Chapter 01 - Community Health Care

1. Health care facilities provide all these services *except*:
   a. providing care for the sick and injured.
   b. promoting immunity from disease and illness.
   c. providing education for health care workers.
   d. promoting research in the sciences of medicine and nursing.

ANSWER: b

FEEDBACK:
   a. Incorrect. Promoting immunity from disease and illness. Health care facilities promote good health, a healthy lifestyle, physical care, and clean, comfortable, and secure environment. The facility does not promote immunity. See Overview of Health Care.
   b. Correct. Promoting immunity from disease and illness. Health care facilities promote good health, a healthy lifestyle, physical care, and clean, comfortable, and secure environment. The facility does not promote immunity. See Overview of Health Care.
   c. Incorrect. Promoting immunity from disease and illness. Health care facilities promote good health, a healthy lifestyle, physical care, and clean, comfortable, and secure environment. The facility does not promote immunity. See Overview of Health Care.
   d. Incorrect. Promoting immunity from disease and illness. Health care facilities promote good health, a healthy lifestyle, physical care, and clean, comfortable, and secure environment. The facility does not promote immunity. See Overview of Health Care.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False
LEARNING OBJECTIVES: DENT.SING.22.01.2 - Review dental disease and dentistry from the “beginning of time.”

2. Acute care facilities provide care to individuals known as:
   a. patients.
   b. residents.
   c. clients.
   d. patrons.

ANSWER: a

FEEDBACK:
   a. Correct. Patients. Acute care facilities care for patients of all ages with a variety of medical needs. See Needs of the Community.
   b. Incorrect. Patients. Acute care facilities care for patients of all ages with a variety of medical needs. See Needs of the Community.
   c. Incorrect. Patients. Acute care facilities care for patients of all ages with a variety of medical needs. See Needs of the Community.
   d. Incorrect. Patients. Acute care facilities care for patients of all ages with a variety of medical needs. See Needs of the Community.

Nursing Assistant A Nursing Process Approach 12th edition Acello Test Bank

Chapter 01 - Community Health Care

HAS VARIABLES: False
LEARNING OBJECTIVES: DENT.SING.22.01.1 - Pronounce and define the key terms from this chapter.
DATE CREATED: 12/10/2020 7:49 AM
DATE MODIFIED: 12/10/2020 7:57 AM

3. Long-term care facilities provide:
   a. trauma care to acutely ill individuals.
   b. obstetrical care to mothers and infants.
   c. care for individuals who are undergoing surgery.
   d. services to persons with stable conditions.

ANSWER: d
FEEDBACK:
   a. Incorrect. Services to persons with stable conditions. Long-term care facilities provide services for individuals who need monitoring, nursing care, and treatment. See Introduction
   b. Incorrect. Services to persons with stable conditions. Long-term care facilities provide services for individuals who need monitoring, nursing care, and treatment. See Introduction.
   c. Incorrect. Services to persons with stable conditions. Long-term care facilities provide services for individuals who need monitoring, nursing care, and treatment. See Introduction.
   d. Correct. Services to persons with stable conditions. Long-term care facilities provide services for individuals who need monitoring, nursing care, and treatment. See Introduction.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False
LEARNING OBJECTIVES: DENT.SING.22.01.4 - Name the individuals who had a great impact on the profession of dentistry.
DATE CREATED: 12/10/2020 8:00 AM
DATE MODIFIED: 12/10/2020 8:04 AM

4. Hospice supports:
   a. individuals who are having surgical procedures.
   b. clients who have no financial resources.
   c. terminally ill individuals and their families.
   d. individuals who require psychiatric care.

ANSWER: c
FEEDBACK:
   a. Incorrect. Terminally ill individuals and their families. Hospice care is designed for persons who are dying and to provide support to their families. See Needs of the Community.
   b. Incorrect. Terminally ill individuals and their families. Hospice care is designed for persons who are dying and to provide support to their families. See Needs of the Community.
   c. Correct. Terminally ill individuals and their families. Hospice care is designed for persons who are dying and to provide support to their families. See Needs of the Community.

