing the posting process, emphasize the need to be very careful when transferring amounts to the ledger. It is common for students to reverse a posting and record a debit as a credit or vice versa. A debit is placed on the left side, and a credit is placed on the right side. Also, relate to them that transposing digits during the posting process is a common mistake. For example, a transaction might be for $630 and recorded in the journal as $630 but posted to the ledger as $360. If the trial balance doesn't balance, it is common for students to have reversed a posting or transposed digits. For this reason, it is important to include dates and/or transaction numbers linking the journal entry to the ledger account to more easily trace those errors.

Suggested In-Class Exercises: E2-16 and E2-17

LO 4. Prepare the trial balance and illustrate how to use the trial balance to prepare financial statements

a) Define a trial balance

- Exhibit 2-10: Trial Balance

b) Preparing financial statements from the trial balance

- Exhibit 2-11: Smart Touch Learning's Financial Statements

c) Correcting trial balance errors

Lecture Notes: It may be helpful for students to view the accounting system from both ends. The natural process is to journalize transactions, post entries, and prepare a trial balance. However, once the chapter content is discussed, you can also begin with the trial balance and have students trace back to the ledger and journal to find a specific transaction. They may also get experience doing this when correcting a trial balance that does not balance.

Suggested In-Class Exercise: E2-22

LO 5. Use the debt ratio to evaluate business performance

a) Define the debt ratio and explain how it is calculated

Lecture Notes: Remind student about the accounting equation: Assets = Liabilities + Equity. This makes it clear that the debt ratio represents the proportion of the total assets that "belong" to the creditors of the business. Conversely, 1 – Debt ratio% is the proportion of the assets that belong to the owners of the business.

Suggested In-Class Exercise: E2-28

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

        - Transaction 11—Payment of expense with cash
        - Transaction 12—Purchase of building with notes payable
        - Transaction 13—Owner contribution
        - Transaction 14—Accrued liability
        - Transaction 15—Payment of expense with cash
        - Transaction 16—Unearned revenue
        - Transaction 17—Earning of service revenue for cash
    - The ledger accounts after posting
    - The four-column account: An alternative to the T-account

LO 4. What is the trial balance?

    - Preparing financial statements from the trial balance
    - Correcting trial balance errors

LO 5. How do you use the debt ratio to evaluate business performance?

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Chapter 2: Student Chapter Summary

LO 1. Explain accounts as they relate to the accounting equation and describe common accounts

An account is a detailed record of all increases and decreases that have occurred in an individual asset, liability, or equity during a specific period. Common asset accounts include Cash, Accounts Receivable, Notes Receivable, Prepaid Expense, Land, Building, and Furniture. Common liability accounts include Accounts Payable, Notes Payable, Accrued Liability, and Unearned Revenue. Equity accounts include Owner Capital, Owner Withdrawals, Revenues, and Expenses. A chart of accounts lists a company's accounts along with account numbers. A ledger shows the increases and decreases in each account along with their balances.

LO 2. Define debits, credits, and normal account balances using double-entry accounting and T-accounts

Double-entry accounting requires transactions to be recorded into at least two accounts. The T-account is shaped like a capital *T*, with debits posted to the left side of the vertical line and credits posted to the right side of the vertical line. T-accounts represent ledger accounts. In accounting, *debit* means left side of the account, and *credit* means right side of the account. Assets, Expenses, and Owner Withdrawals are increased with a debit and decreased with a credit. Liabilities, Owner Capital, and Revenues are increased with a credit and decreased with a debit. The normal balance of an account is the increase side of that account.

LO 3. Record transactions in a journal and post journal entries to the ledger

Source documents provide the evidence and data for transactions. Transactions are recorded in a journal, and then the journal entries are posted (transferred) to the ledger. Transactions are journalized and posted using five steps:

Step 1. Identify the accounts and the account type (asset, liability, and equity).
Step 2. Decide whether each account increases or decreases, then apply the rules of debits and credits.
Step 3. Record the transaction in the journal.
Step 4. Post the journal entry to the ledger.
Step 5. Determine whether the accounting equation is in balance.

LO 4. Prepare the trial balance and use the trial balance to prepare financial statements

The trial balance summarizes the ledger by listing all the accounts with their balances. Assets are listed first, followed by liabilities, and then equity. The trial balance ensures that debits equal credits and is used to prepare the financial statements.

LO 5. Use the debt ratio to evaluate business performance

The debt ratio, calculated as Total liabilities / Total assets, is used to evaluate a business's ability to pay its debts.

CHAPTER 2
TEN-MINUTE QUIZ

Circle the letter of the best response.

