# *Nursing Research 6th edition Houser Test Bank*

SKU: 9781284296570-TEST-BANK

Import Settings:
Base Settings: Brownstone Default
Information Field: Complexity
Information Field: Ahead
Information Field: Subject
Information Field: Title
Information Field: Feedback
Highest Answer Letter: F
Multiple Keywords in Same Paragraph: No
NAS ISBN13: 9781284296679, add to Ahead, Title tags

**Multiple Choice**

1. Testing traditional approaches to patient care for continued relevance and effectiveness is the goal of:
A) nursing research.
B) journal club.
C) research-related activity.
D) clinical practice guideline.
Ans: A
Complexity: Moderate
Ahead: What Is Nursing Research?
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Application

2. When a research report is subjected to appraisal by a neutral party who is unassociated with the research and unaware of the report's authorship, it is known as a:
A) blinded peer review.
B) replicated review.
C) peer review.
D) blinded nursing research.
Ans: A
Complexity: Moderate
Ahead: What Is Nursing Research?
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Recall

3. The Institute of Medicine issued a seminal report on the future of nursing that set a goal that, by 2020, _____ of all clinical decisions would be based on research evidence.
A) 90%
B) 50%
C) 100%
D) 75%
Ans: A
Complexity: Moderate
Ahead: Research: A Fundamental Nursing Skill

Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Recall

4. The creation of which organization in 1986 was a seminal step in recognizing the importance of nursing research?
A) National Center for Research for Nursing
B) National Institutes of Health (NIH)
C) National Institute of Nursing Research (NINR)
D) American Association of Colleges of Nursing
Ans: A
Complexity: Moderate
Ahead: The Evolution of Research in Nursing
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Analysis

5. Groups whose members meet periodically to critique published studies or care standards are called:
A) journal clubs.
B) research conferences.
C) blinded reviews.
D) peer reviews.
Ans: A
Complexity: Moderate
Ahead: Contemporary Nursing Research Roles
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Recall

6. Nursing process includes the stages of assessment, planning, intervention, and:
A) evaluation.
B) measurement.
C) improvement.
D) feedback.
Ans: A
Complexity: Moderate
Ahead: Research Versus Problem Solving
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Recall

**True/False**

1. True or False? Evidence-based practice must be supported by randomized controlled trials.
Ans: False

Complexity: Easy
Ahead: Research as Evidence in Nursing Practice
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Analysis

2. True or False? Like nursing, evidence-based medicine requires a holistic approach to the care of individuals.
Ans: False
Complexity: Easy
Ahead: Research as Evidence in Nursing Practice
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Analysis

**Fill-in-the-Blank**

1. In a(n) _____ review, personal influence is avoided.
Ans: blinded
Complexity: Moderate
Ahead: What Is Nursing Research?
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Application

2. In quality improvement, the goal of data collection is _____ application.
Ans: internal
Complexity: Difficult
Ahead: Contemporary Nursing Research Roles
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Application

3. The last step in the EBP is to _____ outcomes.
Ans: disseminate
Complexity: Moderate
Ahead: How Can Evidence Be Used in Healthcare?
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Application

4. One study showed that the vast majority of nurses _____ in the value of EBP.
Ans: believe
Complexity: Easy

Ahead: Barriers for Implementing Evidence-Based Practice
Subject: Chapter 1
Title: The Importance of Research as Evidence in Nursing
Taxonomy: Recall
