For the tax year 2024,Noah reported gross income of $300,000 on his timely filed Federal income tax return.

a.

Presuming that the general rule applies, when does the statute of limitations on assessments normally expire?

b.

Suppose that Noah inadvertently omitted gross income of $76,000. When does the statute of limitations on assessments expire?

c.

Suppose the omission was deliberate, not inadvertent. When does the statute of limitations on assessments expire?

Suggested answer: *a.Three years from April 15, 2025.*
b.

If more than 25% of gross income is omitted, a six-year statute applies (i.e., six years from April15, 2025). In this case,it does because $76,000 is more than $75,000 (25%×$300,000).
c.If fraud is involved, the statute never expires.

b.Civil fraud.
c.Criminal fraud.

Paige is the sole shareholder of Citron Corporation. During the year, she leases a building to Citron for a monthly rental of $80,000. If the fair rental value of the building is $60,000, what are the income tax consequences to the parties involved?

Suggested answer: *The rent charged by Paige is not "arms length"; as such, Citron Corporation's rent deduction is $60,000 (not $80,000). The $20,000 difference is a nondeductible dividend distribution. For Paige, the change merely requires reclassification. Instead of $80,000 of rent income, she has $60,000 of rent income and $20,000 of dividend income.*

Several years ago, Logan purchased extra grazing land for his ranch at a cost of $240,000. In 2025, theland is condemned by the state for development as a highway maintenance depot. Under the condemnation award, Logan receives $600,000 for the land. Within the same year, he replaces the property with other grazing land. What is Logan's tax situation if the replacement land cost:

a.$210,000?
b.$360,000?
c.$630,000?
d.Why?

Suggested answer: *a.*

The full realized gain of $360,000 [$600,000 (condemnation proceeds) – $240,000 (cost of land)] must be recognized, because only $210,000 was reinvested. The condemnation proceeds of $600,000 exceed the amount reinvested by more than $360,000.
b.

Because only $360,000 was reinvested in replacement property, $240,000 ($600,000 – $360,000) of the gain must be recognized.
c.Because the full $600,000 was reinvested, no realized gain need be recognized.
d.

If some of the gain is not reinvested, consistent with the wherewithal to pay concept, there exists the ability to pay the tax. Thus, gain is recognized to the extent the proceeds are not reinvested.

Martina sells the real estate in 2025 for $1,200,000 of which $900,000 is attributable to the improvements. When is Martina taxed on the improvements made by Drab Corporation?

Suggested answer: *Martina is not subject to taxation on the improvements until she disposes of the property (i.e.,2025). After a controversial Supreme Court decision years ago, Congress clarified the tax law to make it more consistent with the wherewithal to pay concept.*

The Federal income tax is based on a pay-as-you-go system and has become a “mass tax.” Explain this statement.

> ***Suggested answer:*** *The pay-as-you-go system is present in the wage and other withholding procedures. In the case of self-employed persons, it is manifested in the required quarterly payments for estimated taxes. The income tax became a mass tax during World War II when its coverage was extended to 74% of the population (from less than 6% in 1939).*

Due to population change, Goose Creek School District has decided to close one of its high schools. Since it has no further need of the property, the school is listed for sale. The two bids it receives are as follows:

United Methodist Church$1,700,000

Planet Motors1,600,000

The United Methodist Church would use the property to establish a sectarian middle school. Planet, a well-known car dealership, would revamp the property and operate it as a branch location.

If you were a member of the School District board, what factors would you consider in evaluating the two bids?

> ***Suggested answer:*** *Although the bid from the United Methodist Church is higher, several other factors need to be considered. Does, for example, Goose Creek School District exempt property owned by churches from itsad valoremtaxes? If so, losing this property from the tax base could prove very costly over the long run. Also, it is probable that income-producing property (such as a car dealership) would be taxed at a higher rate than that owned by a nonprofit organization (a school operated by a church). This assumes, of course, that the school would be taxed at all. The auto dealership also would generate sales tax.*

Morgan inherits her father’s personal residence including all of the furnishings. She plans to add a swimming pool and sauna to the property and rent it as a furnished house. What are some of the*ad valorem*property tax issues Morgan can anticipate?