1. Which of the following is a collection of all the accounts, the changes in those accounts, and their balances?
   - A. Balance sheet
   - B. Ledger
   - C. Journal
   - D. Trial balance

2. Which of the following statements is correct?
   - A. Service Revenue is increased with a debit.
   - B. Accounts Receivable is decreased with a debit.
   - C. Unearned Revenue is increased with a credit.
   - D. Owner Capital is decreased with a credit.

3. Suppose Howard Company has Furniture totaling $158,000, Cash of $18,000, and a $64,000 Note Payable. In addition, the business has Accounts Payable of $52,000 and Accounts Receivable of $43,000. How much is Howard's owner's equity?
   - A. $231,000
   - B. $145,000
   - C. $121,000
   - D. $103,000

4. Amada Company billed a customer for $5,500 of services provided on account. This transaction appears in T-accounts as follows:

A.

Service Revenue	
5,500	

Accounts Payable	
	5,500

B.

Service Revenue	
	5,500

Accounts Payable	
5,500	

C.

Service Revenue	
	5,500

Accounts Receivable	
5,500	

D.

Service Revenue	
5,500	

Accounts Receivable	
	5,500

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

5. Barstock, Inc., began the year with total assets of $177,000 and liabilities of $112,000. During the year, the business earned revenue of $103,000 and incurred expenses of $48,000. The owner withdrew cash of $24,000, and no additional contributions were made. How much is owner's equity at year-end?

A. $120,000
B. $96,000
C. $79,000
D. $31,000

6. Hughes Copies, Inc., erroneously recorded a purchase of equipment on account by debiting Equipment and crediting Cash. What will be an effect of this error on the trial balance?

A. Liabilities understated
B. Cash overstated
C. Equipment overstated
D. Equipment understated

7. Terry Baxter is the owner of Alpha Company. Baxter provided Alpha Company with $75,000 of computer equipment. The journal entry to record this transaction is as follows:

	Accounts and Explanations	Debit	Credit
A.	Baxter, Capital	75,000	
	Equipment Expense		75,000
B.	Equipment Expense	75,000	
	Baxter, Capital		75,000
C.	Equipment	75,000	
	Baxter, Capital		75,000
D.	Baxter, Capital	75,000	
	Equipment		75,000

8. Which journal entry records a $5,500 payment for office supplies that were previously purchased on account?

	Accounts and Explanations	Debit	Credit
A.	Cash	5,500	
	Accounts Receivable		5,500
B.	Cash	5,500	
	Accounts Payable		5,500
C.	Accounts Receivable	5,500	
	Cash		5,500
D.	Accounts Payable	5,500	
	Cash		5,500

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

9. What is the detailed record of all increases and decreases that have occurred in a specific individual asset, liability, or equity during a specific period?

A. Ledger
B. Trial balance
C. Account
D. Journal

10. A company has $72,000 in liabilities and $98,000 in equity. What is the debt ratio?

A. 26.5%
B. 42.4%
C. 73.5%
D. 136.1%

Copyright © 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Answer Key to Ten-Minute Quiz:

1. B

2. C

3. D

Assets		=	Liabilities		+	Owner's Equity	
Accounts Receivable	$ 43,000		Accounts Payable	$ 52,000			
Cash	18,000		Note Payable	64,000			
Furniture	158,000						
Total	$ 219,000		Total	$ 116,000		Total	?

Assets = Liabilities + Owner's equity; therefore, Owner's equity = Assets –Liabilities

Owner's equity = $219,000 – $116,000 = $103,000

4. C

5. B

Assets = Liabilities + Owner's equity; therefore, Owner's equity = Assets –Liabilities

Owner's equity at the beginning of the year = $177,000 – $112,000 = $65,000

Owner capital, beginning of year	$ 65,000
Net income earned during the year (revenue − expenses)	55,000
	120,000
Owner withdrawal	(24,000)
Owner capital, end of year	$ 96,000

6. A

7. C

8. D

9. C

10. B

Debt ratio = Total liabilities / Total assets* = $72,000 / $170,000 = 42.4%

*Total assets = Liabilities + Equity = $72,000 + 98,000 = $170,000

Extra Critical Thinking Questions

Decision Case 2-2

Answer the following questions. Consider each question separately.

Requirements

1. Explain the advantages of double-entry bookkeeping instead of recording transactions in terms of the accounting equation to a friend who is opening a used book store.
2. When you deposit money in your bank account, the bank credits your account. Is the bank misusing the word *credit* in this context? Why does the bank use the term *credit* instead of *debit* to refer to your deposit?

