   e. Excluded (LO 2.1)

   g. Included (LO 2.1)
   h. Excluded (LO 2.1)
   i. Excluded (LO 2.1)
   j. Excluded (LO 2.1)
   k. Included (LO 2.1)

2. The non-cash payment of a truck for services performed is includable income to Jane. The tax law states that gross income is "all income from whatever source derived." There is no exception in the law for non-cash items received in exchange for services. The amount of gross income is the market value on the date of the payment which is $6,000. Jane can probably also recognize the $800 loss on the sale of the truck since it was business property. (LO 2.1)

3. a. **$300**. Gross income includes "all income from whatever source derived." The value of the hair styling is income to Larry for the performance of services. There is no gross income exception in the tax law for "barter" income.
   b. **$300**. Gross income includes "all income from whatever source derived." The value of the tax return is income to Sheila for the performance of services. There is no gross income exception in the tax law for "barter" income. (LO 2.1)

4. Illegal income is still taxable since there is no exception excluding it in the tax code. When there is not an explicit exception, gross income is "all income from whatever source derived." (LO 2.1)

5. a. $61,700. Taxable wages are taken from Box 1.
   b. It would appear that Kristen made $3,500 of contributions toward her employer's 401(k) plan. The health care and group term life does not create a difference between Box 1 and wages taxable for Social Security and Medicare in Boxes 3 and 5. (LO 2.2)

6. None of the cost of the insurance or amounts paid by the insurance company for surgery or treatment are taxable to Skyler. These amounts are specifically excluded from taxable income under the tax law. (LO 2.3)

Income Tax Fundamentals 2019 37th edition Whittenburg Solutions Manual

7. **$0**. Taxpayers may exclude the total amount received for payment or reimbursement of medical expenses. Premiums for health insurance paid by the taxpayer's employer are also excluded from the taxpayer's gross income. In addition, the $1,500 ($3,500 – $2,000) not paid by the insurance company is deductible as an itemized deduction on Ellen's return, subject to the medical expense deduction limitations. (LO 2.3)

8. a. No. The meals are furnished by the employer on the business premises of the employer during working hours because the employer limits the employee to short meal periods.
   b. No. The meals are furnished by the employer on the business premises of the employer during working hours because the taxpayer must be available for emergency calls.
   c. Yes. The meals are not furnished for the convenience of the employer. (LO 2.4)

9. **$4,850** = $850 + $4,000. The value of the airline tickets is excluded from gross income under the no additional cost services rule for employees and their families. The $30 of personal typing is excluded under the de minimis fringe benefits rule. The $850 worth of employee discount coupons for hotel rooms is included in gross income since the hotel division is a different line of business than that in which Linda is employed. The $4,000 tuition payment must be included in gross income since Richard is working on a graduate degree and not providing teaching or research activities. (LO 2.5)

10. Yes. Tom will be better off reducing his taxable income by $2,650 by using the health care flexible spending account. Since his income will be $2,650 less, he will pay less tax than he would otherwise. (LO 2.5)

11. a. **$6,400**.
    b. **$260**. A non-qualified plan award may only be excluded up to $400; thus, $260 is taxable.
    c. **$1,000,000**.
    d. **$30,000**. (LO 2.6)

12. a. **$4,000**.
    b. **$14,500**.
    c. **$0**. (LO 2.6, 2.12)

13. SIMPLIFIED METHOD WORKSHEET

1)	Enter total amount received this year.		1) $ 7,000
2)	Enter cost in the plan at the annuity starting date.		2) $48,300

4)	Divide line 2 by line 3.		4) $ 230
5)	Multiply line 4 by the number of monthly payments this year. If the annuity starting date was before 1987, also enter this amount on line 8; and skip lines 6 and 7. Otherwise go to line 6.		5) $ 1,610
6)	Enter the amount, if any, recovered tax free in prior years		6) $ 0
7)	Subtract line 6 from line 2.		7) $48,300
8)	Enter the smaller of line 5 or 7.		8) $ 1,610
9)	Taxable amount this year: Subtract line 8 from line 1. Do not enter less than zero.		9) $ 5,390

