Leifer's Introduction to Maternity and Pediatric Nursing 10th edition Cooper Test Bank

SKU: 9780443261398-TEST-BANK

Test Bank - Chapter 01

Q: A patient chooses to have the certified nurse-midwife (CNM) provide care during her pregnancy. What does the CNM's scope of practice include?

A. Practice independent from medical supervision
B. Comprehensive prenatal care (Correct)
C. Attendance at all deliveries
D. Cesarean sections

Q: Which medical pioneer discovered the relationship between the incidence of puerperal fever and unwashed hands?

A. Karl Crede■
B. Ignaz Semmelweis (Correct)
C. Louis Pasteur
D. Joseph Lister

Q: A pregnant woman who has recently immigrated to the United States comments to the nurse, "I am afraid of childbirth. It is so dangerous. I am afraid I will die." What is the best nursing response reflecting cultural sensitivity?

A. "Maternal mortality in the United States is extremely low."
B. "Anesthesia is available to relieve pain during labor and childbirth."
C. "Tell me why you are afraid of childbirth." (Correct)
D. "Your condition will be monitored during labor and delivery."

Q: An urban area has been reported to have a high perinatal mortality rate. What information does this provide?

A. Maternal and infant deaths per 100,000 live births per year
B. Deaths of fetuses weighing more than 500 g per 10,000 births per year
C. Deaths of infants up to 1 year of age per 1000 live births per year
D. Fetal and neonatal deaths per 1000 live births per year (Correct)

Q: What is the focus of current maternity practice?

A. Hospital births for the majority of women
B. The traditional family unit
C. Separation of labor rooms from delivery rooms
D. A quality family experience for each patient (Correct)

Q: Who advocated the establishment of the Children's Bureau?

A. Lillian Wald (Correct)
B. Florence Nightingale
C. Florence Kelly
D. Clara Barton

Q: What was the result of research done in the 1930s by the Children's Bureau?

A. Children with heart problems are now cared for by pediatric cardiologists.

B. The Child Abuse and Prevention Act was passed.
C. Hot lunch programs were established in many schools. (Correct)
D. Children's asylums were founded.

Q: What government program was implemented to increase the educational exposure of preschool children?

A. WIC
B. Title XIX of Medicaid
C. The Children's Charter
D. Head Start (Correct)

Q: What guidelines define multidisciplinary patient care in terms of expected outcome and timeframe from different areas of care provision?

A. Clinical pathways (Correct)
B. Nursing outcome criteria
C. Standards of care
D. Nursing care plan

Q: A nursing student has reviewed a hospitalized pediatric patient chart, interviewed her mother, and collected admission data. What is the next step the student will take to develop a nursing care plan for this child?

A. Identify measurable outcomes with a timeline.
B. Choose specific nursing interventions for the child.
C. Determine appropriate nursing diagnoses. (Correct)
D. State nursing actions related to the child's medical diagnosis.

Q: A nursing student on an obstetric rotation questions the floor nurse about the definition of the LVN/LPN scope of practice. What resource can the nurse suggest to the student?

A. American Nurses Association
B. State's Board of Nursing (Correct)
C. Joint Commission
D. Association of Women's Health, Obstetric and Neonatal Nurses

Q: What was recommended by Karl Crede■ in 1884?

A. All women should be delivered in a hospital setting.
B. Chemical means should be used to combat infection.
C. Podalic version should be done on all fetuses.
D. Silver nitrate should be placed in the eyes of newborns. (Correct)

Q: What is the purpose of the White House Conference on Children and Youth?

A. Set criteria for normal growth patterns.
B. Examine the number of live births in minority populations.
C. Raise money to support well-child clinics in rural areas.
D. Promote comprehensive child welfare. (Correct)

Q: How many hours of hospital stay does legislation currently allow for a postpartum patient who has delivered vaginally without complications?

A. 24
B. 48 (Correct)
C. 36
D. 72

Q: How does the clinical pathway or critical pathway improve quality of care?

A. Lists diagnosis-specific implementations
B. Outlines expected progress with stated timelines (Correct)
C. Prioritizes effective nursing diagnoses
D. Describes common complications

Q: A patient asks the nurse to explain what is meant by “gene therapy.” What is the nurse’s best response?

A. Gene therapy can replace missing genes. (Correct)
B. Gene therapy evaluates the parent’s genes.
C. Gene therapy can change the sex of the fetus.
D. Gene therapy supports the regeneration of defective genes.

Q: The nurse is clarifying information to a patient regarding diagnosis-related groups (DRGs). What is the nurse’s best response when the patient asks how DRGs reduce medical care costs?

A. By determining payment based on diagnosis (Correct)
B. By requiring two medical opinions to confirm a diagnosis
C. By organizing HMOs
D. By defining a person who will require hospitalization

Q: How does electronic documentation ensure comprehensive charting more effectively than handwritten charting?

A. Provides a uniform style of chart.
B. Requires certain responses before allowing the user to progress. (Correct)
C. All documentation is reflective of the nursing care plan.
D. Requires a daily audit by the charge nurse.

Q: The nurse reminds family members that the philosophy of family-centered care is to provide control to the family over health care decisions. What is the appropriate term for this type of control?