Decision Case 2-2: Solution

Requirement 1

The advantage of double-entry bookkeeping it that it provides an arithmetic check on the accounting transactions; the total debits and total credits have to equal, and something is wrong if they don't. Double-entry bookkeeping can also handle a higher number of transactions than using the accounting equation.

Requirement 2

The bank uses the term *credit your account* when you deposit money because it is crediting a liability on its books. It owes you the funds that you just deposited.

Team Project 2-1

Contact a local business and arrange with the owner to learn what accounts the business uses.

Requirements

1. Obtain a copy of the business's chart of accounts.
2. Prepare the company's financial statements for the most recent month, quarter, or year. (You may omit the statement of cash flows.) You may use either made-up account balances or balances supplied by the owner.

If the business has a large number of accounts within a category, combine related accounts and report a single amount on the financial statements. For example, the company may have several Cash accounts. Combine all Cash amounts and report a single Cash amount on the balance sheet. You will probably encounter numerous accounts that you have not yet learned about. Deal with them as best you can. Keep in mind that the financial statements report the balances of the accounts listed in the company's chart of accounts, either by individual account or in summarized categories. Therefore, the financial statements must be consistent with the chart of accounts.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Team Project 2-1: Solution

Requirements 1 and 2

Student answers will vary widely, as the various groups use the charts of accounts of different businesses. The financial statements that the students prepare should be consistent with the business's chart of accounts.

Chapter 2

Recording Business Transactions

Directed Reading Guide

LO1. What is an account?

a) In your own words, what is an *account*?

i) Assets: List some examples of assets.

ii) Liabilities: List some examples of liabilities.

iii) Equity: List the four equity accounts.

b) In your own words, what is a *chart of accounts*?

c) In your own words, what is a *ledger*?

In MyAccountingLab, complete Try It! 2-1 and S2-1.

LO2. What is double-entry accounting?

a) Draw a T-account and label the debit and credit side.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

b) Fill in the expanded accounting equation with Debit (DR), Credit (CR), and Increase (Inc.) and Decrease (Dec.).

Assets = Liabilities + Equity

Assets	=	Liabilities	+	Owner, Captial	–	Owner, Withdrawals	+	Revenues	–	Expenses

c) Fill in the normal balance of the account

Account type	Normal Balance
Asset	*Debit*
Expenses	
Owner, Withdrawals	
Liabilities	
Revenues	
Owner, Capital	

d) Determining the balance in the following T-account

Cash	
25,000	1,000
2,000	3,000

In MyAccountingLab, complete Try It! 2-2 and S2-2, S2-3, and S2-4.

LO3. How do you record transactions?

a) In your own words, define the following terms:

a. Source documents

b. Journal

c. Posting

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

b) What are the steps for journalizing and posting?

In MyAccountingLab, complete Try It! 2-3 and S2-5.

LO4. What is the trial balance?

a) In your own words, what is a *trial balance*?

In MyAccountingLab, complete Try It! 2-4 and S2-8.

