Exempt vs. Nonexempt

1. Exempt workers are exempt from the overtime provisions of FLSA. Exempt workers tend to be employees in a company's managerial or other leadership functions, in which they may need to work more than 40 hours per week to complete their tasks. Exempt workers usually receive a fixed salary per period that is not based on the number of hours worked.

3. Commission workers are typically tied to sales completed by the individual; piece-rate pay is determined by the number of pieces the employee completes during a shift or period.

4. Student answers may vary but should include: Minimum hourly rate is set by the U.S. Federal government. The president of the company wants to know the difference between biweekly and semimonthly pay cycles as far as pay dates and pay amounts. What should Derek tell him?

a. Moving between biweekly (26 pay periods per year with the possibility of 27) to a semimonthly system (24 pay periods per year) would cause individual to see increases per pay period since there are more days being covered on the pay period under semimonthly than on biweekly. This could also result in higher taxes per pay period.

CRITICAL THINKING

2-1. When Omnimia Graphics was looking to implement a payroll accounting system, the manufacturing firm had several options. With only 40 employees, the manual preparation of payroll through spreadsheets and handwritten timecards was a comfortable option for the firm. Another option is to convince the senior management of Omnimia Graphics to implement a software program for payroll processing. How should the company handle maintenance of the current payroll records? What internal control issues should be addressed?

a. Student responses will vary. Key points that need to be included: confidentiality of records, retention period, separation of duties, verification of payroll.

2-2. You have been hired as a consultant for Semiva Productions, a company facing an IRS audit of their accounting records. During your review, you notice anomalies in the payroll system involving overpayments of labor and payments to terminated employees. What would you do?

a. When the anomalies are discovered, the management of the company should be made aware of the situation. Since the IRS audit is imminent, documenting the date of the find and attempts to rectify the error would be advisable. Depending upon the nature of the anomalies, the company or payroll employees may have made some serious errors.

2022

Step 1: Enter Personal Information

(a) First name and middle initial	Last name	(b) Social security number
Student	Success	555-55-5555

Address: 1644 Smitten Road

City or town, state, and ZIP code: Woodstock, VT 05001

▶ **Does your name match the name on your social security card?** If not, to ensure you get credit for your earnings, contact SSA at 800-772-1213 or go to *www.ssa.gov*.

(c) ☑ **Single** or **Married filing separately**
☐ **Married filing jointly** or **Qualifying widow(er)**
☐ **Head of household** (Check only if you're unmarried and pay more than half the costs of keeping up a home for yourself and a qualifying individual.)

Complete Steps 2–4 ONLY if they apply to you; otherwise, skip to Step 5. See page 2 for more information on each step, who can claim exemption from withholding, when to use the estimator at *www.irs.gov/W4App*, and privacy.

Step 2: Multiple Jobs or Spouse Works

Complete this step if you (1) hold more than one job at a time, or (2) are married filing jointly and your spouse also works. The correct amount of withholding depends on income earned from all of these jobs.

Do **only one** of the following.

(a) Use the estimator at *www.irs.gov/W4App* for most accurate withholding for this step (and Steps 3–4); **or**

(b) Use the Multiple Jobs Worksheet on page 3 and enter the result in Step 4(c) below for roughly accurate withholding; **or**

(c) If there are only two jobs total, you may check this box. Do the same on Form W-4 for the other job. This option is accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld . . ▶ ☐

TIP: To be accurate, submit a 2022 Form W-4 for all other jobs. If you (or your spouse) have self-employment income, including as an independent contractor, use the estimator.

Complete Steps 3–4(b) on Form W-4 for only ONE of these jobs. Leave those steps blank for the other jobs. (Your withholding will be most accurate if you complete Steps 3–4(b) on the Form W-4 for the highest paying job.)

Step 3: Claim Dependents

If your total income will be $200,000 or less ($400,000 or less if married filing jointly):

Multiply the number of qualifying children under age 17 by $2,000 ▶ $

Multiply the number of other dependents by $500 . . . . ▶ $

Add the amounts above and enter the total here . . . . . **3** $

Step 4 (optional): Other Adjustments

(a) Other income (not from jobs). If you want tax withheld for other income you expect this year that won't have withholding, enter the amount of other income here. This may include interest, dividends, and retirement income . . . . . **4(a)** $

(b) Deductions. If you expect to claim deductions other than the standard deduction and want to reduce your withholding, use the Deductions Worksheet on page 3 and enter the result here . . . . . **4(b)** $

(c) Extra withholding. Enter any additional tax you want withheld each **pay period** . . **4(c)** $

Chapter 2: Payroll System Procedures

Instructor Notes
This chapter presents procedures for preparation of payroll, treatment and requirement for new hires, employee files, and internal controls procedures. New hire reporting requirements are discussed along with document destruction and retention periods. The student will gain an understanding of the different forms for new hires, pay period frequencies, and the different pay methods that can be employed by a business. Some questions to stimulate discussion on this chapter would include: • How many different forms are required for newly hired employees? • What pay frequencies are they familiar with? • How should an employer pay their employees (direct deposit, check, paycards)? • Why are internal controls and review necessary for payroll processes?