(LO 2.7)

14. **$61,000** = $100,000 – $27,000 – $12,000. Since the policy was transferred for valuable consideration, the proceeds are taxable to the extent that they exceed the sum of the cash value at the time of transfer plus the premiums paid. (LO 2.8)

Income Tax Fundamentals 2019 37th edition Whittenburg Solutions Manual

15. **$500**. A beneficiary, must include the entire amount of interest received with respect to the policy proceeds in gross income. The $9,000 principal amount may be excluded from gross income. (LO 2.8)
16. David has received an accelerated death benefit or viatical settlement which is excluded from taxable income. (LO 2.8)
17. None of the payment is taxable. Life insurance proceeds are generally considered to be tax-free and specifically excluded from taxable income. (LO 2.8)
18. Qualified dividends are taxed at either 0%, 15%, or 20% depending on income and filing status. For example, a single taxpayer with income below $36,800 has a capital gain rate of 0%. Income over $38,600 but below $425,800 pays at 15% and the capital gains rate is 20% for income above that. A 3.8% Medicare tax on net investment income will be added to the rates for certain high-income taxpayers. (LO 2.9)
19. The taxpayer can either (1) report the interest in the year the bonds are cashed or in the year they mature, whichever is earlier (no election is required to use this method), or (2) the taxpayer may elect to report the increase in redemption value each year. (LO 2.9)
20. See Schedule B on Page 42. (LO 2.9)
21. **6.00%** = 4.5% ÷ (100% – 25%). (LO 2.10)
22. The tax-exempt municipal bond has the same 5% before and after-tax rate of return. The corporate bond has an after-tax return of 4.55% (7% x (1 – 35%)). Karen should invest in the tax-exempt bond due to the higher after-tax rate of return. (LO 2.10)
23. **$5,600**. Inheritances are excluded from taxable income; however, subsequent earnings on inherited property must be included in income. (LO 2.11)
24. $10,000 is taxable. This gift is clearly bonus income in a business setting so it does not qualify for tax-free gift treatment, even if Gwen's client calls the payment a gift. (LO 2.11)
25. None of the gift is taxable. Gifts are excluded from the taxable income of the person receiving the gift. (LO 2.11)
26. $12,000 is taxable since there is no exclusion for payments made for room and board. $8,000 is not taxable, since scholarships for tuition are specifically excluded from taxable income. (LO 2.12)
27. a. (1) **$450**.
    (2) **$450**.
    (3) **$0**.
    b. (1) **$0**.
    (2) **$425,000**.
    (LO 2.13)
28. Arlen may deduct the alimony of $2,000 per month on his tax return. He cannot deduct the child support. Jane must report the alimony as income on her tax return. The child support is not taxable income to her. (LO 2.13)
29. No gain is taxable to Cindy on the transfer of the house since it is part of a property settlement related to a divorce. Allen has a basis of $90,000 in the house for calculating tax on any future sale of the house. (LO 2.13)
30. **$11,947**; Tuition, room and board, and books. (LO 2.14)
31. **$0**; All distributions are used for qualifying expenses. (LO 2.14)
32. **$3,250**. Unemployment benefits received are included in gross income. (LO 2.15)
33. As calculated on the worksheet on Page 43. (LO 2.16)
34. a. **Yes**. Tax-free municipal bond income is added to AGI in the formula to determine the amount of taxable Social Security.
    b. **Zero**. The taxpayer's income is below the threshold amount used in the formula to determine whether Social Security is taxable.
    c. **85%**. High-income taxpayers must include 85% of Social Security benefits in taxable income. (LO 2.16)

Ms. Vanessa Lazo

San Diego, CA 92182

Dear Ms. Lazo,

Thank you for requesting my advice concerning the tax treatment of your scholarship and employment at Prestige Private University (PPU). I have researched your question and have determined that a portion of your scholarship is taxable, but a portion is excluded from gross income.