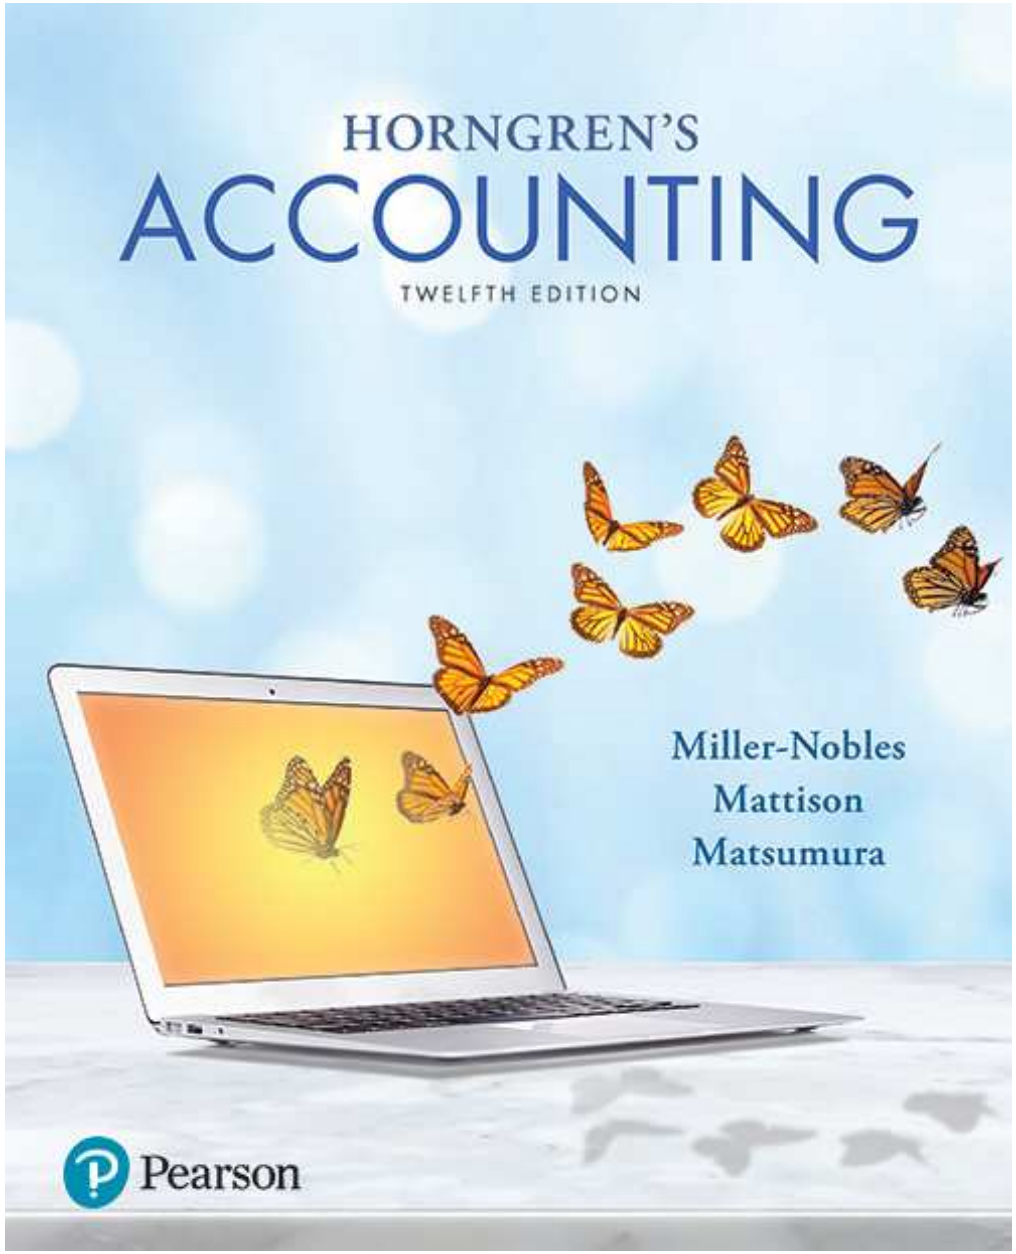

LO5. Use the debt ratio to evaluate business performance

a) Write the formula for the debt ratio.

b) What does the debt ratio show?

In MyAccountingLab, complete Try It! 2-5 and S2-9.

Chapter 2
Recording Business Transactions

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Chapter 2 Learning Objectives

1. Explain accounts as they relate to the accounting equation and describe common accounts
2. Define debits, credits, and normal account balances using double-entry accounting and T-accounts
3. Record transactions in a journal and post journal entries to the ledger

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Chapter 2 Learning Objectives

4. Prepare the trial balance and illustrate how to use the trial balance to prepare financial statements
5. Use the debt ratio to evaluate business performance

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Learning Objective 1

Explain accounts as they relate to the accounting equation and describe common accounts

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

WHAT IS AN ACCOUNT?

Assets = Liabilities + Equity

- The accounting equation contains three categories: assets, liabilities, and equity. Each part contains accounts.
- An account is a detailed record of all increases and decreases that have occurred in an asset, liability, or equity during a specified period.

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Assets

Exhibit 2-1 | **Asset Accounts**

Account Name	Explanation
Cash	A business's money. Includes bank balances, bills, coins, and checks.
Accounts Receivable	A customer's promise to pay in the future for services or goods sold. Often described as "On Account."
Notes Receivable	A *written* promise that a customer will pay a fixed amount of money and *interest* by a certain date in the future. Usually more formal than an Accounts Receivable.
Prepaid Expense	A payment of an expense in advance. It is considered an asset because the prepayment provides a benefit in the future. Examples of prepaid expenses are *Prepaid Rent*, *Prepaid Insurance*, and *Office Supplies*.
Land	The cost of land a business uses in operations.
Building	The cost of an office building, a store, or a warehouse.
Equipment, Furniture, and Fixtures	The cost of equipment, furniture, and fixtures (such as light fixtures and shelving). A business has a separate asset account for each type.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Liabilities