> ***Suggested answer:*** *The real estate taxes probably will increase for several reasons. The capital improvements and the conversion from residential to rental will trigger the increase. Furthermore, the furnishings may generate anad valoremtax on personalty. (Depending on applicable law, furniture might not be subject to tax unless used for business purposes—such as in this case.)*

> ***Suggested answer:*** *The decrease probably came in 2023 when Deborah reached age 65. The increases probably occurred in 2024 when she added the pool and in 2025 when the residence was converted to rental property with the property reassessed due to the change in use and/or removal of the homestead exemption.*

A lack of compliance in the payment of use taxes can be resolved by several means. In this regard, comment on the following:

a.Registration of automobiles.
b.Reporting of Internet purchases on state income tax returns.

Suggested answer: *a.*

As reflected in Example 5, re-registration of a car purchased out of state is the occasion for the owner's home state to collect the use tax.

b.

Completing the state income tax return reminds (or forces) the taxpayer to pay use tax on out of state purchases.

What are the pros and cons of the following state and local tax provisions?

a.An*ad valorem*property tax holiday made available to a manufacturing plant that is relocating.
b.Hotel occupancy tax and a rental car surcharge.
c.A back-to-school sales tax holiday.

Suggested answer: *a.*

Such a holiday is designed to attract new industry to the area. This will bring more jobs and growth in consumption. On the other hand, if the tax holiday is too generous, this places a strain on available public revenue. The result could be that schools and capital maintenance (roads, public services) will suffer.

b.

The hotel occupancy tax and car rental surcharges are popular because they mainly impact visitors. Also, they can generate considerable revenue to finance major capital improvements. If these taxes become excessive, however, they could discourage major events (such as conventions).

c.

Such holidays are popular with both merchants and consumers and serve the social need of defraying some of the costs of sending children to school. Once established, however, they are difficult to get rid of. Thus, they become an annual drain on sales tax revenue.

In addition, since they are available to buyers at all income levels, they provide tax savings to taxpayers who do not need them and who might obtain greater tax breaks than others, as they have more funds to spend on the tax free items.

Q145. *[Essay] · Bloom's: Evaluate*

What is a severance tax? How productive can it be in terms of generating revenue?

> ***Suggested answer:*** *A severance tax is one imposed when natural resources (e.g., oil, gas, iron ore, coal) are extracted. It is based on the notion that the state has an interest in such resources. For some states, the revenue from severance taxes can be significant. Alaska, for example, relies heavily on its severance taxes and has been able to avoid both a state income tax and a general sales tax.*

Q149. *[Essay] · Bloom's: Understand*

Virtually all state income tax returns contain checkoff boxes for donations to various causes. On what grounds has this procedure been criticized?

> ***Suggested answer:*** *In many cases, the procedure is overused (i.e., a multiplicity of boxes). This overuse adds complexity to the return. Also, in most cases, the donation is being drawn from any income tax refund that might be due. Thus, taxpayers may not fully appreciate that they are paying for such checkoffs.*

Q150. *[Essay] · Bloom's: Evaluate*

State and local governments are sometimes forced to find ways to generate additional revenue. Comment on the pros and cons of the following procedures:

a.Decouple what would be part of the piggyback format of the state income tax.
b.Tax amnesty provisions.
c.Internet shaming.

Suggested answer: *a.*

The decoupling process is easily accomplished regarding new Federal tax changes that have never taken effect at the state level. Taxpayers are not apt to miss what they never have enjoyed.

b.

Tax amnesty provisions generate considerable revenue. It also unmasks many taxpayers who have not previously paid taxes. Now that the taxing jurisdiction is aware of their existence, they will tend to pay taxes in the future.

c.

By use of a public internet site, the taxing authority posts the names of those taxpayers that are delinquent as to various taxes (e.g., sales, income). This public humiliation (or threat of) very often results in compliance.

Eric is the owner and operator of a cash-and-carry liquor store. Eric wonders why he was audited. Can you help explain?

Suggested answer: *Although Eric's audit by the IRS could be the result of sheer chance, this appears unlikely. Press coverage of the burglary, particularly if the items stolen were enumerated, could have put the IRS on notice. Why would anyone keep such a large amount of cash at his personal residence? Also, Eric is in a business where tax evasion is easily accomplished.*

If a settlement is reached, resorting to the courts is avoided.*

In reviewing her 2024 return, you note that she has claimed as a deduction the entire cost of a business building that should have been capitalized and depreciated. What course of action should you follow?

> ***Suggested answer:*** *You should recommend to Melinda that an amended return be filed for 2024 correcting the error. If she refuses, you should assess the gravity of the error and how it impacts on your ability to file an accurate return for 2025. If you cannot do so, then you must decline the engagement.*

Your client, Connie, won $12,000 in a football office pool. She sees no reason to include it in her income for several reasons. First, the amount won will not be reported to the IRS. Second, as an average income employee, she is unlikely to be audited by the IRS. Third, she feels that she has probably lost this much in other past office pools. How do you respond?