The tuition reduction from $43,000 to $13,000 is not considered gross income that you must report as taxable. This simply represents a lower negotiated price for tuition in much the same way when you negotiate a price below the sticker price for a new car. That purchase price reduction is not income.

PPU is providing you with a $20,000 scholarship. The portion you use for tuition ($13,000) is excluded from gross income as a qualified scholarship; however, the additional $7,000 being used for room and board is taxable and must be included in gross income.

Lastly, a payment for services such as the $1,500 you are receiving for serving as a lab assistant, is compensation and is included in gross income.

As a result, your total gross income from PPU will be $8,500 and the excludable scholarship is $13,000.

My conclusion is based upon the facts that you have provided me. If you have any questions or would like further explanation, please do not hesitate to call.

Sincerely,
Trevor Malcolm

Chapter Two
Gross Income and Exclusions
2019

Learning Objective 2.1 The Nature of Gross Income

Gross income is the initial point of tax computation and is composed of the following items:

1. Compensation for services, including fees, commissions, fringe benefits, and similar items
2. Gross income derived from business
3. Gains derived from dealings in property
4. Interest
5. Rents
6. Royalties
7. Dividends
8. Alimony and separate maintenance payments
9. Annuities
10. Income from life insurance and endowment contracts
11. Pensions
12. Income from discharge of indebtedness
13. Distributive share of partnership gross income
14. Income in respect of a decedent
15. Income from an interest in an estate or trust

The general rule is that "*all income from whatever source derived"* must be included in gross income unless specifically excluded.

- Noncash items should be reported at a fair market value.
- Specific exclusions canbe found in Table 2.2.

Learning Objective 2.2 Salaries & Wages Income

- Wages are primary way of earning income in U.S.
- Reported on Form W-2, and then employee reporting Box 1 on Line 1 of Form 1040
- Figure 2.1 illustrates W-2

Learning Objective 2.3 Accident & Health Insurance

Taxpayers may exclude from income the entire amount received from accident or health insurance plans for payment of medical care.

- Taxpayers may also exclude any premiums paid by a taxpayer's employer from income.
- If the employer pays premiums on behalf of the employee for health, accident, or long-term care insurance, the employer may deduct them.

Learning Objective 2.4 Meals and Lodging

Meals and lodging provided by employers to employees for the convenience of the employer

are generally not considered part of compensation and *so are not included in employee's taxable income.*

- Taxpayers may exclude from income the value of lodging provided by an employer if the lodging is located on the business premises and must be accepted as a requirement of employment.
- Meals provided by employer for employee are excludable, but employer, under TCJA, may only deduct 50% of cost of providing meals

Learning Objective 2.5 Employee Fringe Benefits

All fringe benefits must be included in an employee's gross income unless specifically excluded by law as follows.

Flexible Spending Accounts

Employers may form plans which allow employees to set aside money from their salary before it is taxed to pay for one or more expenses.

- These expenses, in 2018, include
  - Dependent care accounts (maximum of $5,000)
  - Medical flexible spending accounts (up to $2,650 per year)
  - Public transportation and parking at work (up to $260/month).

Group Term Life-Insurance

Employers may pay for up to $50,000 of group term life insurance for employees.

Education Assistance Programs

Employer may provide up to $5,250 of excludable tuition assistance.

- Requires existence of a written plan.

No-Additional-Cost Services

Employees may receive tax-free services from their employer, if it is in major line of business in which employed.

- For example - an airline employee's free standby airplane ticket (employee is flying at no additional cost to the employer).

Qualified Employee Discounts

Employees may receive tax-free discounts from their employer

- On services, limited to 20% of typical customer price
- On merchandise, limited to mark up on product

Working Condition Fringe Benefits

Employees may exclude from income any property or services provided by the employer that would be excluded from income anyway.

- For example: use of company car for business or subscription to an appropriate professional journal (for example, a tax journal for a CPA firm).