Exhibit 2-2 | **Liability Accounts**

Account Name	Explanation
Accounts Payable	A promise made by the business to pay a debt in the future. Arises from a credit purchase.
Notes Payable	A *written* promise made by the business to pay a debt, usually involving *interest,* in the future.
Accrued Liability	An amount owed but not paid. A specific type of payable such as *Taxes Payable*, *Rent Payable*, and *Salaries Payable.*
Unearned Revenue	Occurs when a company receives cash from a customer but has not provided the product or service. The promise to provide services or deliver goods in the future.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Equity

Exhibit 2-3 | **Equity Accounts**

Account Name	Explanation
Owner, Capital	Represents the net contributions of the owner in the business. Increases equity.
Owner, Withdrawals	Distributions of cash or other assets to the owner. Decreases equity.
Revenues	Earnings that result from delivering goods or services to customers. Increases equity. Examples include *Service Revenue* and *Rent Revenue.*
Expenses	The cost of selling goods or services. Decreases equity. Examples include *Rent Expense*, *Salaries Expense*, and *Utilities Expense.*

Chart of Accounts

Exhibit 2-4 | **Chart of Accounts—Smart Touch Learning**

Balance Sheet and Statement of Owner's Equity Accounts		
Assets	**Liabilities**	**Equity**
101 Cash	201 Accounts Payable	301 Owner, Capital
111 Accounts Receivable	211 Salaries Payable	311 Owner, Withdrawals
121 Notes Receivable	221 Interest Payable	
141 Office Supplies	231 Unearned Revenue	
151 Land	241 Notes Payable	
171 Building		
191 Furniture		
	Income Statement Accounts (Part of Equity)	
	Revenues	**Expenses**
	401 Service Revenue	501 Rent Expense
	411 Interest Revenue	511 Salaries Expense
		521 Utilities Expense
		531 Advertising Expense

A chart of accounts is used to organize a company's accounts.

A ledger is a record holding all the accounts of a business, the changes in those accounts, and their balances.

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Learning Objective 2

Define debits, credits, and normal account balances using double-entry accounting and T-accounts

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

WHAT IS DOUBLE-ENTRY ACCOUNTING?

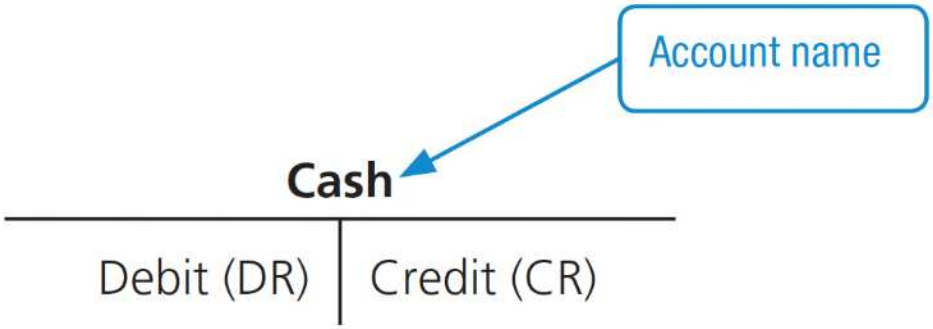

- Transactions always involve at least two accounts.
- Accounting uses the double-entry system to record the dual effects of each transaction.
  - For example, office supplies are purchased for cash, requiring an increase in Office Supplies and a decrease in Cash.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