Nursing Assistant A Nursing Process Approach 12th edition Acello Test Bank

d. Incorrect. Terminally ill individuals and their families. Hospice care is designed for persons who are dying and to provide support to their families. See Needs of the Community.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False
LEARNING OBJECTIVES: DENT.SING.22.01.2 - Review dental disease and dentistry from the “beginning of time.”
DATE CREATED: 12/10/2020 8:06 AM
DATE MODIFIED: 12/10/2020 8:13 AM

5. Long-term acute care hospitals:
   a. are comparable to long-term care nursing facilities.
   b. provide services to unstable, short-term patients.
   c. accept patients with a good chance for improvement.
   d. provide acute, complex care for terminally ill patients.

ANSWER: c
FEEDBACK:

a. Incorrect. Accept patients with a good chance for improvement. Long-term acute care hospitals are a rapidly growing segment of the health care market. The facility is licensed as a hospital but is designed for patients who are expected to stay 25 days or more. The patient must have a medically complex condition, need acute care services, and have a good chance of improvement. See Community Health Care Services.

b. Incorrect. Accept patients with a good chance for improvement. Long-term acute care hospitals are a rapidly growing segment of the health care market. The facility is licensed as a hospital but is designed for patients who are expected to stay 25 days or more. The patient must have a medically complex condition, need acute care services, and have a good chance of improvement. See Community Health Care Services.

c. Correct. Accept patients with a good chance for improvement. Long-term acute care hospitals are a rapidly growing segment of the health care market. The facility is licensed as a hospital but is designed for patients who are expected to stay 25 days or more. The patient must have a medically complex condition, need acute care services, and have a good chance of improvement. See Community Health Care Services.

d. Incorrect. Accept patients with a good chance for improvement. Long-term acute care hospitals are a rapidly growing segment of the health care market. The facility is licensed as a hospital but is designed for patients who are expected to stay 25 days or more. The patient must have a medically complex condition, need acute care services, and have a good chance of improvement. See Community Health Care Services.

Chapter 01 - Community Health Care

DATE MODIFIED: 12/10/2020 8:19 AM

6. Magnet hospitals:
   a. recognize outstanding physician services.
   b. recognize excellence in nursing care.
   c. comprise about 30 percent of all facilities.
   d. focus on negative outcomes of care.

ANSWER: b

FEEDBACK:
   a. Incorrect. Recognize excellence in nursing care. The Magnet Program for Excellence in Nursing Services is based on quality indicators and standards of nursing practice. See Accreditation.
   b. Correct. Recognize excellence in nursing care. The Magnet Program for Excellence in Nursing Services is based on quality indicators and standards of nursing practice. See Accreditation.
   c. Incorrect. Recognize excellence in nursing care. The Magnet Program for Excellence in Nursing Services is based on quality indicators and standards of nursing practice. See Accreditation.
   d. Incorrect. Recognize excellence in nursing care. The Magnet Program for Excellence in Nursing Services is based on quality indicators and standards of nursing practice. See Accreditation.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False

7. Health care is financed by all of these *except*:
   a. the Health Care Financing Association.
   b. private insurance plans.
   c. governmental programs.
   d. health maintenance organizations.

ANSWER: a

FEEDBACK:
   a. Correct. The Health Care Financing Association. Health care is paid for by insurance—HMOs; out-of-pocket payments; and U.S. government payments such as Medicare, Medicaid, Veterans Administration. See Financing Health Care.
   b. Incorrect. The Health Care Financing Association. Health care is paid for by insurance—HMOs; out-of-pocket payments; and U.S. government payments such as Medicare, Medicaid, Veterans Administration. See Financing Health Care.
   c. Incorrect. The Health Care Financing Association. Health care is paid for by insurance—HMOs; out-of-pocket payments; and U.S. government payments such as Medicare, Medicaid, Veterans Administration. See Financing Health Care.
   d. Incorrect. The Health Care Financing Association. Health care is paid for by

insurance—HMOs; out-of-pocket payments; and U.S. government payments such as Medicare, Medicaid, Veterans Administration. See Financing Health Care.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False
LEARNING OBJECTIVES: DENT.SING.22.01.6 - Explain what DDS and DMD stand for.
DATE CREATED: 12/10/2020 8:47 AM
DATE MODIFIED: 12/10/2020 8:52 AM

8. Cost containment:
   a. is not a priority for the health care worker.
   b. involves saving money from a paycheck.
   c. requires workers to use costly supplies.
   d. involves avoiding waste and minimizing expenses.

