Engineering Your Future - A Brief Introduction to Engineering 6th edition Oakes Test Bank

SKU: 9780190279332-TEST-BANK

CHAPTER TWO: ENGINEERING MAJORS

MULTIPLE CHOICE

1. Which of the following is *not* an engineering function?

    a. Consulting
    b. Teaching
    c. Development
    d. Electronic
    e. None of the above
    ANSWER: D

2. Which of the following is *not* an engineering branch?

    a. Electrical
    b. Mining
    c. Operations
    d. Chemical
    e. None of the above
    ANSWER: C

3. The "R" in "R and D" stands for:

    a. Research
    b. Robotics
    c. Resistance
    d. Relativity
    ANSWER: A

TRUE/FALSE

4. The engineering branch most closely affiliated with business principles is industrial engineering.

    ANSWER: True

5. Your Introduction to Engineering instructor's function within engineering is in ***consulting***.

    ANSWER: False

Engineering Your Future - A Brief Introduction to Engineering 6th edition Oakes Test Bank

6. Most engineering branches have some aspects which overlap into other engineering branches.

ANSWER: True

7. An engineer involved in refrigeration, heating and air conditioning would most likely be a mechanical engineer.

ANSWER: True

8. At most 4-year universities, the computer science department is located within the college of engineering.

ANSWER: True

9. A marine engineer is focused mainly on boat and ship design.

ANSWER: True

10. Operations research is a subset of nuclear engineering.

ANSWER: False

Reference: List 2:

Write the number from the list of engineering branches or sub-branches for the **most** appropriate description. Note that all of the choices will **not** be used.

a. Aerospace engineering
b. Agricultural engineering
c. Architect
d. Biomedical engineering
e. Ceramic engineering

Engineering Your Future - A Brief Introduction to Engineering 6th edition Oakes Test Bank

f. Chemical engineering
g. Civil engineering
h. Computer engineering
i. Computer science
j. Construction engineering
k. Electrical engineering
l. Environmental engineering
m. Geotechnical engineering
n. Industrial engineering
o. Manufacturing engineering
p. Materials engineering
q. Mechanical engineering
r. Mining engineering
s. Nuclear engineering
t. Petroleum engineering
u. Structural engineering

11. Deals with design of hardware, as opposed to software
ANSWER: H
Refer to: List 2

12. Develops Kevlar, Mylar, Nylon, Rayon, Fibreglas, other plastics, and high-strength steel
ANSWER: P
Refer to: List 2

13. Involved in the process of finding new sites from which coal and nickel can be extracted
ANSWER: R
Refer to: List 2

14. Involved in cleaning up toxic wastes, and rehabilitating abandoned gas-station tanks.
ANSWER: L
Refer to: List 2

15. Exploration, production and transportation of natural gas
ANSWER: T
Refer to: List 2

16. Common employers might include Boeing, Airbus, Rockwell, Lockheed-Martin, and NASA
ANSWER: A
Refer to: List 2

17. Designs process to determine radiation levels from spent fuel core rods
ANSWER: S
Refer to: List 2

18. Designs a process which accelerates the ripening of grapes used in the wine industry
ANSWER: B
Refer to: List 2

19. Involved in the design of artificial human joints, such as knees, elbows, and shoulders
ANSWER: D
Refer to: List 2

20. Involved in designing housing foundations, and retaining walls used on hillside homes.
ANSWER: M
Refer to: List 2

21. Develops a process whereby ethanol (ethyl alcohol) is added to gasoline
ANSWER: F
Refer to: List 2

22. Involved in writing code in languages including Pascal, C++, FORTRAN, Basic and Java
ANSWER: I
Refer to: List 2

23. Designed the central heating/cooling system used in the classroom where you are now sitting
ANSWER: Q
Refer to: List 2

24. Sub-disciplines include communications, power, and computers

ANSWER: K
Refer to: List 2

25. In most construction projects of buildings, the profession normally hired as project leader and/or coordinator.
ANSWER: C
Refer to: List 2

26. Creates new methods and tools for computer microchip assembly lines to perform their job easier, faster, and more efficiently.
ANSWER: O or N
Refer to: List 2

27. Designs a storm drain which will never get clogged with trees and leaves.
ANSWER: G
Refer to: List 2