The T-Account

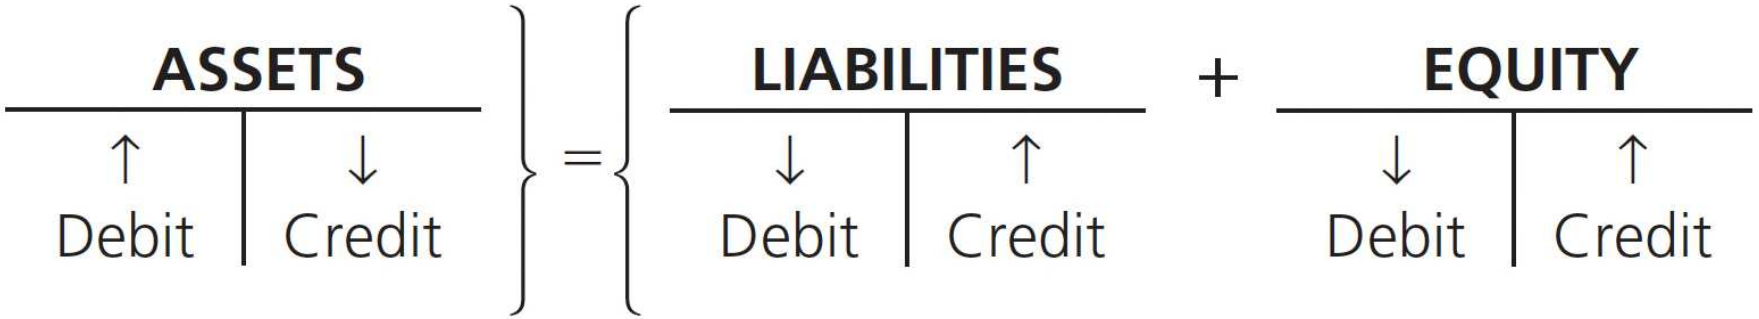

- A shortened form of the ledger is called the T-account.
  - The left side of the T-account is called the debit side.
  - The right side of the T-account is called the credit side.

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Increases and Decreases in the Accounts

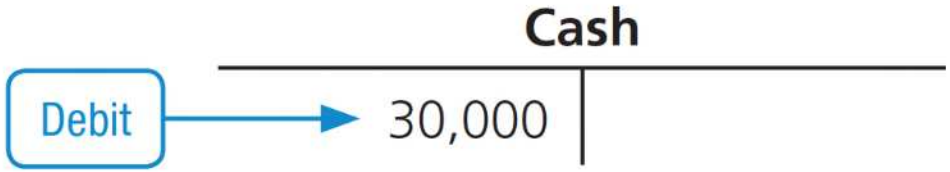

How we record increases and decreases to an account is determined by the account type.

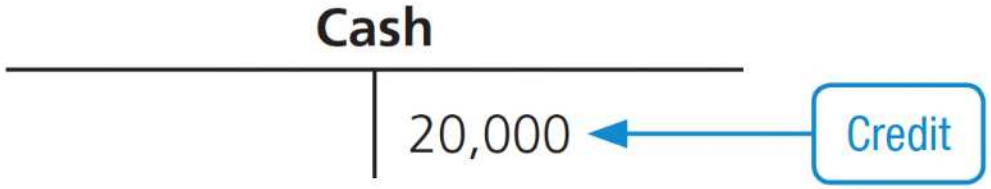

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Increases and Decreases in the Accounts

- To increase the Cash account, a business would record a debit to Cash.

- To decrease the Cash account, a business would record a credit to Cash.

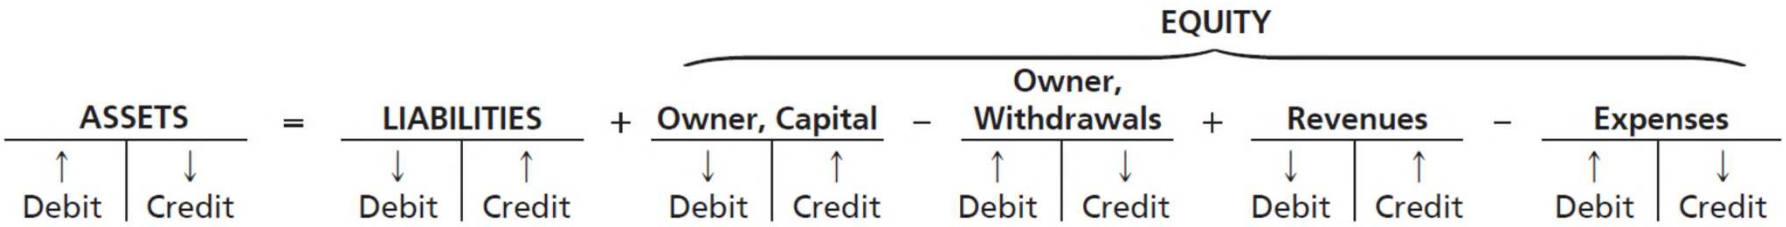

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Expanding the Rules of Debit and Credit

The accounting equation is expanded to include the rules of debits and credits for the elements of equity:

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

The Normal Balance of an Account

- All accounts are summarized on one side of the T-account, called the normal balance.
- An account's normal balance appears on the increase side of the account.
  - Assets increase with a debit, so the normal balance is a debit.
  - Liabilities and equity increase with a credit, so the normal balance is a credit.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