Income Tax Fundamentals 2019 37th edition Whittenburg Solutions Manual

***De Minimis* Fringe Benefits**
Some benefits are so minimal that accounting for them is impractical.

- For example: occasional use of office equipment for personal use, Christmas turkeys, picnics, etc.

Tuition Reduction
Employees of educational institutions can exclude the value of a tuition reduction from their income if it was for undergraduate work and is available to all employees.

- Exclusion applies to employees, spouses, and dependents if a tuition reduction plan exists for them.
- Graduate students can only exclude tuition reductions if they work at the same school where they are teaching or doing research.

Athletic Facilities
Employees may exclude from gross income the value of the use of an athletic facility located onsite

Retirement Planning Fringe Benefit
Qualified retirement planning services are any retirement planning services provided to an employee and his/her spouse by an employer maintaining a "qualified employer plan."

- The exclusion *does not apply* to services that may be related to tax preparation, accounting, legal or brokerage services.

Learning Objective 2.6 Prizes and Awards

Prizes and awards are taxable income to the recipient.

- Other awards are also generally taxable, even if they are awards given for accomplishments and without solicitation by the taxpayer.
- Certain employee achievement awards made in recognition of length of service or safety achievement can be excluded from income.
    - As a rule, the maximum excludable amount is $400
    - But if the award is given through a "qualified plan" the maximum exclusion increases to $1,600.

Learning Objective 2.7 Annuities

- An annuity is an investment that pays periodic payments to the purchaser for the remainder of his/her life.
- Standard mortality tables, based on the current age of the annuitant, are used to calculate
- Each annuity payment received contains an element of taxable income and an element of tax-free return of the original purchase price.
- To calculate the taxable portion of the payment, the tax law provides two methods
    - The Simplified Method or the general rule.

The Simplified Method
Taxpayers are generally required to use the simplified method to calculate the taxable amount of

Income Tax Fundamentals 2019 37th edition Whittenburg Solutions Manual

annuities started *after November 18, 1996.*

- *Note*: Non-qualified plan annuitants and some annuitants age 75 and over still have to use the general rule rather than the simplified method.
- To calculate the taxable amount, the IRS provides a Simplified Method Worksheet. The exclusion ratio is calculated at the start of the annuity and remains constant.

The General Rule

Prior to implementing the simplified method, the general rule ratio used to calculate the amount excluded for most annuities. The calculation is as follows:

$$\frac{\text{Investment in the Contract}}{\text{Annual Payment x Life Expectancy}} \times \text{Amount Received} = \text{Excluded Amount}$$

Employee Annuities

If an employer makes periodic payments to a retirement annuity on behalf of an employee and the payments are made to a qualified retirement plan, *the contributions by the employer are not taxable to the employee*.

- Because the contributions are not taxable when they are made, they are not considered part of the employee's investment in the contract when calculating the exclusion ratio.

Learning Objective 2.8 Life Insurance

Life insurance proceeds are excluded from gross income.

- To be excluded, proceeds must be paid to the beneficiary by reason of the death of the insured.
    - If the proceeds are taken over several years instead of in a lump sum, the insurance company pays interest on the unpaid proceeds. The interest is generally taxable income
- Early payouts of life insurance are excludable
- Payouts from viatical settlements can be excluded from gross income:
    - For terminally ill taxpayers and
    - For a chronically ill taxpayer to extent proceeds pay for long-term care.
        - These exclusions require certification by an M.D.

Learning Objective 2.9 Interest and Dividend Income

Interest and dividend income is part of gross income.

- If a taxpayer earns $1,500 or more in interest and dividends, must file a Schedule B
- Interest and dividends from cooperative banks, credit unions, domestic building and loan associations, domestic savings and loan associations, federal savings and loan associations and mutual savings banks are included.

Savings bonds come in three different forms:

- Series EE, Series HH and Series I.
    - Series EE bonds are issued at a discount.
    - Series HH bonds are bonds that have interest paid semi-annually.