> ***Suggested answer:*** *As a practitioner, you cannot play the audit lottery. You mustprepare a proper return for her. Although the use of estimates is allowed, Connie's assumptions as to her losses are not realistic. Even if they were reliable, gambling losses cannot be offset against gambling winnings but must be separately deducted. Thus, the $12,000 must be reported as income or you cannot prepare Connie's return.*

In terms of revenue neutrality, comment on a tax cut enacted by Congress that:

a.Contains revenue offsets.
b.Includes a sunset provision.

Suggested answer: *a.*

Ideally, to achieve revenue neutrality, all tax cuts should be accompanied by revenue offsets.

b.

A sunset provision does not account for the immediate revenue losses generated by a tax cut. It merely provides that such losses will not continue beyond a specified date when the tax cut expires and the former tax law is reinstated.

The tax law allows, under certain conditions, deferral of gain recognition for involuntary conversions.

a.What is the justification for this relief measure?
b.What happens if the proceeds are not entirely reinvested?

Suggested answer: *a.*

By recognizing that the taxpayer's relative economic situation has not changed and that they lack the wherewithal to pay a tax, any recognition of realized gain is deferred.
b.

If the proceeds from an involuntary conversion are not fully reinvested in property that is similar or related in service or use, recognized gain results. Such recognized gain cannot exceed realized gain and will be limited to the amount of the proceeds not reinvested. Recognition is based on the notion that the taxpayer now has the wherewithal to pay the tax that results.

How do the net operating loss provisions in the tax law mitigate the effect of the annual accounting concept?

Q166. *[Essay] · Bloom's: Understand*

In connection with facilitating the function of the IRS in the administration of the tax laws, comment on the utility
of the following:

a.An increase in the amount of the standard deduction.
b.Dollar and percentage limitations on the deduction of personal casualty losses in Federally declared disaster areas.
c.Availability of interest and penalties for taxpayer noncompliance.

Suggested answer: *a.*

An increase in the amount of the standard deduction reduces the number of taxpayers who choose to itemize their personal deductions. This, in turn, reduces the deductions the IRS has to check.

b.

Limitations placed on casualty and theft losses curtail the number of taxpayers who can claim the deduction.

c.

The imposition of extra penalties, in addition to the tax owed, definitely deters taxpayer noncompliance.

Congress reacts to judicial decisions that interpret the tax law in different ways. When it approves of a decision, Congress may act to amend the Code to incorporate the holding. When it disapproves, Congress may amend the Code to nullify its effect. Give an example of each one of these congressional reactions.

Suggested answer: *Congress approved of the judicial conclusion that most stock dividends should be nontaxable and amended the Code to this effect. However, it disagreed as to when leasehold improvements should be taxed to a lessor. Consistent with the wherewithal to pay concept, the improvements are to be taxed on the termination of the lease. Thus, Congress overturned a judicial holding that would have taxed such improvements in the year they are made by the lessee.*

Congressman Smith wants to impose a new tax on sugar drinks. Analyze this proposal against the principles of equity, simplicity, and neutrality.

Suggested answer: *Equity – The tax is regressive in that it will represent a larger portion of a low-income individual's income relative to a higher-income individual.*

Simplicity – While it sounds simple because the ingredients on a container should indicate if there is sugar, issues might arise as to how other forms of sugar, such as corn syrup, affect application of the tax. Also, the amount of sugar in beverages can vary, so some might argue that the tax should not apply if the sugar level is minimal. Will the tax apply to drinks already subject to the alcohol taxes? (Include some discussion of problems of defining sugar drink in the answer.)

Neutrality – The tax will likely reduce sales of sugar drinks.

Q170. *[Essay]*

Ultimately, most taxes are paid by individuals. Explain what this means in terms of income and payroll taxes paid by a corporation.

Suggested answer: *A corporation pays many types of taxes, but like any other expenditure, some of these taxes are ultimately paid by an individual. Income taxes are included in the price the corporation charges for goods and services. Or all or part might result in reduced earnings affecting investors or through reduced wages affecting employees. The payroll taxes paid by the corporate employer are likely borne by workers in the form of lower wages. That is, if the employer did not have to pay the taxes, it could pay higher wages to employees. These taxes might also be borne by customers and investors.*