The Normal Balance of an Account

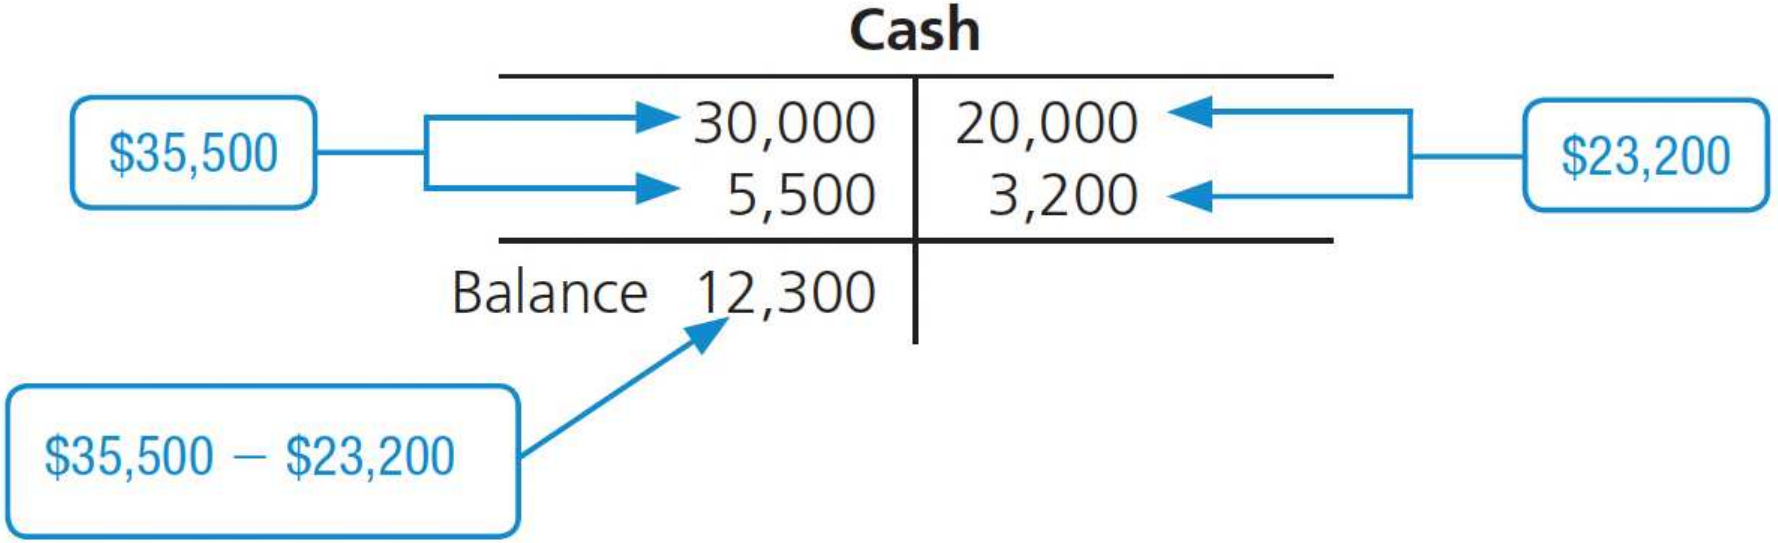

Exhibit 2-5 | **Rules of Debits and Credits and Normal Balances for Each Account Type**

Account Type	Increases	Decreases	Normal Balance
Assets	Debit	Credit	Debit
Expenses	Debit	Credit	Debit
Owner, Withdrawals	Debit	Credit	Debit
Liabilities	Credit	Debit	Credit
Revenues	Credit	Debit	Credit
Owner, Capital	Credit	Debit	Credit

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Determining the Balance of a T-Account

Use the T-account to determine the ending balance in an account. The ending balance is shown on the side with the larger number.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Learning Objective 3

Record transactions in a journal and post journal entries to the ledger

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

HOW DO YOU RECORD TRANSACTIONS?