Income Tax Fundamentals 2019 37th edition Whittenburg Solutions Manual

- Series I bonds do not pay interest until maturity, but earnings are adjusted for inflation on a semi-annual basis.
- *Note:* Cash basis taxpayers report the increase in redemption value on a Series EE or Series I bonds

- Dividends are one type of distribution paid to a taxpayer by a corporation
- Types of dividends are:
  - Ordinary dividends, nontaxable distributions and capital gain distributions.
    - There are special lower tax rates for qualifying dividends.
    - *Note:* Dividends that do not qualify are taxed at ordinary rates.

Income Level	**Qualifying dividends and long-term capital gains rates***
MFJ $0-$77,200	0%

> $479,001	20%

*An additional 3.8% Medicare surtax on Net Investment Income including qualifying dividends applies to high-income taxpayers. (LO 1.9)	

- Interest reported on Form 1099-INT (Box 1)
- States may not tax interest from U.S. government obligations (reported in Box 3)
- Tax-exempt interest reported in Box 8

- Dividends reported on Form 1099-DIV
  - Ordinary dividends (Box 1a); qualified dividends (Box 1a); capital gain

dividends (Box 2a)
- Capital gains dividends are reported on Schedule D

Learning Objective 2.10 Municipal Bond Interest

- Interest income earned on state or local government bonds is exempt from federal tax.

Note: The interest exclusion encourages high-income taxpayers to lend money to state and local governments at lower interest rates.

After-tax return = Tax-free interest rate/(1.00 – tax rate)

Learning Objective 2.11 Gifts and Inheritances

The fair market value of gifts and inheritances may be excluded from taxable income

- But income received from property after the transfer is taxable.
- Gifts given in the business setting are considered taxable income
  - If gift recipient provides service in return for gift, presumed that gift is income for the service performed.

Learning Objective 2.12 Scholarships

Scholarship dollars awarded that are used to *pay room and board are taxable*

- Scholarship dollars spent for tuition, fees, books, and course-required supplies and equipment are *exempt*.
- Payments received by students for part-time employment including work-study are taxable as compensation.

Learning Objective 2.13 Alimony

Alimony payments are deductible by the individual making the payments and taxable income to the person receiving the payments.

- The term "alimony," for income tax purposes, includes separate *or periodic maintenance payments* made to a spouse or former spouse.
- Payments must meet certain requirements to be considered alimony.
  - Rules for divorces prior to 1985 were different than they are now so consult the tax rules for that time period if reference to those particular rules are needed.

To qualify as alimony, payments must:

…be in cash and be received by spouse.

…be made under a decree of divorce/separation or associated written agreement

…cease upon the death of the spouse

…not be designated as anything other than alimony in the written agreement

…not be made to members of the same household

…not be child support payments

Payments contingent on age or marital status of child are not alimony and therefore

nondeductible.

- *Note: Alimony paid by high-income spouse to low-income spouse will result in tax savings to high-income spouse.*
- Payments contingent on age or marital status of child are not alimony.
    - May be an important factor in determining which spouse is entitled to claim the dependency exemption for the child.
- Child support payments must be up to date before any amounts paid may be treated as alimony.

Learning Objective 2.14 Educational Incentives

Qualified Tuition Programs (QTP) allow taxpayers to buy in-kind tuition credits for qualified higher education expenses or to contribute to an account

- Qualified higher education expenses include tuition, fees, books, supplies, and equipment required for the enrollment or attendance at an eligible education intuition.
    - No income limit on the amount of contributions to the QTP
    - Contributions are *not* tax deductible.
    - The contributions are considered gifts and thus subject to gift tax rules.
- TCJA now includes tuition in connection with enrollment at elementary/secondary public, private, or religious schools
- Distributions from QTPs may be taken in the same year as education credit (Chapter 6), as long as amount distributed is not used to calculate the credit.

Educational savings accounts (ESAs) are established to pay for qualified higher ed expenses.