A. Empowerment (Correct)
B. Insight
C. Regulation
D. Organization

Q: A patient in the prenatal clinic is concerned about losing her job because of her pregnancy. The nurse instructs her that the Family Medical Leave Act (FMLA) allows an employee to be absent from work without pay. How many weeks does the FMLA allow a woman to recover from childbirth or care for a sick family member without loss of benefits or pay status?

A. 4
B. 6
C. 10

D. 12 (Correct)

Q: What term appropriately describes the nurse who is able to adapt health care practices to meet the needs of various cultures?

A. Culturally aware
B. Culturally sensitive
C. Culturally competent (Correct)
D. Culturally adaptive

Q: What is one major advantage to the application of critical thinking?

A. Problem-free care
B. Limitation of approaches to care
C. Decreased need for assessment
D. Problem prevention (Correct)

Q: What services are birthing centers able to provide? (*Select all that apply.*)
(Select all that apply.)

A. Prenatal care (Correct)
B. Labor and delivery services (Correct)
C. Classes for new mothers (Correct)
D. Adoption referrals
E. Family planning (Correct)

Q: What developments in the early 20th century encouraged women to seek hospitalization for childbirth? (*Select all that apply.*)
(Select all that apply.)

A. Use of specialized obstetric instruments (Correct)
B. Use of anesthesia (Correct)
C. Physicians' closer relationships with hospitals (Correct)
D. Focus on family-centered care
E. Insurance coverage

Q: What non–family-centered policies were prevalent in the 1960s? (*Select all that apply.*)
(Select all that apply.)

A. Waiting room for fathers (Correct)
B. Sedation of mother during labor (Correct)
C. Delay of reunion of mother and infant (Correct)
D. Lenient visiting hours
E. Restrictions of visitations by minor children (Correct)

Q: The nurse is aware that there is a legal responsibility to report certain diseases and conditions to county or state health authorities. Which would be included? (*Select all that apply.*)
(Select all that apply.)

A. Tuberculosis (Correct)
B. Child abuse (Correct)
C. Industrial accidents
D. Sexually transmitted diseases (Correct)

E. Foodborne infections (Correct)

Q: Practical nursing students are using critical thinking skills to study for an upcoming test. What will these students include when studying? (*Select all that apply.*)
(Select all that apply.)

A. Memorization of facts first
B. Prioritizing information (Correct)
C. Relating facts to other facts (Correct)
D. Making assumptions
E. Reviewing before the test (Correct)

Q: What factors have played a role in meeting the goals of *Healthy People 2030* as it relates the goals for outcomes of pregnancy? (*Select all that apply.*)
(Select all that apply.)

A. Early prenatal care (Correct)
B. Increased number of surgical births
C. NICU care (Correct)
D. Use of prenatal glucocorticoids (Correct)
E. Fetal surgery (Correct)

Q: A community health nurse is providing specialized care to patients in the home setting. What kind of specialized care may this nurse be providing? (*Select all that apply.*)
(Select all that apply.)

A. Glucose monitoring (Correct)
B. Heparin therapy (Correct)
C. Family education
D. Total parenteral nutrition (Correct)
E. Provision of referral services

Review Questions - Chapter 01

Q: The experienced nurse is instructing the new nurse about communications concerning the patient. The nurse suggests using an SBAR method and lists the four elements included in the technique. Which four elements should be included in the instruction?

A. Shift-end report, background, assessment, and reassessment
B. Situation, background, assessment, and recommendation (Correct)
C. Shift-end report, background, assessment, and recommendation
D. Situation, background, actual nursing diagnoses, and remedy

Q: A group of women are discussing childbirth experiences. Which statement would most likely indicate that the woman gave birth in the 1950s?

A. “My husband stayed with me throughout labor and birth.”
B. “The suite allowed me to deliver and recover in the same room.”
C. “I was discharged from the hospital 1 week following delivery.” (Correct)
D. “The birthing center rooms were decorated in a homelike fashion.”

Q: The nurse admitting a 3-year-old patient with the medical diagnosis of pneumonia identifies congestion and inspiratory wheezes in both lungs. This information is considered part of which step of the nursing process?

A. Diagnosis
B. Evaluation
C. Assessment (Correct)
D. Implementation

Q: Which government department is responsible for overseeing the administration of the WIC program?

A. Social Security Administration
B. Department of Health and Human Services
C. Department of Public Health (Correct)
D. Children’s Bureau

Q: Which is a diagnosis that the nurse is legally responsible to report?

A. Bronchiolitis
B. Sexually transmitted infections (Correct)
C. Acute otitis media
D. Strep throat

Q: What is true of family-centered care? (*Select all that apply.*)
(Select all that apply.)

A. The nurse’s role is to enter into a partnership with the family. (Correct)
B. The health care professionals are the primary decision makers.
C. The family’s involvement during pregnancy and birth is seen as constructive necessary for bonding and support. (Correct)
D. Families contribute their ability to accept and maintain control over the health care of family members. (Correct)

E. Families will benefit from decreasing fragmentation of care by not changing rooms during the hospital stay. (Correct)

Q: Which individuals played a role in decreasing infections for patients, increasing mortality to what it is today? (*Select all that apply*.)
(Select all that apply.)

A. Crede■ (Correct)
B. Saint Vincent de Paul
C. Lister (Correct)
D. Pasteur (Correct)
E. Semmelweis (Correct)
