# *Discovering Computers 17th edition Campbell Test Bank*

SKU: 9780357675366-TEST-BANK

Name:_____ Class:_____ Date:_____

**Module 01 EOM Questions**

1. Which two of the following are examples of online social networks?
   a. Wordle
   b. Google Plus
   c. PayPal
   d. Instagram

*ANSWER:* b, d

2. Wi-Fi networks require a physical connection.
   a. True
   b. False

*ANSWER:* False

3. Aku is checking her smartphone while having dinner with others, which is an example of digital ____.
   a. distraction
   b. obstruction
   c. literacy
   d. disturbance

*ANSWER:* a

4. Which three of the following are part of the definition of a computer?
   a. an electronic device
   b. operates under the control of instructions stored in its own memory
   c. can accept data, process data to produce information, and store information for future use
   d. connects multiple devices together to share information

*ANSWER:* a, b, c

5. In the 1960s, computers engineers developed silicon chips that placed the equivalent of thousands of vacuum tubes or transistors into a/n _____.
   a. microprocessor
   b. personal computer
   c. integrated circuit
   d. embedded computer

*ANSWER:* c

6. Sala recently got a new ATM card in the mail from her bank. Instead of a magnetic stripe, it uses _____ technology to improve card security.
   a. wireless
   b. chip-and-pin
   c. touch point
   d. IoT

*ANSWER:* b

7. People who aggregate data in order to sell it to third parties are called data _____.
   a. brokers

Discovering Computers 17th edition Campbell Test Bank

**Module 01 EOM Questions**

b. mediators
c. agents
d. dealers

*ANSWER:* a

8. Which of the following are recommended strategies for keeping your data safe?
a. Do not carry your Social Security number in your wallet.
b. Websites that require extra personal information beyond a username and password are more secure.
c. Follow up on calls regarding purchases you did not make.
d. Scan paper documents to create a PDF to which you can apply a password.

*ANSWER:* a, c, d

9. LMS stands for _____ management system.

a. library
b. logic
c. learning
d. legal

*ANSWER:* c

10. M2M refers to communications between machines, equipment, and devices to perform tasks.
a. True
b. False

*ANSWER:* True

11. Disabling privacy settings on your personal social media accounts is recommended to let potential employers see your interests and activities.
a. True
b. False

*ANSWER:* False

12. You can use social networking sites such as _____ which are designed to provide business and employment-oriented services.
a. LinkedIn
b. Pinterest
c. Jobzilla
d. Network+

*ANSWER:* a

13. Which of the following best defines streaming?
a. It is a way of receiving audio and video content on your device as it is being downloaded from the web.
b. It involves wireless communication between two smart devices.
c. It is used to capture and upload content to the web.
d. It can be used to monitor heart rate, measure pulse, and count steps, and transmit that data to an mHealth app.

*ANSWER:* a

**Module 01 EOM Questions**

14. A game console is more portable than a handheld game device.
    a. True
    b. False

*ANSWER:* False

15. All of the following terms mean the same thing, except _____.
    a. software
    b. program
    c. instruction
    d. app

*ANSWER:* c

16. The ENERGY STAR program was developed to help reduce the amount of electricity used by computers and related devices.
    a. True
    b. False

*ANSWER:* True

17. A Missouri law defines _____ as occurring through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device.
    a. cyberbullying
    b. webharassment
    c. netimidation
    d. digidomination

*ANSWER:* a

18. Using the air from inside a facility to cool a data center is a recommended green computing strategy.
    a. True
    b. False

*ANSWER:* False

19. Which of the following best describes alt text?
    a. tools that can translate text into multiple languages
    b. scrolling text for dialogue in a video
    c. technology that uses audio output to describe screen contents
    d. descriptive text added to an object

*ANSWER:* d

20. Which of the following best describes the requirements of the ADA?
    a. Companies with 15 or more employees must make reasonable accommodations for the needs of physically challenged workers.
    b. Public schools must purchase or acquire funding for adaptive technologies.
    c. Websites must follow practices that accommodate users with physical challenges, including enabling screen reader technology and captioning.

**Module 01 Test Bank Questions**

1. Which of the following best defines the term network?
   a. Two or more computers connected together to share resources.
   b. A powerful, high-capacity computer you access using the Internet.
   c. A global collection of millions of computers linked together to share information.
   d. A group of collaborative tools used to create apps.

*ANSWER:* a
*POINTS:* 1
*REFERENCES:* 1-2
*QUESTION TYPE:* Multiple Choice
*HAS VARIABLES:* False
*LEARNING OBJECTIVES:* DISC.CAMP.23.1.1 - Define digital literacy
*TOPICS:* How Technology Impacts You
*KEYWORDS:* Bloom's: Understand
*DATE CREATED:* 9/21/2022 2:24 PM
*DATE MODIFIED:* 9/21/2022 2:24 PM

2. Digital distraction is the practice of using and relying on technology so much that you do not pay enough attention to normal, everyday activities.
   a. True
   b. False

*ANSWER:* True
*POINTS:* 1
*REFERENCES:* 1-3
*QUESTION TYPE:* True / False
*HAS VARIABLES:* False
*LEARNING OBJECTIVES:* DISC.CAMP.23.1.1 - Define digital literacy
*TOPICS:* How Technology Impacts You
*KEYWORDS:* Bloom's: Remember
