Introduction to Nursing Research 6th edition Boswell Test Bank

SKU: 9781284252149-TEST-BANK

Multiple Choice

1. Which type of processes include assessing and delineating a problem through communication of an identifiable problem, pursuing and appraising the obtainable details, implementing a practice intervention as a product of the information, and evaluating the accomplished process for effectiveness?
A) Quality improvement processes
B) Evidence-based practice processes
C) Continuous performance improvement processes
D) Intuitive nursing practice processes

Ans: B
Ahead: Introduction
Complexity: Moderate
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Application

2. The purpose of which of the following is to furnish a methodical, data-driven project concerning attitudes to enrich procedures and or outcomes?
A) Quality improvement (QI)
B) Evidence-based practice (EBP)
C) Continuous performance improvement (CPI)
D) Translational research

Ans: A
Ahead: Introduction
Complexity: Moderate
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall

3. Catalano suggests that which piece of legislation will result in nursing responding to societal needs with increased attention while still maintaining the previous nursing focus?
A) Patient Protection and Affordable Care Act
B) Health Insurance Portability and Accountability Act
C) Consolidated Omnibus Budget Reconciliation Act
D) Emergency Medical Treatment and Active Labor Act

Ans: A

Introduction to Nursing Research 6th edition Boswell Test Bank

Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Easy
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall

4. Which of the following represents the current trend related to the funding of healthcare activities?
A) Value-based purchasing
B) Patient-based purchasing
C) Evidence-based purchasing
D) Volume-based purchasing

Ans: A
Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Easy
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall

5. While the implementation of the Affordable Care Act (ACA) is ever-changing, the current direction for nursing seems to be toward preventive healthcare management in which nurses are being called on to consider and implement best practices in which type of settings with increasing regularity?
A) Hospital settings
B) Emergency settings
C) Outpatient settings
D) Workplace settings

Ans: C
Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Easy
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Application

6. With the focus on _____, the expectation for innovative methods for assessing the actual impact of individual nurses on best practices and quality care is being strongly investigated.
A) quality improvement
B) continuous process improvement

C) value-based purchasing
D) electronic medical records

Ans: D
Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Moderate
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall

7. For the educational community, attention must be given to ensuring that nurses coming out of nursing programs understand and incorporate evidence-based practice into the essence of the practice of providing which type of nursing care?
A) Clinical nursing care
B) Skilled nursing care
C) Holistic nursing care
D) Palliative nursing care

Ans: C
Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Moderate
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall

8. Which process corresponds to the use of evidence-based practice on clinical units and in primary care settings?
A) Outcomes research
B) Translational research
C) Critical thinking
D) Quality improvement

Ans: C
Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Moderate
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall.

9. What types of questions are directed toward discovering how people feel or experience a specific situation or environment?
A) Quantitative
B) Qualitative
C) Closed
D) Open

Ans: B
Ahead: Exploring EBP in Light of Research
Complexity: Moderate
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall.

True/False

1. True or False? The incorporation of evidence-based practice, research, and quality improvement provides the fortification and reinforcement of the evidence needed to provide effective and efficient health care in multiple settings.

Ans: True
Ahead: Providing a Line of Reasoning for EBP and Evidence-Based Research
Complexity: Easy
Subject: Chapter 1
Title: Connection Between Research and Evidence-Based Practice
Taxonomy: Recall