- The maximum annual contribution to these plans is $2,000.
- Contributions can be made until the designated beneficiary reaches 18.
- Can't contribute to an ESA in the same year a contribution is made to a QTP
- Contributions to ESAs are phased out {AGI of $95,000-$110,000 (S) and $190,000-$220,000 (MFJ)}
    - Contributions must be made by April 15 of following tax year.

Higher Education Expense Deduction – 'above-the-line' deduction for qualified tuition/related expenses

- No longer available, but this deduction has previously been extended a number of times
- Deduction is $4,000 for single/head of household with AGI below $65,000, and married filing jointly with AGI below $130,000.

Learning Objective 2.15 Unemployment Compensation

Unemployment compensation is fully taxable and must be included in the taxpayer's gross income.

Learning Objective 2.16 Social Security Benefits

- Many taxpayers may exclude all of their Social Security earnings from gross income. Middle and upper income Social Security recipients may have to include *up to 85%* of

ANNUITIES

- An annuity is an instrument that a taxpayer buys (usually at retirement) in return for periodic payments for the remainder of his/her life
- The taxable portion of these periodic payments is calculated based on

Mortality tables provided by IRS

and

The annuity purchase price

©2019 Cengage Learning.

ANNUITIES – SIMPLIFIED METHOD

- Individuals generally required to use this method to calculate taxable amount from an annuity - if annuity payments commenced after 11/18/96
- Taxpayer must fill in simplified method worksheet provided by IRS
  - See pp. 2-14 through 2-15 for example of simplified method worksheet

©2019 Cengage Learning.

ANNUITIES – THE GENERAL RULE

- Before Simplified Method, the General Rule was used for most annuity calculations
- Payments received are both taxable (income) and nontaxable (return of capital)
- Must calculate amount to exclude from income
  1. First, calculate exclusion ratio

     Investment in Contract / (Annual payment × Life expectancy)

  2. Secondly, find the amount to exclude
     Exclusion Ratio (from step 1) *× Annual Amount of Annuity Received*

©2019 Cengage Learning.

ANNUITIES/PENSIONS EXAMPLE

Example

Din has saved $750,000 in his retirement account and uses it to purchase an annuity. His annuity equals $4,800/month and the IRS tables show he is expected to live 19 years. How much is excludable from tax each year of Din's retirement? Assume that Din is required to use the general rule.

SOLUTION (2 of 5)

Example

Din has saved $750,000 in his retirement account and uses it to purchase an annuity. His annuity pays $4,800/month and the IRS tables show he is expected to live 19 years. How much is excludable from tax each year of Din's retirement? Assume that Din is required to use the general rule.

Solution

$750,000/($4,800 × 12 months × 19 years) = .685

.685 = 68.5% of amount is excluded from tax

.685 × ($4,800 × 12 months) = *$39,456 annual exclusion*

EMPLOYEE ANNUITIES

- Employers may make periodic payments to retirement plans on behalf of their employees
- These payments are not taxable to employee in current year
- They are not considered part of investment when calculating exclusion ratio

LIFE INSURANCE PROCEEDS

- Life insurance proceeds are *excluded* from gross income if:
  - Proceeds paid to beneficiary by reason of death of the insured

    and
  - Beneficiary has an insurable interest

Note: Interest on proceeds paid over several years is generally taxable income

©2019 Cengage Learning.

LIFE INSURANCE PROCEEDS EXAMPLE

Example

Karina dies on 6/15/18, leaving her husband, Dann, a $500,000 life insurance policy. The proceeds will be paid out to Dann $100,000 per year plus interest for 5 years.

In the current year, Dann receives $105,000 ($100,000 + $5,000 interest). How much is taxable to Dann in the current year?

SOLUTION (3 of 5)

Example

Karina dies on 6/15/18, leaving her husband, Dann, a $500,000 life insurance policy. The proceeds will be paid out to Dann $100,000 per year plus interest for 5 years. In the current year, Dann receives $105,000 ($100,000 + $5,000 interest). How much is taxable to Dann in the current year?