Critical Thinking Answers

2-1. Key points that need to be included: ease of update for changes in tax laws, tax tables, and payroll regulations; ease of reporting; whether the employee self-service option would be eligible; confidentiality.

2-2. When the abnormalities are discovered, the management of the company should be made aware of the situation. Since the IRS audit is imminent, documenting the date of the find and attempts to rectify the error would be advisable. Depending upon the nature of the anomalies, the company or payroll employees may have made some serious errors.

In the Real World—Guidelines for Discussion

Some questions that students should consider include Ms. Ledbetter's original access to confidential paperwork and the firm's internal controls.

- Should she have been able to gain access to such confidential records?
- What if the records had already been destroyed since the original statute of limitations had been exceeded?
- What are implications for employers' document retention policies in the aftermath of this case?
- Should the employer have followed up on discrimination charges when they were originally raised?
- Once a case of pay discrimination has been investigated, what should the employer do (if anything) about the other employees' pay?
- Should all employees receive the same raise to avoid charges of discrimination?
- Should records be retained longer than the current guidelines to avoid challenges like Ms. Ledbetter's case? If so, how long?

Assign students to work individually or in small groups to explore the following websites:

Using a search engine find examples of what would be included in "New hire packet" for at least three different companies, preferable in different industries.

Go to www.irs.gov and search for IRS e-file security. List the facts the IRS shows for why e-file is a secure service.

What did the students find for payroll support?
What internal controls are mentioned?
Is there a payroll destruction company in their area?

Other classroom activities:

- Determine what new hire information should be shared between payroll and human resources.
- Should these two departments be used (in larger or midsized companies) to facilitate payroll internal controls and cross-verification?
- Using internet search engines, compare the options for a small business to outsource their payroll requirements.
- Split class into teams, some are managers, payroll accountants, outsourcing agencies, or external regulators. Determine the needs and if those needs are met by the payroll department.

Continuing Payroll Project

The continuing project starts with the development of timecards and the payroll records for the company. Following this activity, the students should have their payroll files ready for the first actual payroll with annotated information on each employee's key facts.

▶ Your withholding is subject to review by the IRS.

OMB No. 1545-0074

2022

Step 1: Enter Personal Information

(a) First name and middle initial	Last name	(b) Social security number
Student	Success	555-55-5555

Address: 1644 Smitten Road

City or town, state, and ZIP code: Woodstock, VT 05001

▶ **Does your name match the name on your social security card?** If not, to ensure you get credit for your earnings, contact SSA at 800-772-1213 or go to www.ssa.gov.

(c) ☑ **Single** or **Married filing separately**
☐ **Married filing jointly** or **Qualifying widow(er)**
☐ **Head of household** (Check only if you're unmarried and pay more than half the costs of keeping up a home for yourself and a qualifying individual.)

Complete Steps 2–4 ONLY if they apply to you; otherwise, skip to Step 5. See page 2 for more information on each step, who can claim exemption from withholding, when to use the estimator at *www.irs.gov/W4App*, and privacy.

Step 2: Multiple Jobs or Spouse Works

Complete this step if you (1) hold more than one job at a time, or (2) are married filing jointly and your spouse also works. The correct amount of withholding depends on income earned from all of these jobs.

Do **only one** of the following.

(a) Use the estimator at *www.irs.gov/W4App* for most accurate withholding for this step (and Steps 3–4); **or**

(b) Use the Multiple Jobs Worksheet on page 3 and enter the result in Step 4(c) below for roughly accurate withholding; **or**

(c) If there are only two jobs total, you may check this box. Do the same on Form W-4 for the other job. This option is accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld . . ▶ ☐

TIP: To be accurate, submit a 2022 Form W-4 for all other jobs. If you (or your spouse) have self-employment income, including as an independent contractor, use the estimator.

Complete Steps 3–4(b) on Form W-4 for only ONE of these jobs. Leave those steps blank for the other jobs. (Your withholding will be most accurate if you complete Steps 3–4(b) on the Form W-4 for the highest paying job.)

Step 3: Claim Dependents

If your total income will be $200,000 or less ($400,000 or less if married filing jointly):

Multiply the number of qualifying children under age 17 by $2,000 ▶ $ _____

Multiply the number of other dependents by $500 . . . . ▶ $ _____

Add the amounts above and enter the total here . . . . . 3 $

Step 4 (optional): Other Adjustments

(a) Other income (not from jobs). If you want tax withheld for other income you expect this year that won't have withholding, enter the amount of other income here. This may include interest, dividends, and retirement income . . . . . 4(a) $

(b) Deductions. If you expect to claim deductions other than the standard deduction and want to reduce your withholding, use the Deductions Worksheet on page 3 and enter the result here . . . . . 4(b) $

(c) Extra withholding. Enter any additional tax you want withheld each **pay period** . . 4(c) $

Step 5: Sign Here

Under penalties of perjury, I declare that this certificate, to the best of my knowledge and belief, is true, correct, and complete.

Appendix A

There are two versions of a full quarter, from start to finish, payroll project located within Appendix A. Starting in chapter 2, instructors may assign coinciding portions from the appendix to supplement the materials in the textbook. This project may be assigned using a three-month data set that starts on October 1 and runs through the year-end tax reporting. The other option is to assign the short version, which contains only the December transactions.