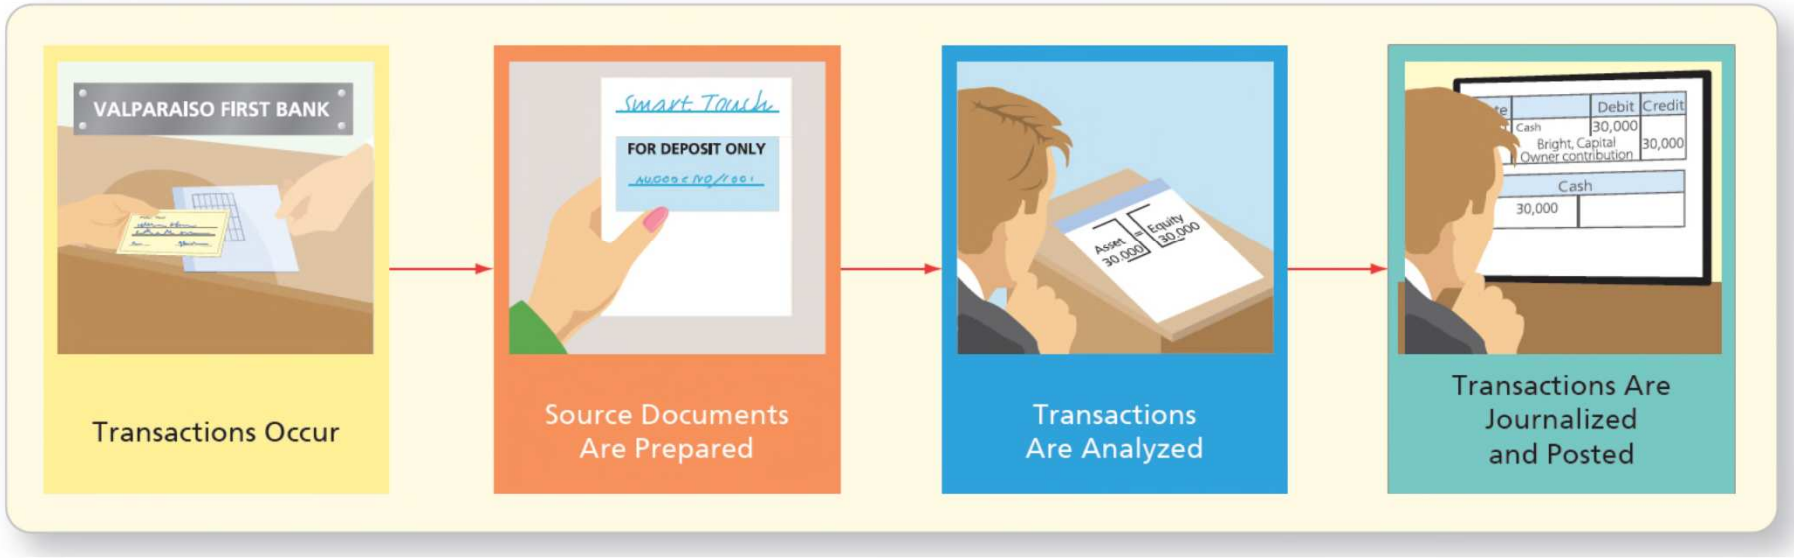

- Accountants use source documents to provide evidence and data for recording transactions.
- The documents help businesses determine how to record the transactions.

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Source Documents—The Origin of the Transactions

Exhibit 2-6 | **Flow of Accounting Data**

- Other source documents used include:
  - Purchase invoices
  - Bank checks
  - Sales invoices

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Journalizing and Posting Transactions

- After reviewing source documents, accountants record the transactions.
- Transactions are recorded in a journal, which is a record of the transactions in date order.
- The data from the journal is then transferred to the ledger, a process called posting.

Date		Debit	Credit
Nov.1	Cash	30,000	
	Bright, Capital		30,000
	Owner contribution.		

Transactions are recorded in a journal.

Cash	
30,000	

Bright, Capital	
	30,000

Data is posted (transferred) to the ledger.

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

Journalizing and Posting Transactions

The journalizing and posting process has five steps:

- **Step 1:** Identify the accounts and the account types (asset, liability, or equity).
- **Step 2:** Decide whether each account increases or decreases and then apply the rules of debits and credits.
- **Step 3:** Record the transaction in the journal.
- **Step 4:** Post the journal entry to the ledger.
- **Step 5:** Determine whether the accounting equation is in balance.

Learning Objective 4

Prepare the trial balance and illustrate how to use the trial balance to prepare financial statements

© 2018 Pearson Education, Inc.

Horngrens Accounting 12th edition Miller Nobles Solutions Manual

WHAT IS THE TRIAL BALANCE?

A trial balance is a list of all ledger accounts with their balances at a point in time.

The asset accounts are listed first, followed by liabilities, and then equity.

Exhibit 2-10 | **Trial Balance**

Correcting Trial Balance Errors

If total debits do not equal total credits:

1. Search the trial balance for a missing account.
2. Divide the difference between total debits and total credits by 2.
3. Divide the out-of-balance amount by 9 to find slide or transposition errors.

Note: Even if total debits equal total credits, there can still be errors, such as the use of the wrong accounts.

Learning Objective 5

Use the debt ratio to evaluate business performance

© 2018 Pearson Education, Inc.
Horngrens Accounting 12th edition Miller Nobles Solutions Manual

HOW DO YOU USE THE DEBT RATIO TO EVALUATE BUSINESS PERFORMANCE?

- The debt ratio shows the proportion of assets financed with debt.
- It can be used to evaluate a business's ability to pay its debts and to determine if the company has too much debt to be considered financially healthy.

Debt ratio = Total liabilities / Total assets