Solution

Dann must include the $5,000 of interest income in his gross income calculation; the face value of $100,000 is not taxable.

VIATICAL SETTLEMENTS

- Also known as accelerated death benefits
- Viatical settlements are excludable from gross income in certain situations
  - Chronically or terminally ill taxpayer collects early payout from insurance company or sells/assigns policy to a viatical settlement provider
    - *Terminally ill* patient must have certification from MD stating that he/she reasonably expected to die within 24 months
    - *Chronically ill* must have certification from MD stating the he/she is unable to perform daily living activities unassisted

©2019 Cengage Learning.

LIFE INSURANCE POLICY TRANSFERRED FOR VALUE

- If policy is transferred for value, then all or part of the proceeds may be taxable to recipient

  Taxable amount = Proceeds from death of insured

  − Cash surrender value at time of transfer

  + Premiums paid by purchaser

- Exception: if policy is transferred for value to partner of insured, a partnership in which insured is a partner or a corporation in which insured is an officer, then policy proceeds are *not* taxable

©2019 Cengage Learning.

LIFE POLICY TRANSFER EXAMPLE

Example

Bianca transfers a life insurance policy with a face value of $25,000 and cash surrender value of $4,000 to Yvette as payment for services rendered. Yvette pays premiums of $500 per year for a total of $1,500 in the ensuing 3 years; Bianca dies and Yvette collects the $25,000. How much must Yvette include in her gross income?

How would this answer differ if Yvette and Bianca were partners in a partnership?

SOLUTION (4 of 5)

Example

Bianca transfers a life insurance policy with a face value of $25,000 and cash surrender value of $4,000 to Yvette as payment for services rendered. Yvette pays premiums of $500 per year for a total of $1,500 in the ensuing three years; Bianca dies and Yvette collects the $25,000. How much must Yvette include in her gross income? How would this answer differ if Yvette and Bianca were partners in a partnership?

Solution

Yvette must include $19,500 in income [$25,000 − $4,000 + $1,500].

If Yvette and Bianca were partners in a partnership, the entire proceeds ($25,000) would be tax-free.

DIVIDEND INCOME

- *3 kinds of dividends*
  - Ordinary dividends are most common
    - Return of net income to shareholders
    - Schedule B when total dividend income > $1,500
  - Nontaxable distributions are return of original investment - not paid from corporation's earnings and profits
    - Not included in taxpayer's income and reduces basis in stock
  - Capital gain distributions (CGD)
    - When stock reaches zero basis, further distributions are CGD
    - *Report on page 1 of Form 1040 or Schedule D of Form 1040*

©2019 Cengage Learning.

CURRENT TAX RATES FOR DIVIDENDS

- "Qualifying dividends" are classified by corporations issuing dividends and brokerage firms holding stock investments

MUNICIPAL BOND INTEREST

- Taxpayer may exclude interest on state and local government
- Interest rates generally reflect after-tax return that compensates higher income taxpayers
- After-tax return for tax-free bond calculated as follows

After-tax return = Tax-free interest rate / (1.00 − taxpayer's tax rate)

©2019 Cengage Learning.

MUNICIPAL BOND INTEREST EXAMPLE

Example

Gopal is in the 32% federal income tax bracket and invests in a Nashville City Bond paying 6%. What taxable interest rate will yield the same after-tax return as the municipal bond?

SOLUTION (5 of 5)

Example

GIFTS & INHERITANCES

- Inheritances are excluded from income
  - Any income generated from property received after transfer is taxable
  - Estate may incur taxes

- Gifts received are excluded from income

ALIMONY

- Alimony, prior to 12/31/18, was deductible to payer and taxable to payee
  - TCJA eliminated the deduction for alimony; conversely, the recipient need not include alimony received as income
- Alimony payments must meet *five requirements* as follows (if subject to divorce agreement after 1984)
  - Must be in cash and received by ex-spouse
  - Must be made in connection with written instrument
  - Can't continue after death of ex-spouse
  - Can't be designated as anything other than alimony
  - Parties may not be members of the same household

©2019 Cengage Learning.