ANSWER: d
FEEDBACK:
   a. Incorrect. Involves avoiding waste and minimizing expenses. Cost containment is a priority, which means that the maximum benefit of health care must be achieved for every dollar spent. Each worker must do everything possible to avoid waste and keep costs down. See Financing Health Care.
   b. Incorrect. Involves avoiding waste and minimizing expenses. Cost containment is a priority, which means that the maximum benefit of health care must be achieved for every dollar spent. Each worker must do everything possible to avoid waste and keep costs down. See Financing Health Care.
   c. Incorrect. Involves avoiding waste and minimizing expenses. Cost containment is a priority, which means that the maximum benefit of health care must be achieved for every dollar spent. Each worker must do everything possible to avoid waste and keep costs down. See Financing Health Care.
   d. Correct. Involves avoiding waste and minimizing expenses. Cost containment is a priority, which means that the maximum benefit of health care must be achieved for every dollar spent. Each worker must do everything possible to avoid waste and keep costs down. See Financing Health Care.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False

9. An important concern in health care is:
   a. preserving life at all costs.
   b. withholding expensive care from the elderly.
   c. maintaining and enhancing quality of life.
   d. humanizing care only for young patients.

ANSWER: c
FEEDBACK:
   a. Incorrect. Maintaining and enhancing quality of life. Quality of life has become

Nursing Assistant A Nursing Process Approach 12th edition Acello Test Bank

an important concern in health care delivery. Some decisions are made with the patient's future quality of life in mind. See Overview of Health Care.

b. Incorrect. Maintaining and enhancing quality of life. Quality of life has become an important concern in health care delivery. Some decisions are made with the patient's future quality of life in mind. See Overview of Health Care.

c. Correct. Maintaining and enhancing quality of life. Quality of life has become an important concern in health care delivery. Some decisions are made with the patient's future quality of life in mind. See Overview of Health Care.

d. Incorrect. Maintaining and enhancing quality of life. Quality of life has become an important concern in health care delivery. Some decisions are made with the patient's future quality of life in mind. See Overview of Health Care.

10. Medicare payment to the acute care facility is based on:
    a. the actual cost of providing care.
    b. diagnosis related groups.
    c. a rate equivalent to private insurance.
    d. a uniform procedural payment scale.

ANSWER: b
FEEDBACK:

a. Incorrect. Diagnosis related groups. Medicare payment is based on diagnosis related groups (DRGs). The actual cost of care is not considered. Rather, payment is based on studies that were done to determine the average length of stay required for various medical diagnoses, procedures, and treatments. See Financing Health Care.

b. Correct. Diagnosis related groups. Medicare payment is based on diagnosis related groups (DRGs). The actual cost of care is not considered. Rather, payment is based on studies that were done to determine the average length of stay required for various medical diagnoses, procedures, and treatments. See Financing Health Care.

c. Incorrect. Diagnosis related groups. Medicare payment is based on diagnosis related groups (DRGs). The actual cost of care is not considered. Rather, payment is based on studies that were done to determine the average length of stay required for various medical diagnoses, procedures, and treatments. See Financing Health Care.

d. Incorrect. Diagnosis related groups. Medicare payment is based on diagnosis related groups (DRGs). The actual cost of care is not considered. Rather, payment is based on studies that were done to determine the average length of stay required for various medical diagnoses, procedures, and treatments. See Financing Health Care.

15. A staff member who has received training to perform more than one kind of work is considered:

a. patient focused.
b. multiskilled.
c. transitional.
d. accredited.

ANSWER: b
FEEDBACK:

a. Incorrect. Multiskilled. Staff members may become multiskilled workers by cross-training to perform additional skills. Multiskilled workers can perform many functions, enabling them to do more than one kind of work. See Overview of Health Care.

b. Correct. Multiskilled. Staff members may become multiskilled workers by cross-training to perform additional skills. Multiskilled workers can perform many functions, enabling them to do more than one kind of work. See Overview of Health Care.

c. Incorrect. Multiskilled. Staff members may become multiskilled workers by cross-training to perform additional skills. Multiskilled workers can perform many functions, enabling them to do more than one kind of work. See Overview of Health Care.

d. Incorrect. Multiskilled. Staff members may become multiskilled workers by cross-training to perform additional skills. Multiskilled workers can perform many functions, enabling them to do more than one kind of work. See Overview of Health Care.

POINTS: 1

16. Which is an advantage of cross-training a nursing assistant?

Copyright Cengage Learning. Powered by Cognero.

Nursing Assistant A Nursing Process Approach 12th edition Acello Test Bank

a. Cross-trained nursing assistants can perform all health care skills.
b. Cross-trained nursing assistants can only perform specific tasks.
c. Cross-trained nursing assistants help reduce patient waiting time.
d. Cross-trained nursing assistants can make decisions for patients.

ANSWER: c

FEEDBACK:

a. Incorrect. Cross-trained nursing assistants help reduce patient waiting time. A nursing assistant may be cross-trained to draw blood and/or obtain electrocardiograms. This type of cross-training avoids the need to transfer the patient to another department for care and reduces the waiting time for necessary tests and other services. See Overview of Health Care.
b. Incorrect. Cross-trained nursing assistants help reduce patient waiting time. A nursing assistant may be cross-trained to draw blood and/or obtain electrocardiograms. This type of cross-training avoids the need to transfer the patient to another department for care and reduces the waiting time for necessary tests and other services. See Overview of Health Care.
c. Correct. Cross-trained nursing assistants help reduce patient waiting time. A nursing assistant may be cross-trained to draw blood and/or obtain electrocardiograms. This type of cross-training avoids the need to transfer the patient to another department for care and reduces the waiting time for necessary tests and other services. See Overview of Health Care.
d. Incorrect. Cross-trained nursing assistants help reduce patient waiting time. A nursing assistant may be cross-trained to draw blood and/or obtain electrocardiograms. This type of cross-training avoids the need to transfer the patient to another department for care and reduces the waiting time for necessary tests and other services. See Overview of Health Care.

POINTS: 1
QUESTION TYPE: Multiple Choice
HAS VARIABLES: False
LEARNING OBJECTIVES: DENT.SING.22.01.5 - Identify the people who promoted education and organized dentistry.
DATE CREATED: 12/10/2020 9:43 PM
DATE MODIFIED: 12/10/2020 9:47 PM

17. Why is employment of nursing assistants in the United States expected to grow rapidly?
a. Because the overall U.S. population is increasing.
b. Because the elderly population is increasing.
c. Because more people are expected to immigrate to the United States.
d. Because of rapid advances in health care technologies.

ANSWER: b

FEEDBACK:

a. Incorrect. Because the elderly population is increasing. People are living longer. People who are aging need more services. The demand for nursing assistants is high and is expected to continue growing rapidly because of a large increase in the elderly population. This is much faster than the average for all occupations. See Overview of Health Care.
b. Correct. Because the elderly population is increasing. People are living longer. People who are aging need more services. The demand for nursing assistants is high and is expected to continue growing rapidly because of a large increase in the elderly population. This is much faster than the average for all occupations. See Overview of Health Care.

23. What is the purpose of respite care?
    a. To care for individuals with developmental disabilities
    b. To assist with activities of daily living
    c. To offer rehabilitative care following surgery
    d. To allow a caregiver time off

ANSWER: d
FEEDBACK:
    a. Incorrect. To allow a caregiver time off. Caring for individuals who are sick and injured can be draining, especially if it is a family member providing the care. Respite allows this and maintains safety of the individual needing care. See Community Health Care Services.
    b. Incorrect. To allow a caregiver time off. Caring for individuals who are sick and injured can be draining, especially if it is a family member providing the care. Respite allows this and maintains safety of the individual needing care. See Community Health Care Services.
    c. Incorrect. To allow a caregiver time off. Caring for individuals who are sick and injured can be draining, especially if it is a family member providing the care. Respite allows this and maintains safety of the individual needing care. See Community Health Care Services.
    d. Correct. To allow a caregiver time off. Caring for individuals who are sick and injured can be draining, especially if it is a family member providing the care. Respite allows this and maintains safety of the individual needing care. See Community Health Care Services.