CHILD SUPPORT

- Child support is not deductible to payer and not taxable to payee
- Is important factor, however, in determining which spouse gets dependency exemption

©2019 Cengage Learning.

QUALIFIED TUITION PROGRAMS (QTP)

- Sometimes called §529 tuition plans
- Allows taxpayers to meet higher education expenses by
  - Buying in-kind tuition credits or certificates

    or

  - Contributing to an established savings-type account
- Distributions are generally not taxed if funds used for higher education
  - The TCJA identifies "tuition' as the expense targeted; therefore, books, supplies, equipment, etc. do not appear to qualify. *Reasonable room and board costs qualify.*
  - The TCJA expanded this plan to include tuition for elementary/secondary education in public, private or religious schools, up to $10,000/year
  - If not used for purposes outlined or the taxpayer withdraws early, then distributions are taxable plus 10% penalty

©2019 Cengage Learning.

QTP

- Annual contribution amounts vary
  - Contribution is not deductible
  - High limits in most states (but subject to gift tax rules)
- May claim American Opportunity Credit or Lifetime Learning Credit (see Chapter 7) in same year as distribution taken from a QTP
  - As long as distribution is *not used for the same expenses* for which an education credit was claimed
  - Must also reduce qualified higher education expenses excluded from income by scholarships, veterans' benefits, etc.

©2019 Cengage Learning.

EDUCATION SAVINGS ACCOUNTS (1 of 2)

- These accounts allow taxpayers to meet higher education expenses by contributing to an educational savings account
- Annual contributions are not deductible
  - Allowed until beneficiary reaches 18
  - Limited to $2,000/year per child
  - Can’t make in same year as QTP contribution
  - Phase-out when AGI exceeds $190,000 (MFJ) or $95,000 (S)

©2019 Cengage Learning.

EDUCATION SAVINGS ACCOUNTS (2 of 2)

- Distributions are tax free if used for higher education or private elementary/secondary ed
  - Tuition, fees, books, supplies, equipment, room/board if at least ½ time student
  - Distribution assumed to be pro rata from each category (return of capital versus earnings)
- May claim educational credit in same year as distribution as long as distribution is not used for the same expenses
  - If distributions > qualified education expenses, part of distribution will be taxable income

©2019 Cengage Learning.

HIGHER EDUCATION EXPENSE DEDUCTION*

- Up to $4,000 above-the-line deduction for qualified tuition and related expenses (phased out over $130,000 AGI (MFJ))

  or

- Up to $2000 deduction (phased out over $65,000 AGI (HOH, S))

Currently expired, included herein because has been previously extended multiple times

©2019 Cengage Learning.

UNEMPLOYMENT COMPENSATION

- Unemployment compensation payments are fully taxable in 2018
- Reported on Form 1099-G
- These payments are deductible on some state's income tax returns

©2019 Cengage Learning.

SOCIAL SECURITY BENEFITS

- Part of Social Security benefits *may be* included in gross income
  - Maximum inclusion amount = 85%
- Inclusion based on taxpayer's Modified AGI (MAGI)
  - MAGI = AGI + tax-exempt interest (and other items)
- If [MAGI + (50%)(SS benefits)] < base amount* then benefits are not includable

**If this number exceeds base amount, must compute taxable portion. See pages 2-34 and 2-35 for sample worksheets on how to calculate includable Social Security benefits.*

©2019 Cengage Learning.

CALCULATING TAXABLE AMOUNT OF SS BENEFITS

If [MAGI + (50%)(SS benefits)] exceeds base amount as follows:

Base Amount	Filing Status
$32,000	MFJ
$25,000	All others

…then, the taxable amount is calculated by completing the Simplified Taxable Social Security Worksheet (pages 2-34 – 2-35)
